CAMERON, MILAM COUNTY, TEXAS, THURSDAY, JULY 17, 1919

NUMBER 11

COMMERCIAL CLUB DIRECTORS MEET

Projects Under Way By Organization

Progressing—Doing Effective

Road Work.

At the regular weekly meeting of the directors of the Cameron Commercial Club held Friday night, July 11, a roll call showed the following present:

Officers—Robert McLane, President; C. W. Lawrence, Vice President; Thomas N. Herring, Secretary.

Directors—J. W. Coleman, W. G. Gillis, J. T. Parma, R. H. McIntosh, Giles Avriett, H. M. Hefley, T. S. Henderson, John E. Mangum.

Committee Chairmen—T. F. Hardy, J. Garrison, Monta Thomas, W. M. Cobb, R. A. Triggs.

There were no standing committee reports heard.

The secretary reported that nothing further had been heard with regard to the improved mail service which included a night clerk and continuous service at the various windows during the day. The president instructed that the matter be taken up again and agitated.

W. G. Gillis, chairman of a special committee to attend a good roads meeting at Caldwell on Tuesday, July 8th, reported that quite a number from Cameron, including: W. G. Gillis, chairman, U. S. Hearrell, W. W. Chambers, Robt. McLane, J. T. Parma, C. W. Lawrence, Walter Sharpe, H. M. Hefley, attended the meeting. He declared that an enthusiastic gathering was had, that representatives from Burleson, Austin, and Washington counties were very enthusiastic over the building of the Colorado-Florida Highway and that each county promised to send a delegate to the meeting at Brownwood on July 14th.

U. S. Hearrell also made a good report on the Caldwell meeting and declared that everybody who did not know they needed good roads around Milam knew it after they made the trip.

J. D. Dobbins reported that work on swimming pool was progressing nicely and that hardly sufficient stock had been sold to finance the project. The total amount being raised was \$4,800.00 but it was thought that \$6000.00 would be needed.

The secretary gave a report of his trip to the annual meeting of the Texas Commercial Executives' Association held at Waco, June 26 to 28.

A telegram to the Chambers-Hefley Motor Company with reference to a bill pending in the Texas Legislature affecting the use of motor trucks in Texas was read and discussed. A motion was carried to appoint a committee of three to take the matter up by wire with Representative Campbell Beard and Senator Edgar E. Witt. The committee was Hubert Hefley, T. S. Henderson and U. S. Hearrell.

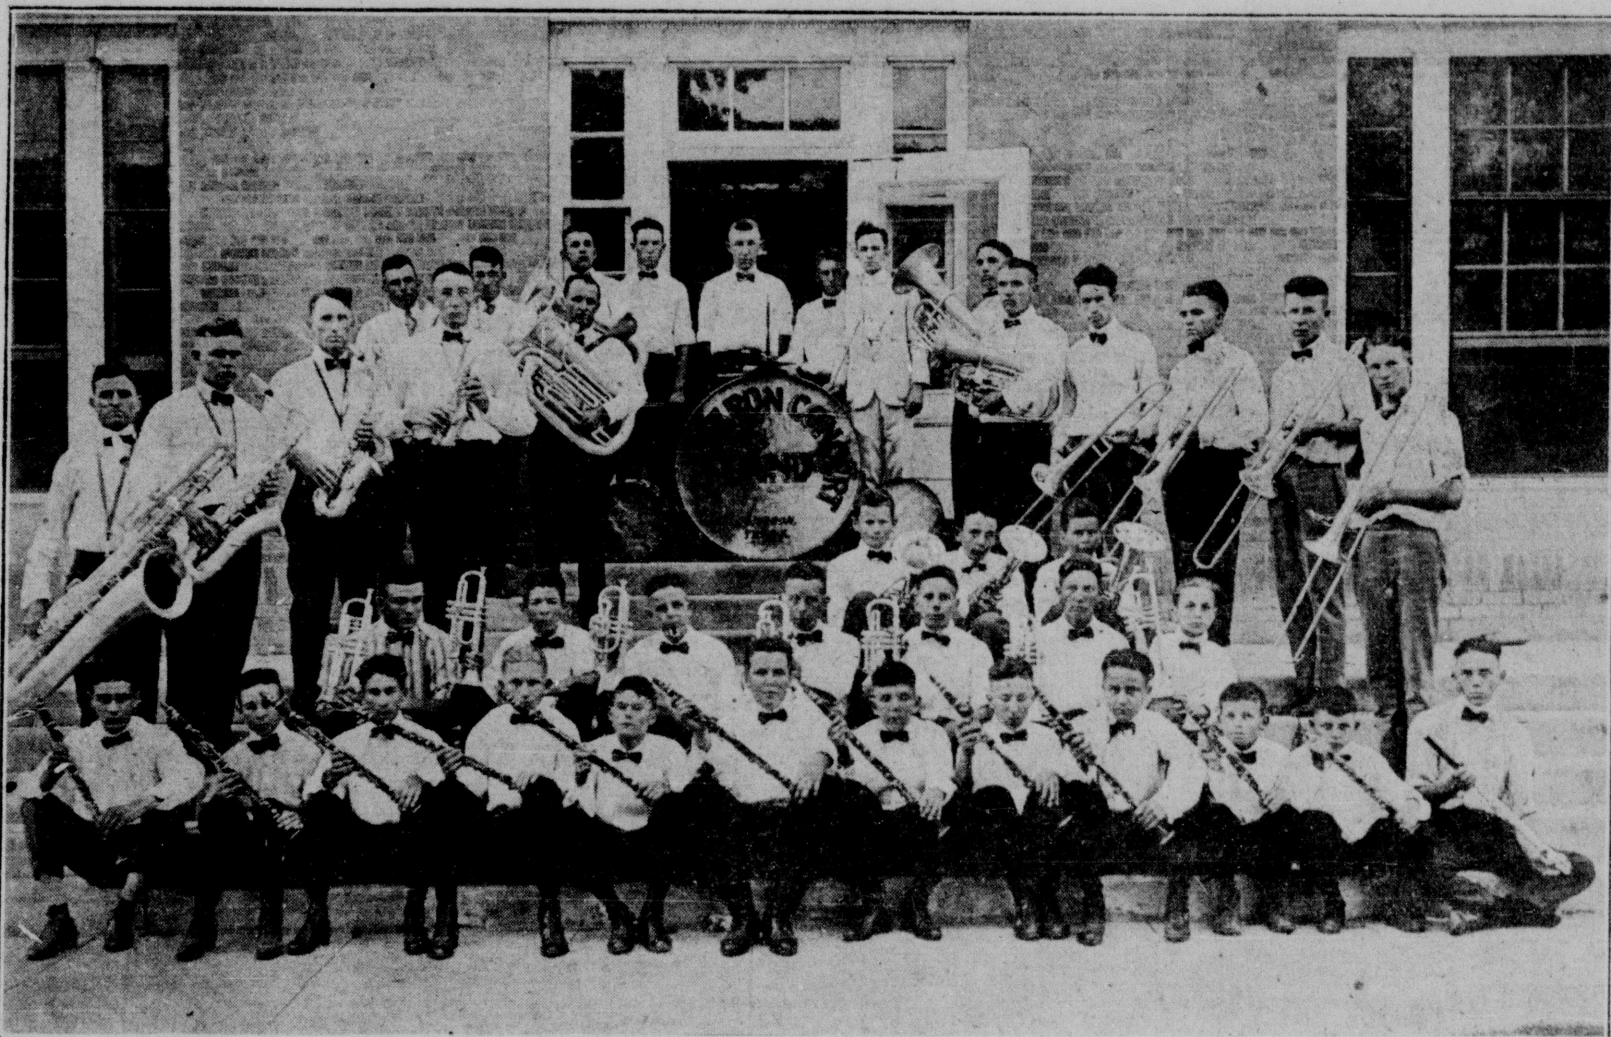

Giles Avriett reported that the Florida-Colorado Highway meeting would be held at Brownwood on July 14th and as Judge W. G. Gillis was a director in this association representing Milam county he made a motion that Mr. Gillis be instructed by the club to attend the meeting and his expenses be borne by the Club. The motion carried.

Under the head of good of the order the secretary read a letter from E. A. DuBose of the Waxahachie Cotton Mill in answer to an inquiry about establishing a cotton mill in Cameron. The letter gave encouragement for the project with existing circumstances.

R. H. McIntosh reported that Mr. Neil Baldrige had agreed to drag the Cannon Snap road to Gause if the commissioners court would supply the drag. The good roads committee was instructed to take the matter up.

J. T. Parma presented a letter from Father K. Kacer, pastor of the Catholic church at Marak with reference to the work done for the Bohemians in the drive recently made.

Mr. and Mrs. R. P. Fisher left Monday night for Arkansas where they have extensive farming interests. Enroute they will visit Mr. Fisher's parents in Nevada, Mo.

CAMERON CONCERT BAND

The personnel is as follows, reading from left to right: A. Robinett, Lawless Green, Roy Griffith, L. F. Laake, Price Cross, Ralph Chambers, R. A. Tag, Eugene Matula, Robert Young, August Knipp, Walter Hen-

richsen, J. N. Crawford, director, Dwight Price, Will Parma, Dick Clark, Robert Joslin, Edwin Dusek, Fred Reno. Second Row: Leland Denson, Robert Gillon, Bassett Watson, Walter Walker, Quinn Walker,

Robert Mayfield, Lee Tag. Bottom Row: Alfred Walston, Lee Howell, Billie Clark, Charlie Frank Green, Jack Hearrell, Gordon Baskin, Glenn Flinn, Alvin Dusek, Charles Pardo, Carl Stolz, Paul Watson, George

Hooks. The following members of the band were unavoidably absent: Frank Plaster, Ray Casey, Billie Newton, Henry Tracy, Eber Flinn, Coran Yates, Phillip Reid, Will Goodwin.

THE STORY HOUR RESUMED AT PARK

Large Number Of Children Present
—Six O'Clock Friday Afternoon
Is The Hour.

Story Hour at the park was resumed last Friday. In spite of some confusion as to the day, twenty children were present to hear the stories. "The Fairy Cake" was given first to entertain the younger members of the crowd and eyes grew big with wonder as the narrator described how the fairy obtained the necessary ingredients for the wonderful cake from nature's storehouse, mixed it in a large acorn cup, called on old Sol to provide the heat for baking and then presented it to a little girl whose mother had forgotten to provide a cake for her birthday.

"Cinderella" was equally as fascinating and it is well for grown-ups to remember that these old favorites are brand new to the wee tots.

Two other stories to suit older boys and girls and which pointed a moral were given last and at their conclusion one of the boys was heard to exclaim, "keen" and this was proof conclusive that his approval had been won. No more refining form of amusement could be offered children than story telling in the hands of competent leaders and parents are missing an opportunity to implant a love for good reading in the minds and hearts of their little ones when they fail to have them present at this hour. A love for stories is natural with all children. They will sit spellbound listening to the recital of a good one and at its conclusion, like Oliver Twist, will call for "more."

They enjoy hearing stories more than they do reading them because the narrator adds to their force and attractiveness by expression and gesture and details can be made perfectly clear to the child mind. Classics may be and often are reproduced by our story tellers, so when the child meets these, as he surely will, as he advances in his education, he greets them as old friends.

Every progressive town in Texas provides a story hour free for children and some of the best talent in the state is employed for their benefit, because the promoters of this movement realize that when you help

DRASTIC ORDER TO CLEAN UP THE CITY

City Council Passes Order To Have
Weeds and Grass Cut. Official
Notice Given.

At the regular meeting of the city council of the city of Cameron held Tuesday afternoon, a roll call showed the following members of the official board present: John B. McLane, Mayor, J. E. Holtzclaw, City Marshal, Dan Tyson, City Assessor and Collector. Aldermen: O. M. Smith, J. C. Joseph, H. M. Hefley, J. D. Dobbins.

The matter of graving the street in front of the T. A. Pope residence was brought up and discussed and referred to the street committee for action.

The all important matter of cleaning up the city of Cameron of weeds, grass and tin cans was brought up and discussed and the following action taken: It is ordered that the city council of the city of Cameron instruct the city marshal to serve written notice on property owners whose premises needs weeds cut and closets cleaned, and, unless premises are cleaned within 10 days from time of notice the city marshal shall file complaint against said party.

Upon motion from H. M. Hefley and seconded by J. C. Joseph the Cameron Herald was awarded the contract for publishing the delinquent tax list for 1919. The Herald being the lowest bidder.

An order was embodied in the minutes as follows: "In consideration of said low bid the former action of the city council is rescinded and the Cameron Herald declared the official organ of the city of Cameron."

Upon motion the salary of Ed Adams was raised \$5.00 per month in consideration of extra duties as fire marshal.

SHOWS GRATITUDE TO COMMERCIAL CLUB

Father K. Kacer of Marak Catholic
Church Sends Message To
Organization.

The following message from Father K. Kacer of the Marak Catholic church showing his appreciation of the work by the club in the recent drive for funds for the Bohemian relief was read before the directors meeting last Friday night.

Buckholts, Texas, July 7th, 1919.
Mr. J. T. Parma,
Cameron, Texas.

Dear Friend:
Learning through the local press of your commercial organization's big drive, I will ask you kindly to read before the honorable body of the Cameron Commercial Club my appreciation and thanks for the splendid service they rendered in raising funds for the orphans and the poor sufferers of the war ridden country of the Czech-Slovak republic last Saturday.

After reading of the club's success it touched me greatly, for not only when the land of Bohemia was under the heel of the enemy and oppressed for centuries, the light of humanity flashed through the United States and the American people and our great President, Woodrow Wilson, stood up against such brutality and gained for them the unquestioned freedom and independence, where today 10 million Bohemians of the new republic send United States in return, their thanks for the fulfillment of their dreams they had longed for the past 300 years, and yet I see the same American people extending them money, food and clothing to relieve their suffering.

May Lord bless the generous donors and let the Cameron Commercial Club accept my hearty thanks for the service and the cheerful way they handled the matter, I remain with best wishes to the Club,

Yours very truly,
K. Kacer,
Pastor Catholic church, Marak.

The council took up the matter of adjusting the city tax rendition but found no action could be taken until an equalization board had been selected and agreed to serve. The Mayor appointed H. M. Hefley and J. D. Dobbins a committee to select and recommend a board at an adjourned meeting Thursday morning.

HAND GRENADES AS PREMIUMS

The Savings Division Of Eleventh
Federal Reserve District To
Use Novel Plan.

Do you want a real war souvenir? The Savings Division of the Eleventh Federal District is giving every man and woman, boy and girl, a chance to secure one in the form of a hand grenade savings bank. Only a limited supply could be secured, however, and these are being distributed through the banks in the various towns and cities of the District.

When the Great War ended, the United States had a large number of hand grenades made up, all ready to send over to the men who were pushing the Boche back to defeat. These grenades were turned over to the Savings Division. The explosives were extracted and the grenades turned into savings banks.

Under their agreement with the Treasury Department, the banks will loan these grenade savings banks to boys and girls who agree to earn and save enough money to buy at least one War Savings Stamp. When the Savings Stamp is bought, the grenade becomes the personal property of the boy or girl. Any adult may also obtain one of these grenade banks by purchasing at least three War Savings Stamps of the 1919 issue.

This grenade bank is the most unique war souvenir that has been offered to the public. It is a weapon of war transformed into a weapon of peace. Those interested in obtaining these grenades should make application to their banks immediately, as the supply for the Eleventh District is very limited.

Buy War Savings Stamps regularly.
It is your duty.

ing to relieve their suffering.

May Lord bless the generous donors and let the Cameron Commercial Club accept my hearty thanks for the service and the cheerful way they handled the matter, I remain with best wishes to the Club,

Yours very truly,
K. Kacer,
Pastor Catholic church, Marak.

DR. TOM DENSON VISITS NEW YORK

Attends National Meeting Of Edison

Dealers And Has Most Delightful Trip.

Dr. Tom Denson, proprietor of the New Cameron Drug Company which firm has the distribution in Milam county for the New Edison Phonograph, returned last week from New York City where he had the pleasure of attending the national meeting of Edison dealers of the United States. Dr. Denson reports he had "the trip of his life" and judging from the enthusiasm with which he took hold of business upon his return he doubtless did.

Dr. Tom left Cameron, going through Waco to Dallas where he joined a party of dealers from Texas and Oklahoma, from Dallas the party went through Kansas City for a day and then to Chicago where they saw the "Windy City" and from there visited Niagara Falls. From Albany they traveled to New York by boat, landing in the metropolis on the 24th of June. The great convention lasted for ten days and was attended by about 2000 delegates from over the United States.

Dr. Denson in talking of his trip said that about the most enjoyable and most inspiring event was that of meeting personally Mr. Edison. The Dallas party in body visited the great wizard's institute and were given 15 minutes of his time during which he showed them through a part of his laboratories. Dr. Denson said that Mr. Edison was putting in a great part of his time resurrecting old music that has been buried for more than 100 years. He further stated that the great inventor was of the opinion that lots of the best music the world had ever had was buried and that he intended to give some of back to the world by the use of the New Edison Phonograph.

The return from New York was made by water to Galveston and judging from an issue of the "Evening Momus" which Dr. Denson gave to the Herald he had quite an enjoyable trip. Below is an extract from this paper which is published aboard ship. The reference made to "Dock" is of Dr. Tom:

On Board the S. S. Momus at Sea. Special.

The occupants of suite A and B, the "Colonel," "Dock" and "Eddie," and the famous "Joe" held an informal reception at 11:30 p. m. last night out on the saloon deck which was a very enjoyable affair. Readings, recitations, vocal music and impersonations were the style of the program. "Eddie" in his inimitable way recited in unmistakable Italian dialect, "The Happenings at the Italian Base Ball Game." He responded with the usual encores. Mr. H. D. Kerr, entertained the party immensely with the recitations, "Casey at the Bat," and "The Shooting of Dan McGrew." Mr. H. D. Hogan recited very eloquently, "The Creation of the World." Lieutenant Cline gave a very interesting talk of some of his experiences as a soldier in France. He described the ways and customs of the country. "Joe" who was down on the program as the famous Spanish dancer "Carmenita," disappointed the audience on account of the non-arrival of his trunk of costumes. "Dock" told them how to avoid "Love Sea Sickness." The Colonel lead the vocal number entitled "Just a Song at Midnight." Delightful sandwiches and ginger ale were served as refreshments.

On page three of this issue The Herald takes pleasure in publishing the annual message of Mr. Edison, delivered at this convention, which Dr. Denson was kind enough to furnish us with. It comes from one of the greatest minds America will ever know and everybody should read it.

Mrs. R. A. Nabours who has been visiting in Birmingham, Ala., returned to Cameron Monday and will spend a few days with her daughter, Mrs. John House. Mrs. Nabours was accompanied home by her niece, Mrs. J. S. Baker of Oklahoma who will also be a guest of Mrs. House.

FARM PROBLEMS

The program for the Farm Management Association to be given during the Texas Farmers Congress is made up of subjects touching the most vital farm problems of the present day and will be handled by men thoroughly conversant with each detail of the matter to be discussed. It would be difficult to arrange a more complete or instructive program for those interested.

Friday, July 18, 1919, has been decided on as the most appropriate time for this program and from 9:30 a. m. to 12:00, addresses will be delivered on the following subjects: "Some puzzles Confronting the Farmers," William A. Bowen, editor Texas Farm and Fireside Bulletin, Arlington, Texas; "Development of Cooperation in Rusk County," R. E. Huston, Henderson, Texas; "The Brazos County Farm Loan Bank and How Farmers May Use It," I. M. Cook, Bryan, Texas. From 2 to 4 p. m., the program will be continued as follows: "The Aims and Accomplishments of the Farmers Union, Fort Worth, Texas; "The Place of Livestock on a Diversified Farm," J. T. Orr, Dallas, Texas; "A Simple Set of Farm Accounts," H. B. Lillough, College Station, Texas.

These speakers are masters of their subject and speak from experience and observation, and since there is no more vital farm problems at present than that of farm management every farmer in Texas should make it a point to hear these speakers.

666 has proven it will cure Malaria, Chills and Fever, Bilious Fever, Colds and LaGrippe. It kills the parasite that causes the fever. It is a splendid laxative and general Tonic.—Adv. 18

THE COILS ARE TIGHTENING

In the past the rules on the exchanges were that if any one bought contracts for future cotton and called for the cotton, the party selling could deliver a mixed lot of stains, tinges, low and high grades, or all of these; or all of low or stains, as he chose. The buyer had no choice as to what he received and paid for.

"This permitted combinations to slump the local market far below what spot cotton values were. There was no danger of spinners buying their supply through the exchanges, because if they called for the cotton, they would have delivered to them stuff they could neither use nor sell.

"The 4th of March, the Smith amendment went into effect, which forces delivery of white cotton of grades from low middling up. These are all spinnable grades, and if by a combination, the future price should be reduced below spots, as was the case last winter, the spinners would buy their supply through the exchanges and call for the cotton. The party selling would have to buy the cotton from the farmer at his price, thus entailing heavy loss.

"Futures were \$25 a bale below spots when this law went into effect, and they advanced rapidly to that of spots. Since then, there has been no slumps of a duration of more than a few days. This law was a serious blow to combinations to slump the price of futures below that of spots. Those posted in future dealing do not look for these shameful slumps in the future. Every now and then a shrewd friend of cotton, like Senator E. D. Smith of South Carolina, elips

the wings of the gambler and manipulator just a bit.

"When the South decided to find the cost of production and name a price for which to hold cotton, the move was naturally opposed by the speculator, but they had to stand it. The South is making progress rapidly and the closer we stand together, the faster will be the progress."

W. B. Yeary,

Cotton Specialist, State Agricultural Department.

666 quickly relieves Constipation, Biliousness, Loss of Appetite and Headaches, due to torpid liver.—Adv. 18

With the advent of the Egyptian Pharaohs much thought and care was given to the perfecting and development of the chariot, and for more than 2,000 years it was the leading vehicle of the world.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

An instrument has been invented by a New York man to determine the correct balance of airplane propellers and measure possible differences between their blades.

We are proud of the confidence doctors, druggists and the public have in 666 Chill and Fever Tonic.—Adv. 18

The Greek sandal is so popular that it is worn upon the street.

TALCUM POWDER-TOILET WATERS SOAPS and PERFUMES

We carry a complete assortment and you will find your favorite toilet articles at this store. For toilet soaps we have a quality line at a reasonable price.

DRUGS AND JEWELRY

LET US AMERICANIZE NAMES OF OUR TREES

More and more plain United States is being used in marking trees in public parks and the custom should be universal for then the people will become more interested in their parks says the American Forestry Association of Washington, D. C. Nothing makes a person more disgusted, after admiring a tree enough to have his curiosity aroused than to walk up to it and find a long Latin name nailed to the object of his admiration. By all means let us Americanize our trees while the question of "Americanization" is so much before the public. The American Forestry Association will send any reader of this paper free detailed information on tree planting. Plant a memorial tree and register it on the national honor roll of the association.

666 has more imitations than any other Chill and Fever Tonic on the market, but no one wants imitations. They are dangerous things in the medicine line.—Adv. 18

A Japanese bacteriologist has built a dust proof, air proof, germ proof, house of glass, the air that is needed being pumped through a pipe and filtered.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free.

THOS. A. EDISON'S ANNUAL MESSAGE

Declares That Nation Is Approaching
Time For A Square Deal For
Everybody.

Edison Dealers—A new order of things is emerging from the events of the past five years. Whatever may intervene, the ultimate result is going to approach more closely a square deal—for labor, for capital, for the merchant, for the farmer, for everyone. The employer who is not square with his employees, or the employee who is not square with his employer is going to be out of step with the times.

Demagogues may muster a following of illogical radicals who advocate injustice as a means of gaining justice, and stiff-necked reactionaries may selfishly oppose the progress which destiny has decreed as humanity's reward for the sacrifices that have been made, but in the end there will prevail a just and honest basis for the relations between capital and labor.

This new relation cannot be legislated into existence. It will spring from the conscience and patriotism of the people. The time is coming when the unjust employer and the disloyal employee will share equal odium in the esteem of society at large.

The square deal is fatal to radicalism. There can be no social revolution in the United States, or Canada, for the very simple reason that our Government and the Canadian Government are founded on the idea of giving everybody a fair show. There will be few disturbances of consequence if a majority of us adopt the square deal as our business creed and our social creed. One man alone, who believes in the square deal and has the courage of his convictions, might very possibly convert a whole community. Accordingly, the good citizen today, in addition to conducting his individual business in harmony with the Golden Rule, has the duty of raising his voice and using his influence in behalf of justice for all—justice as much for the railroad corporation as for employees, and for the common laborer, as well as for the highly skilled artisan. I believe that Edison dealers will recognize this duty and that they will not be found wanting in its performance.

Of our own business I think I need speak but briefly.

A large production of disc recordings is already an accomplished fact and steps are being taken practically to double our present production.

Our only problem at the present time is to obtain a mould that will give us a definite production of absolutely uniform quality. We are introducing such a mould and its use will enable us to get our supplements on schedule and give us a more uniform product.

The shortage of disc phonographs has been due to our uncompromising determination to have cabinets of the finest quality. We have finally succeeded in getting our standard accepted by the various manufacturers and the shortage of phonographs will

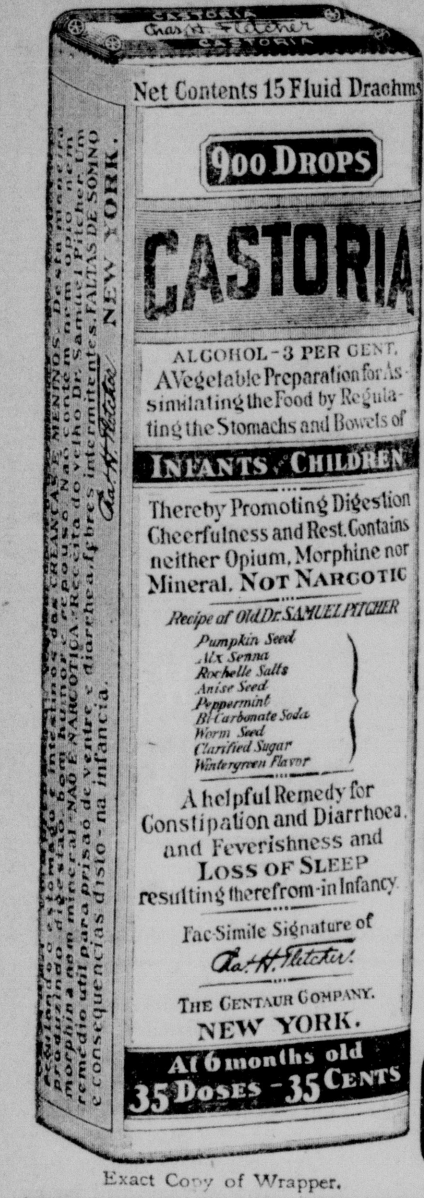

Now that your crops are in proper shape for a little recreation we want to remind you that we have prepared to serve you with every conceivable kind of fishing tackle, whether you want to use a green crooked pole or a fine rod and reel.

WEEKLY FINANCIAL REVIEW
Prepared For The Cameron Herald
By The First National Bank in
Saint Louis.

Already possessed of the greatest single stock of gold in history, the United States could lay claim today to most of the remaining free gold of the world in payment of its favorable merchandise balance, the Federal Reserve Bulletin will say in its July issue. The balance approximated \$9,000,000,000 in the last three years, and bids fair to continue at the

same rate this year, affording a problem to arrange payments without bankrupting debtor nations and still further enhancing the cost of living here through the importation of more metal.

Under the gold embargo, which recently was lifted, making the United States practically the only free gold market in the world, the Federal Reserve Board issued 1142 licenses for the export of \$152,326,976 of gold and 1500 licenses for the shipment of \$502,756,003 in silver. About 755 applications of all classes were declined. The net movement under the embargo was \$5,293,532 excess of gold imports and \$281,832,589 excess of silver exports, heavy shipments of the latter metal having been made to British India, Hong Kong and France.

Rub-My-Tism is a powerful antiseptic; it kills the poison caused from infected cuts, cures old sores, tetters, etc.—Adv.

An elephant can pick up a needle with its trunk.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE
CARDUI
The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

be materially relieved in the near future.

As most of you know I devoted practically all of my time to Government work from January 1st, 1917, to November, 1918. It is not my habit to lavish praise upon my business associates and employees, but it is no more than fair for me to say that in my absence our organization made an extremely good showing in the face of numerous difficulties. Thanks to the responsibility placed on our organization during the war, I now find, much to my satisfaction, that the business requires less attention from me and that I accordingly have more time for the phonograph research work, in which I take such a keen interest and from which I derive so much pleasure.

I have already renewed the experiments on Symphony Orchestra recording, which were interrupted by the war. It is too early to make any definite prophecies, but I feel confident that sooner or later we shall be able to record a full Symphony Orchestra of ninety-four pieces, with a fidelity which will enable us to sustain a tone test comparison with the orchestra. Please understand that this does not mean a new record. It will be the same kind of record we are now making, although it will probably have to be twelve inches in diameter.

I have assistants working constantly—under my direction—in research that covers every phase of phonographic development. I am happy to be able to say that, so far as I am aware, in the past six years no one has announced a so-called improvement or development, in the phonograph art, which involved a principal that was unfamiliar to us. I confidently predict that the same thing will be true during the next six years and, for that matter, the next sixty years. In other words, we are in front and we intend to stay in front. By this I do not mean that you are to expect new and unusual types of phonographs or records. Our progress will be marked by improvements and refinements that will be reflected in a superior musical result, but that will not keep the trade in a turmoil of change. The method which we adopted in introducing the new period cabinets illustrates, I think, that we recognize that changes in our lines must be made in such a way that the dealers will not be prejudicially affected.

Improved conditions make it possible for us to do a great many things for you dealers that we have not been able to do in the past. This Convention has been chosen as the occasion for announcing some of our plans for dealer co-operation. I sincerely

trust that the results will afford us justification for increasing our expenditures in this quarter.

None of us have the gift of looking into the future with absolute certainty, but I think all of us are satisfied that the next ten years hold large rewards in store for everyone who is identified with the Edison Phonograph. There may be temporary disturbances in business during that period, but basic conditions in this country are so exceedingly favorable that I think we need have no serious apprehensions and that we are all justified in going ahead with absolute confidence.

When you go home from this Convention, I hope that each of you will carry with himself, or herself, the conviction that the Edison Company will do its best in every possible way to serve your interests and merit a continuance of the loyal support which you have given it in the past. Also I should like to have you feel that the relationship between our Company and yourselves is a little closer than the relations which ordinarily exist between a manufacturer and his distributors. All of you have my sincere best wishes.

Thomas A. Edison.

TWENTIETH CENTURY WON-
DERS.

Colonel House gave out an interview.

Wife—How does my new skirt show up?
Hubby—Up to the knee.

Mary had a little lamb,
It's fleece was white as snow,
And when the price of meat went up,
The lamb was soon to go.
But Mary ruled the lamb must stay,
And this was her intent:
To save the lamb until the first,
When landlord raised the rent.

LET'S WORK TOGETHER

You often hear folks talk of "CO-OPERATION," and yet there are many who may not know how much "Co-Operation" really means. No man can live to himself alone—he MUST have friends. And the same rule holds good in a business sense. A merchant depends on his friends for his business, for his enemies won't trade with him. Then, if one succeeds, he must make his money off his friends.

Thomas N. Herring, Manager

Cameron, Texas, July 17, 1919

Cut the weeds.

Haul off the cans.

Help prevent a typhoid epidemic.

As a good indoor sport the Herald would suggest fly fighting.

With the mercury at the 100 point and you get roasted just worry like a peanut—that's its usual fate.

Lets follow the slogan and have the best town in the State—Cameron—"Where Nothing Knocks But Opportunity."

"The 'ole swimmin' hole" is progressing nicely. Just a few more days until this joyful spot will be the center of attraction.

The sunshine is helping the farmers to kill the weeds. Milam county will harvest the biggest crops this fall she has ever known.

Cotton above 35 cents per pound should sound good to the farmers as well as the business interests of the town. Milam has a bumper crop.

The city council has ordered that the citizenship cut the weeds. Now isn't that a shame. Why don't we cut our weeds without the law making us.

A series of revival service will begin at the Civic League Park Sunday night. Rev. Walter Harbin will do the preaching. Go and learn the way of salvation.

Are you doing your part towards helping to make Cameron a better town? There is lots you can do in the way of work on your own premises if you are not inclined to work—then boost a little to the strangers in the city.

As a matter of protecting health in the city an order has been passed by the city council of Cameron that all weeds and tall grass must be cut immediately. The City Marshal has been instructed to serve notice on you—if you have any weeds—so get busy and save yourself the embarrassment of having the law ordering you to do what your own pride should prompt you to do.

The Herald takes pleasure this week in producing an excellent photo of the Cameron Concert Band. It is with great pride that we are able to give to our readers these photos of up-to-the minute stuff, subjects that are of interest to the general public and subjects that we are privileged to buy and pay for with our own money and not use second-handed.

The U. S. S. Princess Matoika, Martha Washington and Zelandia are taking a large company of interned German prisoners to Holland this month. The Princess Matoika took 784 German naval officers, 1,100 firemen and seamen, 134 women and children and 19 civilians.

Continued improvement on the streets of Cameron by Commissioner J. D. Dobbins are in evidence. A few more men in Cameron that has the city's interest at heart as Mr. Dobbins has would make quite a different place.

The buyers from practically of the big dry goods houses of Cameron are either in the eastern markets or on their way. Each and everyone declare they are going to buy the biggest stocks ever. Watch Cameron grow.

The Cameron Commercial Club is doing some effective work. There is not a week passes that something for a better Cameron and a better Milam county is not accomplished. The membership roll is growing—are you a member of this organization? If not, join and help boost your town.

The bank statements published in The Herald this and last week of the three banks in Cameron show that financial conditions are the best ever known for the time of year. The total resources are almost \$3,000,000 with plenty of cash on hand. Cameron is the city of the hour in Central Texas. Come to Cameron.

Through the Cameron Herald it is learned that Mrs. C. H. Yoe of that city has recently donated to that city a splendid campus, funds to build a handsome high school building and to equip it throughout, all at a cost of \$125,000.00. Cameron is to be congratulated on having such a commendable charitable citizen. When the world grows old, the name of Mrs. Yoe will still be on the lips of Cameron's youth.—Hico News-Review.

Mr. and Mrs. Will T. Yates returned Sunday from Corpus Christi. Mr. Yates reports they enjoyed plenty of fish but it took a little hard work to get them.

SHRAPNEL

Another
She—I was a fool to marry you.
He—No doubt; but I'm not willing to let you bear all the blame. I asked you to.—Boston Transcript.

Strange
"The hobble gown makes thin girls look
Much thinner," said old Statter;
"But when a fat girl wears one, it
Makes her look that much fatter."

Sure
"Is there any such thing as the age of discretion?" asked the Old Fogey.
"Sure," replied the Grouch. "A man reaches the age of discretion when he gets old enough to keep his face closed when he hasn't anything to say."

More About Mary
Mary had a Corn Fed Calf,
And Mary Was Delighted;
For every time she climbed the stairs
The men folks got excited.—Luke McLuke.

Advice
This little rhyme is very true
It may save you some sorrow,
Just close your mouth today, and you
Need not explain tomorrow.—Luke McLuke.

More About Eve
Eve's lot was not so very sad;
By faith she wasn't badly treated;
For Adam never came home mad
Because the home team was defeated.

Fact
"Take this advice, you'll find it true,"
Remarked old Mr. Dover;
"Don't overdo a thing, or you
May have to do it over."

And doughnuts—say, they're awful high
Can't touch 'em with a ten foot pole
But don't you growl and kick and sigh
You pay no more out for the hole.
—Dalton, Ga., (Citizen.)

Hooray!
These auto tires are very high,
They cost a fellow quite a heap;
But do not think, and do not sigh—
The air you use is just as cheap.
—Luke McLuke.

Sin has many tools, but a lie is the handle which fits them all.—Holmes.

Doctor—"Are you still smoking?"
Patient—"Yes," Doctor—"How am I going to do anything with you if you persist in that?" Patient—"That's what I'm paying you to find out."—Boston Transcript.

Saving Money
"Your ailment is imaginary. However, I'll pay you a daily visit."
"Huh, if that is the case, doc, might as well let your visits be imaginary."—Kansas City Journal.

Not On the Casualty List
Father—Well, son, I see you're back from the front and not a scratch.
Son—No, I quit scratching as soon as we got out of the trenches.—Cornell Widow.

"If straws show how the tide is ebbing, it is only right to record that in Brooklyn a man named Whoriskey, whose friends all nicknamed him 'Whiskey' has obtained permission to change his name to Waters."
Objection is made in Chicago to drowning stray dogs for fear so many sunken barks will obstruct navigation.—The Boys' Magazine.

WILL LEAD SINGING FOR METHODIST REVIVAL

LLOYD P. BLOODWORTH
Mr. Lloyd P. Bloodworth who is to lead the singing during the Methodist revival meeting, which begins at the City Park Sunday night, is one of the foremost evangelistic singers in Texas. Mr. Bloodworth was educated at Polytechnic College and while there took a prominent part in athletics. He starred in both the college football and baseball teams. Mr. Bloodworth served in the army with distinction, attaining the rank of captain. He has led the singing in meetings with Lockett Adair, Mike Cassidy, W. M. McIntosh and other evangelists.

Mr. Bloodworth's specialty is working with young people and children. He usually organizes what he calls a "Sunshine Choir." He has had as many as one thousand children in his choir. This will be one of the features of the meeting.

The meeting begins Sunday night at the park. The community in general is cordially invited to attend and enjoy these services.

Costly Economy
John D. Ryan, copper king and air expert said at a luncheon:
"Look out for the manager who is always talking about retrenchment. He's apt to resemble Blink."

"Mr. Blink," said a clerk, "I wish you'd get in some blotting paper, sir."
"Hump!" Blink grunted. "Blotting paper's gone up. The staff will do without blotting paper hereafter and wait for the ink to dry."—Pittsburg Chronicle-Telegraph.

PALACE OF SWEETS

"Your Satisfaction Is Our Success"
STEDMAN & SHARPE, Props.

T. G. SAMPSON ENJOYS VISIT WITH SON IN NEW YORK

T. G. Sampson has returned home after an absence of several weeks. While away Mr. Sampson visited his son in New York City and with him made a delightful tour by auto through the states of New York and Connecticut. Mr. Sampson states he found it necessary for comfort to wear an overcoat while on this trip but has laid it aside since returning to Texas.

Judge Ward of Meridian spent the past week-end with his son, Oliver. Judge Ward has just returned from a visit to Atlanta and other points in Georgia but after a motor trip through some of the best farming sections adjacent to Cameron declared that crops in Milam county surpassed anything he had seen on his trip east.

Gus Ekstrom of Austin returned home after a short visit with his sister, Mrs. H. T. Warwick.

METHODIST MEETING WILL BEGIN SUNDAY

As was announced several weeks ago the Methodist revival meeting will begin at the pavillion in the Civic League park next Sunday night, July 20th. The services will be conducted by Rev. Walter Harbin, pastor of the First Methodist church of Cameron. Extensive plans have been made for these revival services and the citizenship of Cameron should feel it a great privilege to be able to hear Rev. Mr. Harbin in this series of meetings as his ability as a strong expounder of true gospel is known far and wide.

Mr. Lloyd P. Bloodworth will be present to lead in the singing and is one of the foremost evangelistic singers in Texas.

Everybody is cordially invited to these services. The open air and cool breezes of the park should induce a large audience each night.

Tillie Clinger reads the Herald.

BETTER BLOUSES

FOR LESS IS
WHAT YOU'LL
ALWAYS FIND
HERE.

ONE OF THE
NEW WELWORTH
MODELS ON
SALE
TOMORROW.

New Welworth Blouses at \$2.50

You're sure of superior values whenever you buy a Welworth.

We alone in this city can sell these popular Welworth Blouses, and we are right proud of the privilege. We control the sales of this far-famed line for that very good and valid reason that we are able to control the sale of so many other lines that are found exclusively at our store. Welworth Blouses are made and sold under a most unusual arrangement between the makers and retailers that insures many things: first, new and desirable Styles, and secondly values that are incomparably better than can be ordinarily obtained at the same moderate price.

The model illustrated is a finely tailored model of Shantung of a superior quality. Made with a convertible Buster Brown collar. All seams are double stitched.

Our Blouse Department is always prepared to show the very latest and most authentic Blouse styles, for we receive the same new models on the same day that they first make their appearance in the country's Recognized Style Centers.

A TIMELY RHYME

The pastors now are up in arms
Against the modern dance
They say that is too harmful
For youths to take a chance.
They want this syncopation stopped,
It leads the youths astray.
Instead of tripping they should try
A game of nice croquet.

Boxing, too, is a brutal sport,
It should be stopped, they say,
Men should be like brothers,
And be peaceful every day.
The padded mit should not be donned,
For money nor for woes.
Instead of that, they should indulge
In a game of dominoes.

Those who play the national game
Are doomed to hades' fire,
While playing on the sabbath,
Arouses all their ire.
The day should be ——— they
plead,
With manners mild and meek.
And if one must have his fun
There's the game of 'hide and seek.'
R. E. MORSE.

For the informal dance a black taffeta frock is very popular.

Stop Scratching Use Zemerine

It makes no difference how long you have suffered with eczema, itch or any other skin disease, Zemerine will help you as it has helped others. Zemerine stops suffering where other remedies have failed and restores the skin to a healthy condition.

The first application of Zemerine brings relief, stops the burning and itching, and healing becomes possible. Read what others have to say about Zemerine: "Send me another box of Zemerine. It has done me lots of good." "I have used Zemerine and it gave me more relief than anything." Zemerine is sold in two sizes, 50c and \$1. If not at your druggist's it will be sent postpaid upon receipt of price by Zemerine Chemical Company, Grangeburg, S. C. Sample 10c.

KINDERGARTEN HELPS FOR PARENTS

Littlest Child Not Too Young To Be Taught Self-Reliance.

(By Helen Campbell.)

School had opened in the district and all through an exciting day, all varieties of the four-year-old, accompanied by all types of "the mother," were applying for admission.

Mary's mother, of calm, firm, but gentle bearing, stepped forward and the duty of registration properly fulfilled, presented her little daughter. Mary possessed the same calm manner as her mother and in addition a strange childlike dignity and poise of her own. Her two little bright eyes bespoke thought and understanding as she stood there on the alert for every question, at times even assuming the responsibility of the conversation herself. She had been carefully prepared by her mother for this new period of development and so could face it without fear. Therefore, it was no surprise to us to hear her mother say at the conclusion of her visit: "Mary can take off her coat and wait upon

herself. She will not cry, for I told her she was coming to school and explained what she would have to do. She is a great help to me at home and I am sure will give me no trouble." Then, turning to Mary, she waved a "goodbye dear," and Mary, smiling with satisfaction, sat down in her little chair.

We were not allowed to waste much time with Mary just then for suddenly there was a great pushing to the front and hurried childish sounds of "I'm four years old, I'm waxinated, I live at 538 East — My father's name is Jimmy and he's dead and I want to come to school every day! Now can I have a little chair? Can I play with blocks, and sew cards and bring home things every day like all the other boys that go to kindergarten?" When Jimmie stopped to catch his breath, I fully realized that he had made up his mind to come to school, and that, indeed, he was quite ready to do so. When asked where his mother was he said: "She's home, and my big brother he goes upstairs in this school, but I came all alone by myself."

Yes, Jimmie, the youngest of nine, entered school alone, but full of enthusiasm and ambition, with a brain eager for stories and games, and with hand that wanted to work, to

learn and to do. Fate had seemed unkind to him, but although a victim of rough circumstances he had developed fortunately and accidentally in the right direction. He turned out to be a most interesting pupil in the classroom and soon became obedient, law-abiding child.

Two big, blue sleepy eyes, mounted in a great wonderful head, supported by the stockiest of frames, there were the striking characteristics of the next little fellow who stood before me. A poor indulgent mother held his hat in one hand and his apple in the other, together with a penny to give him when he cried and a basket of cakes for fear he might be hungry. As she pushed her son toward me she gave his name as Joseph Carlson.

"Good morning, Joseph. Are you glad you can come to school?" No movement of the eyes or face; no sign of comprehension. "He doesn't like to talk very much his mother answered. Then his cake fell to the floor and when I asked him to see if he was big enough to pick it up, again it was the mother who replied, "He doesn't ever do anything like that," and stooped and picked up the cake herself.

Her mission of registration over Mrs. Carlson started to go, but suddenly returned to make these feeble remarks: "You know, teacher, he is 4 years old, but he isn't any good to himself. I have to do everything for him and if I don't he cries. I know I pet him too much, but try him and see if you can teach him something. I can't."

Joseph looked impervious to knowledge, but I had no reason to anticipate that he would prove at all troublesome. "Goodbye, be a good boy," called his mother from the door. For the first time Joseph demonstrated that he possessed some sense of what was going on outside of himself. His screams brought his mother quickly back, and from one penny she raised to two, and finally offered everything she had. But to no avail, for he still continued to stamp and scream. And so I requested her to leave, assuring her that all would be well. With tears in her eyes she said: "Do let me take him home! I think he is very much of a baby." But I was obdurate and refused, for I knew that with every added day of her overindulgence his road would only grow the harder.

Surrounded by new and lively associates of his own age, Joseph soon forgot his mother and himself and although he was not very active at first, each succeeding day developed more interest and expression, until finally his mother was able to see a smile on his face when she bade him goodbye at the opening of the morning session.

But what labors we had taken upon our hands with her helpless, pitiful pet! How much harder his little battle through life had been made and how much unhappiness he suffered! Many a mother thinks the age between 3 and 4 much too early to lay the foundation of self-reliance in her children. She says: "My child is too young to learn yet. When he goes to school he will be taught to do everything and that is time enough."

And so she waits upon him day and night, amuses him when he appears silent or lonesome, provides for his every want, and seldom asks him for a response of any kind. In fact, she absorbs his whole personality, impressing her own where his should have a chance to demonstrate itself.

Froebel said: "Our children must learn to do, by doing." Then what happiness, individuality and calm, deliberate deportment even at the early age of 4 they may possess, and what self-controlled, law-abiding citizens

they may become if only mothers will try day by day to develop their self-reliance!

How shall this be done? Just teach your child to dress himself, to wash his hands and face, to lace his shoes, to comb his hair, to button his coat, to use his spoon, knife and fork. Commend his initial tugs and struggles and sooner or later those struggles will be converted into finished actions. And hands so trained at home will later in school life grasp scissors more firmly and handle crayon and pencil with a much finer precision.

Fill the child's day with little responsibilities: The care of a garden, of cat or dog, care for clothes. Help him to anticipate your wants, and give him the joy of waiting upon you. Have him run little errands for your scissors, your needles, your thread. Let his care for baby brother or sister once in a while. There will be lots of time besides for play, and a greater value placed upon play time. Such duties to a child are not burdens, but a real delight, because they develop in him a sense of independence and helpfulness.

Help to reach all the parents of the country by cutting this out and passing it on to a friend.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

The only important peace treaty ever negotiated by women was that known as the "Ladies' Peace," arranged by Louisa of Savoy and Margaret of Austria.

Grove's Tasteless Chill Tonic

restores vitality and energy by purifying and enriching the blood. You can soon feel its Strengthening, Invigorating Effect. Price 60c.

The Germans insist on Wilson's fourteen commandments. Anything to escape the ten commandments — Goodwin's Weekly (Salt Lake City).

FOR SALE.

"Look! Stop! Listen! A big bargain. Good residence with 6 rooms, bath room, sleeping porch, and pantry. Two nice Beveled glass doors, between dining room and sitting room; has 1/2 acre of land and stable, good garden. On easy payment; \$600.00 down and \$25.00 per month. If interested write: Address: 1016 South Third St., Waco, Texas. 6-41-19

Thrift is the yeast that swells pennies to dollars. Prove it with Thrift Stamps.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS Chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS Chill Tonic is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS Chill Tonic has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS Chill Tonic when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

"THE PROOF OF THE PUDDING IS IN THE EATING."

There is no question but that the Byrne Shorthand is the greatest system in use today. It makes better stenographers in less time and with less cost than any other. It may be written either with a pencil or any typewriter. It has over 30,000 enthusiastic writers; it holds the world's record for speed in a given length of time, is the most simple, legible and rapid system in use, as is shown from the following remarks by our students who first studied other systems:

"I take pleasure in telling the public that the Byrne Shorthand is the only system. I previously studied Pitman eight months, used it in actual practice for four months. At the end of six weeks study of the Byrne, I was a better writer than I had ever been with the Pitman."

"I have been a Sloan-Duployan stenographer for 15 years; I found the system inadequate. I then took the Gregg under Mr. Gregg of Chicago, but found it illegible. I then took up the Byrne, which I consider the stenographic marvel of the age."

"I first studied Pitman Shorthand, then took up Byrne, and found the Byrne to be 35 per cent shorter and that it could be written at a much higher rate of speed, and read like print."

"I studied Pitman four months, gave it up in disgust; I then took up Perin and studied it almost night and day for six months; but was not competent to hold a position. I then took up the Byrne for three months and find that I can hold any kind of a position."

"I graduated in Graham shorthand, writing 100 words a minute, after 9 months study. After studying the Byrne Simplified, together with Byrne Practical Bookkeeping for four months, I could write Byrne much faster and regard it superior to any other system."

"I thoroughly mastered 14 systems seven of the most prominent Pitman systems, Gregg, Chantier, Byrne, and four minor systems, and had the Byrne much easier to read, that it can be written with one-and-one-half times the speed that can be made with any of the other 13 systems."

"After studying six different Pitman systems, I was unable to hold an ordinary office job, but with five weeks study of the Byrne I went

into the District Court and did reporting successfully, and was appointed official court Stenographer."

Why study any system of Short-hand, other than the Byrne, when the Byrne can be learned in half the time, or less, read with greater ease, and written at a higher rate of speed which means better salary and promotion? It does not cost half as much to complete a course in our school as it does one of the other systems in other schools. We hold the exclusive right to teach the Byrne in this section. The author is the president of our school."

Write Tyler Commercial College, Tyler, Texas, for large free catalogue containing full indorsement and names and addresses of the above, and of others who have tried the other systems and abandoned them for the Byrne. Our Bookkeeping, Cotton Classing, and Telegraphy are as far superior to the other systems as is the Byrne Shorthand.

If it's in The Herald, it is news.

AUTOS USED BY ARMY SELL AT HIGH PRICE

More Than Double Cost Given For
Machines Used In War For
Year.

American army motor transport in England has not cost the United States Government anything for machines, according to figures prepared at army headquarters here. Astonishing prices have been paid here for machines the army has placed on auction, touring cars in scores of instances bringing more than the original cost, even though they have been rather hard usage for months.

The army purchased a number of cars of light, popular type for \$450 each and these have sold for as high as \$1,000 after being used for eight months. Another machine, the average purchasing price for which was \$1,085, has brought as much as \$1,890 at the auction sales. The prices bid for touring cars have been absolutely amazing, Major J. C. Welby, head of the motor transport work in the Quartermasters Department here, told the Associated Press, a great deal higher than we would have dared asked on straight sales.

Altogether the army had 592 touring cars, trucks, ambulances, motorcycles and bicycles for its work of transporting about 1,000,000 men through England. Only a dozen of these have been reserved to be used in the final clearing out of headquarters in London. Good prices have been obtained for the trucks and ambulances, exceptionally good prices when compared with what second-hand motors bring in the United States, but the greatest demand has been for the touring cars, motorcycles and bicycles.

AUTOMOBILE WHEELS MUCH IMPORTANCE

Great Progress Made In Design and
Construction In Last Few
Years.

It is only recently that car owners have given any special consideration to the wheels. Now they are awakening to their importance, are studying the relative merits of wood, wire and disc types and asking the salesmen pertinent questions. Renewed interest is given to this subject by the timely testimony of Captain Eddie Rickenbacker, America's "Ace of Aces" and a former race driver of national fame. Captain Rickenbacker, explaining the value of such spectacular racing events as the recent Liberty Sweepstakes at Indianapolis, emphasizes the importance of correct wheel design as a factor of safety. He says:

"In the last Liberty Sweepstakes race every accident but one was due to defective wheels, wheels that apparently were sound, but under the crucial strain of sustained high speed revealed themselves in their true light."

"The same wheels would have given good service under ordinary touring conditions for one or two years, perhaps, and then suddenly crashed to the wiping out possibly of an entire family."

"The discoveries of the last Indianapolis race will enable wheel manufacturers to improve their product so that occurrences such as those which produce fatalities during the contest will be impossible on the open road."

There has been great progress in wheels design and construction in the last few years. Some ideas that have found favor in Europe are rapidly gaining in popularity in America, such as original adaptations of the steel disc type which are making a strong appeal because of their strength, appearance and the ease with which they can be cleaned, although there are many other points to be considered.

The fact of the matter is that science has at last turned to the wheels and the public is rapidly informing itself on this important factor of automobile design.

While it is a wise precaution to throw out the clutch when rounding a sharp corner, it also has a beneficial effect upon the tires. Whenever the car tends to skid due to its deflection from a straight course, a cross strain is brought to bear on the tire treads, which is directly proportional to the weight of the vehicle and the radius of the curve and proportional to the square of its velocity. If the power is applied in rounding a curve the tendency to rip off the tires is further aggravated by the backward drag due to traction. If the clutch is released, however, that factor is eliminated and the strain is thereby reduced.

W. W. Chambers is enjoying a vacation in Mineral Wells.

MITCHELL IS BUSY WITH ROAD MATTERS

County Engineer Has Successful Trip
To Austin. Branchville Road
Plans Approved.

County Engineer A. F. Mitchell returned Tuesday from Austin where he had been to appear before the State Highway Commission to submit plans for the construction of the Branchville-Port Sullivan road. Mr. Mitchell appeared before this body on Monday and after a careful check of the plans and specifications they were approved.

This means that this road will soon be under course of construction. The bonds have been sold and all that is now necessary is to take the sufficient ten days to advertise for bids to do the work. This road will run a distance of 9 1/4 miles beginning at Harold's Creek and running to the Port Sullivan bridge on the Brazos river where it connects with the Hearne pike in Robinson county. There is \$20,000 State and Federal aid and \$20,000 in bonds, making a total of \$40,000 available for building this strip of road. Engineer Mitchell announces that quite a sum of money available for this road will have to be used for drainage structures, as this is the most important part of a road.

There is great importance attached to the building of this road to everybody in Texas, inasmuch as it is a part of the connecting road for the two Meridian Highways that traverse the State. The end of the road leading into Cameron from the west leaves the Dallas-San Antonio road below Temple coming through Rogers. The road here in question runs east from Cameron across the county line to the Port Sullivan bridge on the Brazos river connecting with the Robinson county pike which leads to the Dallas-Houston Highway at Hearne.

Mr. Mitchell is now busily engaged in making surveys on the Jones Prairie, Caddo and Baileyville roads. He expects to complete this work this week and have plans ready to submit in a very few days. The amount of bonds voted for roads in these districts are as follows: Jones Prairie, \$35,000; Baileyville, \$20,000; Caddo, \$10,000.

en good service under ordinary touring conditions for one or two years, perhaps, and then suddenly crashed to the wiping out possibly of an entire family.

"The discoveries of the last Indianapolis race will enable wheel manufacturers to improve their product so that occurrences such as those which produce fatalities during the contest will be impossible on the open road."

There has been great progress in wheels design and construction in the last few years. Some ideas that have found favor in Europe are rapidly gaining in popularity in America, such as original adaptations of the steel disc type which are making a strong appeal because of their strength, appearance and the ease with which they can be cleaned, although there are many other points to be considered.

The fact of the matter is that science has at last turned to the wheels and the public is rapidly informing itself on this important factor of automobile design.

DECLUTCHING THE CORNERS

While it is a wise precaution to throw out the clutch when rounding a sharp corner, it also has a beneficial effect upon the tires. Whenever the car tends to skid due to its deflection from a straight course, a cross strain is brought to bear on the tire treads, which is directly proportional to the weight of the vehicle and the radius of the curve and proportional to the square of its velocity. If the power is applied in rounding a curve the tendency to rip off the tires is further aggravated by the backward drag due to traction. If the clutch is released, however, that factor is eliminated and the strain is thereby reduced.

FLORIDA-COLORADO HIGHWAY MEETING

County Judge W. G. Gillis Attends
Enthusiastic Meeting—Director
From Milam.

Judge W. G. Gillis of Milam county who is a director in the Florida-Colorado Highway Association, representing Milam county, was in attendance upon the second meeting of this association held at Brownwood last Monday. Judge Gillis reports a most enthusiastic meeting and a large attendance. He states that the project is well organized and progressing splendidly.

The meeting on Monday consisted mostly of reports from the various directors representing the different counties which were very fine.

The various highways to compose the Colorado-Florida highway in Texas, are as follows:

No. 9 from Lubbock to Amarillo; No. 5 from Amarillo to Clayton, New Mexico; No. 7 from Goldthwaite to Lubbock; No. 36 from Richmond to Goldthwaite, and No. 3, south from Richmond through Houston, Liberty, Beaumont and Orange.

The following were appointed to act as managers of the territory designated:

S. A. Machmehl for Harris, Fort Bend and Austin counties.

C. H. Chernowski for Orange, Jefferson and Liberty counties.

W. G. Gillis for Washington, Burleson, Milam and Bell counties.

B. F. Bennett for Coleman, Taylor, Nolan, Fisher, Scurry and Garza counties.

Roy L. Walker for Coryell, Lampasas, Mills and Brown counties.

R. B. McCorkle for the Panhandle counties from Lubbock north.

THE AMERICAN LEGION

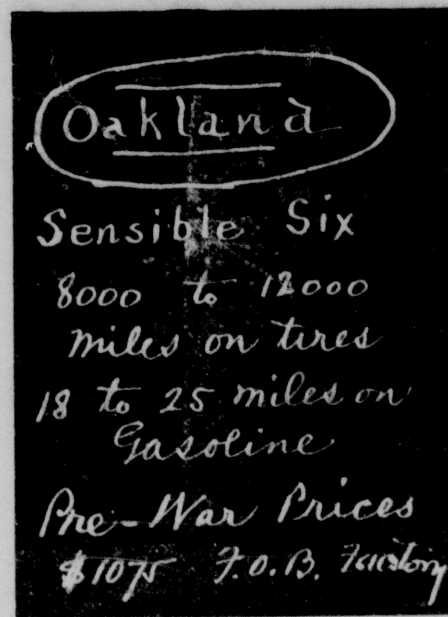

Cameron Post No. 9, American Legion, held a rousing meeting at the court house last night, and decided to rent and fit up a club room for its regular meeting place. Committees were appointed to see to this, to draft a constitution and by-laws, and to visit each returned soldier who has not yet become a member of the post. Several new members were received. As soon as the club room is fitted up a big house warming will be held to which all returned soldiers, whether members of the Legion or not, will be invited. Speeches will be made, refreshments served and a business meeting will be held at which permanent officers will be elected. The local press will carry announcements of the house warming. Drs. Newton and Epperson and Mr. E. A. Wallace of the draft board were elected honorary members, and all made enthusiastic speeches predicting a splendid future for the Legion. Dr. Newton very handsomely relieved the Post from the financial stringency which had held it down in the past by making a present of a hundred dollars to be used toward the house warming. On account of the short time a full report of the meeting could not be had for this issue, but we are promised a big write up for next week.

PUMP LEAKAGE

When the water pump begins leaking do not assume that necessarily it is because the nut is too loose. Frequently the nut is not to blame at all, but poor packing is the real cause of the trouble. Packing for this part consists of candle wick soaked in tallow, heavy twine similarly treated or special packing material. After the nut has been turned to press the packing down, do not turn it further, as excessive equeezing is apt to damage some part of the body of the pump.

Tubes vulcanized RIGHT at a moderate price. Cameron Tire Store.

S. W. Cheeves left the first of the week for the eastern markets where he will spend several weeks buying new fall and winter merchandise. Mr. Cheeves says he is going to ship back a big line of goods for this fall.

CAMERON, TEXAS

HERE'S LAW THAT GETS AUTO THIEVES

Through the efforts of the Pennsylvania State Motor Federation a real law for automobile thieves is being considered in the Pennsylvania Legislature. The new law would provide a penalty of \$5,000 fine, or ten years' imprisonment. An accessory to a theft is to be considered as the principal. This goes for so-called joy-riders as well as professional thieves.

HERE ARE BEST AUTO CLEAN-ERS.

Washing soda, kerosene and plain soap and water should be the cleaning agents used by the car owners for cleaning parts, tools, etc., about the garage. Gasoline is not as good as these others, and it costs considerable more. For taking grease spots out of clothing, some of the inflammable fluids now on the market are better than our present grades of gasoline.

Don't neglect necessary adjustments and repairs until it is too late and you are laid up by the roadside.

Firestone red or gray inner tubes are giving years of service. Cameron Tire Store.

TO REMOVE CAR OUT OF THE MUD

When the car gets stuck in the mud do not try to pull out by running the rear wheels. As a matter of fact, the slower the wheels run the better chance they have of getting a grip. If the car can be rocked by alternate engaging and disengaging the clutch it will be found that the pendulum action of the car will pretty nearly carry it out of a bad spot.

Racine Country Road Tires are made for the country road meaning ruts. If you have rut trouble, try this tire. Cameron Tire Store.

WIRE WHEELS

Owners of cars fitted with wire wheels should give these parts a weekly inspection for loose spokes. While the wire wheel is strong enough to resist astonishing shocks, nevertheless such a blow may loosen one or two of the spokes and such damage should be immediately repaired. Where the enamel has cracked off, paint should be applied to keep moisture from working its way in and inducing rust.

CAMERON, - - - Texas

The Maxwell is a pleasure car. Every feature of its design, every detail in its makeup and all of the items that complete the sum of its serviceability contribute to that end.

That tens of thousands of Maxwell pleasure cars are employed in business service is significant, because many of the attributes that make the Maxwell so desirable as a pleasure car also make it an efficient business car.

But it is still more significant that tens of thousands of Maxwell cars have found continued favor among those motorists to whom a motor car is part and parcel of the family life.

NUMEROUS ROAD BILLS IN CONGRESS

Senator Morris Sheppard Wants Military Highway Along Southwestern Border.

Over two score of bills already introduced in the special session of the Sixty sixth congress, make evident the positive demand that is developing all over the United States for nationalized highways and more complete control of federal expenditures on roads by the government.

Though the extra session is young, some forty bills having highways as their major theme have been dropped into the legislative hopper, while more than a score of others which deal with the road situation to a greater or lesser degree are now on file.

Chief among these in interest, of course, is the measure of Senator Charles E. Townsend of Michigan, providing for a national system of highways, a federal highway commission, and a thorough study of the principles governing transportation. Bill Gains Favor.

This bill was first introduced at the last session. Since then it has been subjected to a nation-wide criticism, with the result that numerous powerful organizations have gone on record favoring it as a bill which treats the subject in the broadest manner and with due consideration for the varying needs of the respective states.

Evidently the present bureau plan of federal aid administration does not now meet with country-wide favor, as aside from the Townsend measure, several others have been introduced which would create a radically different form of control. For instance, Senator Wesley Jones of Washington calls for the creation of a department of public works, which would among its other duties include all that is now done by the bureau of public roads. Representative Osborne of California would create a department of federal highways and establish a national highway system, while Representative Reavis of Nebraska introduced in the house the same measure as is sponsored in the senate by Mr. Jones. Southwestern Border Road.

Senator Morris Sheppard of Texas is the author of one bill calling for a military highway along the southwestern border, while Representative Hayden of Arizona also would have the war department at once under-

take a survey and investigate the need for a boundary road. Representative Hudspeth of Texas has about the same idea, except that he would not delay in starting the building of a military highway.

Senator Jones of Washington would have a survey of the entire Pacific coast for the purpose of investigating the need of a military road. He would also survey and locate a military and post road from St. Louis Mo., to Olympia, Wash.

Representative Lea of California proposes a highway for military coast defense purposes along the northern Pacific coast of his state to be known as the Roosevelt highway. Mr. Haley of Oregon seconds this idea and calls for the construction of the Roosevelt highway along the coast of his commonwealth.

Military Highways. Senator Shields of Tennessee would authorize the secretary of war to prepare a preliminary plan for a system of improved national highways, keeping in mind possible future military requirements.

Representative Robison of Kentucky asks for an increase of \$1,000,000,000 to present federal aid road act appropriations; while Representative Ferris of Oklahoma believes that \$400,000,000 should be added.

Many of the Rocky Mountain states representatives have fathered measures which would provide for the sale of public lands for use in road improvement, one of the most important of these bills coming from Senator Phipps of Colorado.

Delegate Kalanianole of Hawaii contends that this territory should participate in the distribution of the money appropriated under the federal aid road act.

Senator King of Utah believes that the national forests should be returned to the department of the interior instead of being administered by the department of agriculture, which arrangement, it will be remembered, traces back to the Roosevelt administration, when the change was made to meet the wishes of Gifford Pinchot, the then chief forester. A powerful sentiment undoubtedly exists for the return of the forest reserves to the secretary of the interior.

"It is interesting to note in analyzing the measures that the demand comes from all sections of the United States," comments Chairman George C. Diehl of the A. A. A. National Good Roads board, "showing that the movement for national highways is a genuine growth and that the roads question has passed beyond sectional stages."

30x3½ Non-Skid Firestone tires, 6000 miles guaranteed. Special price \$18.00. Cameron Tire Store.

SAN GABRIEL GOSSIP

July 15th.—Mr. W. B. Cochran of Gause was a visitor of friends here Sunday.

Miss Winnie Clark was in Rockdale last Tuesday.

Mrs. W. H. Camp and daughter, Miss Annie May, were trading in Thorndale Wednesday.

Mrs. Zora Outlaw and daughters were visitors to Thorndale Thursday.

Miss Maxine Barge is in Mineral Wells this week visiting friends.

Mrs. D. N. Clark has been quite sick the past week-end but is reported better at present.

Mr. Sterley and a friend motored thru our village Sunday enroute to their home in Taylor.

J. R. Ellison and wife and daughters were thru here Sunday afternoon from Thorndale.

J. R. Foster and wife of Rockdale spent Saturday and Sunday here with their daughter, Mrs. John Woody, and family.

Im. Rudi and family bowed to San Gabriel friends as they rode thru enroute home to Thorndale Sunday.

Nigel Outlaw returned to his home in this community last Thursday from overseas where he has spent several months. Nigel was a patriot from beginning to end of the great struggle, volunteering some two years ago, doing deeds of valor, with risk to his life and has won the title of sergeant-major in his division, showing the admiration and trustworthiness in which he was held. This homecoming decreases the number of absent boys, who left to offer service for their country, down to one. We speak of the boys going from our village and community. Last news of the still absent soldiers left him in Germany and our wish is that he too may be sent safely back home, also in the near future.

Miss Bertha Foster and father were in Rockdale Saturday. Little Misses Lois and Edith Jackson of Thrall are spending this week with their cousin here, Little Miss Zetha Winford.

Walter Farmer of Davilla was among friends here last Tuesday with his water-melon wagon. Farmers are cutting their cane at present. Beautiful weather prevails for the curing of this most bountiful crop.

Brian Woody spent last week-end with friends in Cameron and Temple. Miss Duncan Thomas was in Thorndale Monday.

A. Y. Norman and wife drove to Thorndale Sunday afternoon. Mr. Frank Hutson was looking after business in Thorndale Friday.

Mrs. Hattie Sides and little son of Gano, spent the past week end with her son, Ewing Cummings and wife of this village.

Shelby Phillips and family of Thorndale were thru our little berg Sunday.

Mrs. Willie Davis of Thorndale spent a few days of last week in the home of her parents, W. S. Glasscock and family.

Young Mr. Spoon came in last Tuesday after serving his country in France for many months. His mother's happiness is complete for with his return, her three sons were again given her, all honorably discharged after service abroad.

Miss Isabelle Camp left Saturday for a visit to relatives and friends in Austin.

Virg Winford and family were with relatives in Thrall Sunday.

Henry Graves and family of Lilac motored thru this village Sunday.

John Woody and wife spent Wednesday in Taylor.

Dr. Lee of Thorndale was making professional calls in this community a few days of last week.

We do not have to go to the truck scopes to find the nicest watermelons this year, as we usually do. Our friend and neighbor, Mr. John James can boast of just as large, beautiful and good melons as are found in this county. Not a common production for this kind of soil.

Master Robert McNeil of near Rockdale spent last week-end with his cousin, Harry Woody of this community.

Closest friends were invited Sunday to a dining in the home of Mrs. Zora Outlaw, in celebration of the home coming of her son, Nigel. A feast was partaken of and words cannot express the enjoyment of the day by all who attended. Greeting from friends in the form of a social evening at this home on Monday night, were received by Nigel, the guest of honor. We always enjoy the hours with Mrs. Outlaw and daughters, as hostesses.

F. M. Amason was attending business in Thorndale Thursday.

R. A. Foster came up from Rockdale Sunday and spent a few hours

in the home of his niece, Mrs. J. S. Woody.

J. G. Foster is listed with the sick this week.

Murrell and Felton Camp were Taylor visitors Saturday.

Mr. Warren of Thorndale was in our little hamlet Sunday afternoon.

A. Taegel and wife motored over from Thorndale Sunday.

Mrs. Fannie Norman and Miss Minnie Young of Thorndale were thru San Gabriel Friday on their way to Cameron.

Mr. and Mrs. Ernest Foster of Rockdale were guests of relatives here Sunday.

Brian Woody was a visitor to Taylor last Wednesday.

Mr. Wagner of Abilene was guest of friends here a day last week.

Theo. Locklin of Thorndale was among San Gabriel friends Monday night.

AUTOS REGISTERED COLLECTORS OFFICE

The following automobiles have been registered in the county tax collectors' office since last report:

1654—H. E. Graham, Gause, Ford.

1655—Ed Moultrie, Rockdale, Ford.

1656—W. E. Gaither, Rockdale, Ford.

1657—W. E. Gaither, Rockdale, Ford.

1658—C. S. Terry, Cameron, Ford.

1659—New Cameron Drug Company, Cameron, Ford.

1660—Mrs. Annie Urban, Cameron Route 1, Ford.

1661—W. B. Smith, Rockdale, Ford.

1662—John Ruser, Jr., Cameron, Route 1, Ford.

1663—E. B. Yeager, Rosebud, Rt. 3, Dodge.

1664—T. G. Sampson, Cameron, Overland.

1665—Marvin Pugh, Ben Arnold, Ford.

1666—Jim English, Cameron, Ford.

1667—J. T. Metchan, Buckholts, Route 1, Ford.

1668—S. E. Bragdon, Cameron, Chevrolet.

1669—W. A. Bryson, Ben Arnold, Ford.

1670—J. R. Luce, Cameron, Ford.

MOONLIGHT PICNIC

One of the most enjoyable out-of-door affairs of the season was a moonlight picnic given last Monday night by the young ladies of the K. K. K. to the young men of the same club in return for the many social courtesies extended them and their guests this summer. The spot selected for the outing was the beautiful grove on the R. L. Batte farm, two miles north of Cameron. The crowd was conveyed to the grounds on big motor trucks and this joy ride put every one in the best of humor and whetted the appetites for the delightful lunch provided by the entertaining young ladies. The lunch consisted of the most delectable sandwiches, which only young ladies know how to make, tomatoes, salads, fruits, ice cream and cake. After the tempting viands had been disposed of, an hour of conversation and jokes ensued and the merry making ended by a moonlight ride over the city.

The chaperones for the evening were Mr. and Mrs. J. L. Clinton and Dr. and Mrs. James Watson.

TRANSFER NOTICE

All who are interested in transferring to the Cameron public school will please see that the matter is attended to at once. Leave the names with County Supt. J. F. Chadwick, or with superintendent of the Cameron schools, L. H. Kidd. Transfers must all be in by the first of August.

L. H. Kidd, Supt.

WARPED VALVE STEMS

If there is a lack of compression and on examination the valve heads seem clean and perfect, give the valve stems a careful looking over to see if they have not become warped by the intense heat of that part of the engine.

CHEVROLET

The progress made in fine coach building is exemplified in its highest degree in the bodies of Chevrolet cars. While their design embodies all that is practical in the newest ideas of body construction, there is an appealing individuality in the graceful sweep of their lines which has always characterized Chevrolet design. In their construction is incorporated a quality of materials and workmanship seldom found except in the higher priced cars.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

Willard STORAGE BATTERY SERVICE STATION

ONE THING MORE

Most car owners know that this is the place to have their batteries tested with a hydrometer.

—That it is the place to buy a Bone Dry Battery with Willard Threaded Rubber Insulation—which carries with it the evidence of battery newness.

—That it is the place to come for battery charging, repair and a rental battery.

But, one thing more—it is the place to come, just as soon as you buy your new car, to have your battery registered and get the benefit of Willard 90-day battery insurance.

Drive in whether you have bought a new car or not. Perhaps we can give you some battery information that will mean longer life to your battery and fuller use of your car.

W. S. Felton et ux to E. M. Perry, 148 acres out of the J. J. Acosta survey, consideration \$10,700.00.

J. W. Anthis et al to Jeff Milla, lots 6 and 7 in block 14 of the town of Milano, consideration \$225.00.

Oscar Story et ux to John Small, 50 acres on the Chas. Small survey, consideration \$10.00.

Mrs. Joe Harlan et vir to Mrs. Sallie Harlan, 62 acres on the L. L. Childs grant, consideration \$690.00.

Mrs. Sidney A. Beckman to John Anderson, 513 acres on the W. E. Harris league, 1310 acres on the Jno. A. Hill league, consideration \$116,500.00.

J. W. Coulter to H. T. Coulter, lot 17 block 3 in the Wm. Allen grant in the city of Rockdale, consideration \$1,750.00.

R. E. Thaler et ux to W. D. Burkhardt, lots 7, 8, 9, block 19 and lots 3 and 4 in block 21, of the Newton-

Johnson re-subdivision of the Mary Umlang addition to the town of Thorndale, consideration \$500.00.

M. O. Murphy et al to Jas. A. Murphy, lots 9 and 10 out of the T. G. Jones addition to the town of Burlington, consideration \$500.00.

J. P. Looney et al to D. R. Strickland, 8 acres out of the David Curry league, consideration \$240.00.

Fred L. Smith et al to Elmer Self, 210 acres out of the D. B. Friar league, consideration \$10,538.20.

Mrs. M. C. Self et al to Willard B. Smith et al, 200 acres out of the D. B. Friar league, consideration \$5,500.00.

BAND CONCERT TO BE HELD AT PARK TONIGHT

At the special request of the Cameron Commercial Club, the night for band concerts in the park will be Thursday instead of Friday as in the past. This permits the members of the club to hear the band and not shirk their duty in connection with the affairs of the city.

During the Methodist meeting there will be no regular appearance of the band in the park, but one sacred concert will be given on a Sunday afternoon. More details will be published shortly.

The band has been rehearsing regularly and is rapidly being whipped into a real concert organization, but the public is to please notice that it takes years to make a band equal to Sousa, and our local band has been organized only about six weeks.

TRUETT BLAYLOCK AT HOME

Truett Blaylock who rendered such distinguished service in our Navy has reached Cameron and his friends are still congratulating him on his expert marksmanship in firing the shot that put a German submarine out of business.

The Herald is pleased to announce that Mr. Blaylock has been added to our office force and is making good here just as he did in the service of Uncle Sam. He expects to receive his formal discharge from the navy soon.

Lee Harris, son of L. W. Harris, returned Tuesday night from overseas service. He saw 8 months service in Co. L, 21st Engineers

THE PRISCILLA CLUB

A delightful meeting of the Priscilla Club was held at Mrs. Oxsheer Smith's pretty home on Hefley Heights last Thursday afternoon.

Mrs. Smith received her guests on the lawn which formed an ideal setting for the group of daintily clad women who compose the membership of this club.

The Priscillas are a band of artists and each member was busily engaged upon some marvelous piece of needle work but this did not prevent a pleasant flow of conversation and exchange of ideas which make these gatherings so delightful. The hostess served a salad and ice course after the work hour and adjournment was made until the cooler fall months. The invited guests were Mesdames Dow Eplen, Eugene Wallace, F. C. Fahrendorf, J. L. Barmore and R. C. Knipp.

DINNER PARTY

Miss Gladys Watson entertained last Friday evening at her home on Hefley Heights with a beautifully appointed course dinner in honor of her cousin, Mrs. Mitchener, of Troy, Alabama.

The dining room was the perfect embodiment of good taste and refinement, a color scheme of green and pink being carried out in decoration and lighting. After dinner informal dancing was indulged in on the spacious verandas of the home, music being furnished by the Edison.

Besides the hostess and honoree the personnel of the party included Misses Mary McLane, Cornelia Wallace, Louise Gillon, Louise Hearrell, Messrs Price Cross, Lawless Green, T. S. Henderson, Jr., John Henderson, Mike Coleman, Leland Denson and Geo. Childress.

PRESBYTERIAN CHURCH

Usual service Sunday morning. No service Sunday evening on account of the Methodist meeting. Friday night we are to have another one of our church socials on the church lawn. Let every member plan to be present and bring your friends.

W. Klawansky is in the Eastern markets buying fall and winter merchandise for his firm. He will visit Chicago and New York.

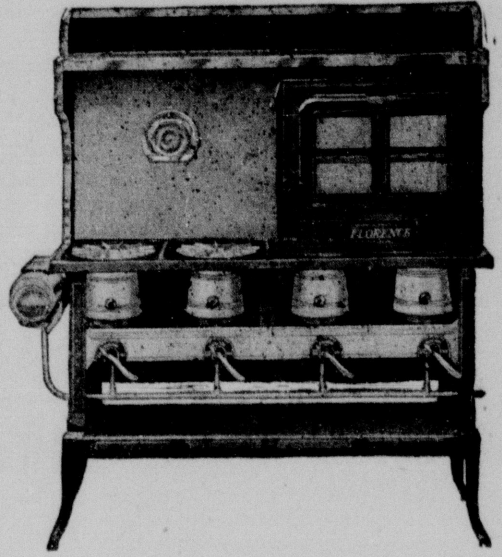

It Pays To Trade With C. N. Green Bros.

THE NEW FORD STARTER

Our fiscal year, 1918-19 is drawing to a close, and while it has been a period fraught with many and varied experiences in our personal as well as our National life, we have much to be thankful for, and we take this method of expressing our appreciation of favors and patronage extended by our friends.

We wish also, to call your attention to some of the features that will add interest and "pep" to Ford Products the coming season, some of which have been mentioned already and some of which are yet to be shown.

We are today receiving our first Sedan with the new starter.

To say that this starter is a success would be mild and commonplace, to say, "It's a dream" would not be true. It is a reality of the most vital importance and we would be glad to show it but for the fact that the party whom we ordered it will take the car out as soon as we can get it ready for the road.

All Ford Cars are now equipped for the starter, and in a few weeks we will have a stock of starters on hand, so that even those cars that have come out without the starter can be equipped on short notice.

Our mechanic has made a trip to the plant and received full instructions as to installation of the starter, so that when he installs them, they will be just as reliable as if coming from the factory.

While the tractor business is in its infancy in this community and has yet to be known to be appreciated, we feel that the season is approaching when if they are to be used to advantage this year, orders should be placed now. Every one who has given the Fordson a trial, no matter to what use it has been put is highly pleased, and where necessity requires it, will buy another, and in some cases many.

The same thing might said of the Ford One-Ton Truck. It is easily the most popular of Ford Products where it has been given a tryout. Every inland merchant, every land owner, and many tenants will find the Ford Truck the best investment they ever made. PLACE YOUR ORDER NOW.

Chambers Hefley Motor Co.

SECRETARY BAKER COMMENDS WORK OF A. & M. COLLEGE.

That war is now largely a matter of applied science and that any method of national defense must take into consideration the co-operation of the educational agencies of the country is the declaration of Hon. Newton D. Baker, secretary of war, in a letter of Dr. W. B. Bizzell, president of Agricultural and Mechanical College of Texas, thanking him for the large part this institution played in winning the late war with Germany.

"I am glad of this opportunity to express to you my recognition of the patience, devotion and skill with which both executives and teachers played the parts which they were asked to play," Secretary Baker says, and setting forth the loyal and liberal co-operation of all educational institutions which did special war training he continues.

"For all this service in so far as it relates to the war department I beg to express my profound gratitude; and at the same time I desire to bespeak for the war department your continued co-operation in the time to come. Any wise provision for the national defense will inevitably involve the utilization of educational agencies. As war is now largely a matter of applied science, so military training is largely a matter of education. Any permanent military policy that may be adopted will therefore depend to no small extent for its successful execution upon your counsel and active assistance."

TWIST TO THE RIGHT

In making a temporary battery connection the strands should be twisted up tightly, forming a loop by bending over to the right. Then the binding screw will grip closely and hold the looped wire in place. If the wire is bent to the left the screw will have a tendency to force the loop apart when the screw is tightened, making an imperfect connection.

Don't race with anyone on the road as this has caused the majority of automobile accidents.

Mrs. Stanley Boles and baby returned Wednesday from a visit to her mother in Waxahachie.

ECZEMA AND TETTER SUFFERERS DO NOT BECOME DISCOURAGED.

Blue Star Eczema Remedy is not a new preparation but has been tried and tested for four years and has given entire satisfaction to everyone who has used it, which is attested to by the following testimonial from a long sufferer of Eczema and Tetters. Blue Star Eczema Remedy is sold on a money-back guarantee. What it has done for others it will do for you.

Sold on a Money-Back Guarantee at all Drug Stores.

Read What Hon. J. J. McClellan Has to Say.

Corsicana, Texas, August 24, 1916.
Mr. Sol Gottlieb,
City.

Dear Sir: It gives me much pleasure to recommend your Eczema Remedy to those suffering from this dreadful disease. I had suffered from it for seven or eight years, and never obtained any permanent relief, until I had access to your remedy. I had it on my left hand very badly and nothing seemed to do it any good, un-

til I tried your Blue Star Remedy, and after using about a jar and a half of your remedy, the Eczema entirely disappeared.

The first application allays the terrible itching and if the medicine is applied according to directions afterwards, I think it will effect a cure.

Respectfully,

J. J. McClellan

TRY THIS WHEN ROUNDING CORNERS

Cultivate the habit of coasting around corners or going into second speed. Turning the corners at speed imposes intense strains on all parts of the mechanism and should be avoided for that reason, in addition to which it makes for skids. Further, turning at speed is exceedingly bad for the tires.

PUMP PRECAUTION

Motorists who use one of the hand pumps will do well to give the pump a few strokes before attaching it to the valve. This blows out any grit or other foreign matter that may be clinging to the pump valve, preventing their finding their way into the inner tube.

TIRES and TUBES

ON MAIN STREET

CHANGE OIL

This is the season when the owner of a car should replenish oil in all compartments, engine, clutch, gear-set and rear axle. The compartments should be flushed out with kerosene before the new oil is installed.

Mrs. Dick Cage is at home again after having spent several weeks visiting in west Texas.

DISCHARGED SOLDIERS

The army recruiting headquarters for the Southeastern district of Texas, located at 1003½ Congress Avenue Houston, will render the necessary assistance to all discharged soldiers in obtaining their additional travel pay as authorized by the Comptroller of the Treasury. The many soldiers who at the time of discharge, received only 3½ cents a mile from place of discharge to place of induction into service may now obtain an additional 1½ cents a mile, making a total of five cents as now authorized. In addition to this, if the soldier's actual bonafide residence at time of discharge was at a greater distance from place of discharge than the place he was inducted into service, he will be paid for the difference in mileage at the rate of five cents per mile. All the necessary forms and instructions can be obtained by calling at or writing to the above office.

Dr. Thos. Lutner who has been in Chicago for the past twelve months taking a special course in diseases of the eye, ear, nose and throat is in Cameron visiting his mother. He will leave for Lawton, Okla., in about three weeks where he expects to locate permanently.

JULY THE TIME TO GET THREE ENEMIES

Get in ahead of the insect leaf eaters with arsenate of lead solution. This will enable your trees to give the insects the laugh. What is more pleasant than the wonder whisperings of the trees in the soft summer air. A man who died in New York the other day never passed a magnificent tree without taking off his hat. The homage is merited for as Joyce Kirmer, who gave his life for France wrote: "Poems are made by fools like me but only God can make a tree." Study the care of trees and get ready to plant one in the fall. This newspaper has arranged for you to get complete information on tree planting free of charge by writing to the American Forestry association at Washington, D. C. In the meantime don't worry about those falling leaves in July. Wash down the tree with plain water thus drowning the plant lice. In the meantime get the free advice from the American Forestry Association.

MUFFLER PAINT

It is difficult to find a satisfactory paint for the exhaust pipe and muffler because of the heat of those parts. Here is a highly recommended muffler paint: Boiled linseed oil, 1-5 pound; Japan varnish, 1-5 pound; turpentine, 2-5 pound; lampblack, 1½ ounces; powdered graphite, 1½ ozs.; powdered oxide of manganese, 3-8 ounce. Mix the linseed oil and Japan varnish well together, then add in order, stirring all the time, the lampblack, the graphite and the powdered manganese. As the mixture thickens thin it down with turpentine until the quantity mentioned has been used. This mixture should be used as soon as it is mixed, as it dries quickly. Every time the brush is dipped in it should be stirred. It is well to paint the muffler while it is hot, after having cleaned it thoroughly.

CLUTCH LUBRICATION

One of the most commonly neglected parts of the car, so far as lubrication goes, is the clutch operating mechanism. In the case of disc clutches running in oil the lubrication of the thrust collar and the lever operating it is automatic. But with clutches that do not operate in a bath of oil the thrust collar and lever require oiling by hand. The service of these parts is exacting and frequent lubrication of the ball thrust bearing and of the end of the lever which actuates it is necessary. Furthermore, the bearing of the clutch pedal and the pins which secure the clutch operating linkage should be frequently lubricated.

PRIZE PACKAGES

To the Editor of The Stars and Stripes:—

Last week you awarded a loogie who wanted pillows for his detail of casuals the fur-lined mess kit or the knitted spurs. If any more loogies are eligible for future awards, I humbly suggest the following:

- 1 Pair barbed wire garters.
- 1 Pair embroidered dumbo bells.
- 1 Knitted umbrella.
- 1 Hand painted nail file.
- 1 Crochet mangle.
- 1 Dozen non-skid oysters.
- 1 Suit of sand-paper underwear.

—Generous Buck.

Mrs. B. P. Paddick and son leave today to visit relatives in Brownwood and Sweetwater.

Mrs. R. B. Rylander and Miss Alice Owen returned today from San Marcos.

Mr. and Mrs. G. H. Gaugh who have been visiting their sister, Mrs. Dick Clark, left Wednesday for Temple.

Mr. Stanley Boles left this morning for San Antonio.

THE CHAMP

"Dempsey now has won the crown, His fame is all the rage; He's going to meet the whole U. S. By going on the stage. He's going to tell how it was done— How he knocked Willard out— And you must pay two bucks a seat, To hear about the bout."

Some Resemblance.

"Didn't you have a brother in this course last year?"

"No, sir; it was I. I'm taking it over again."

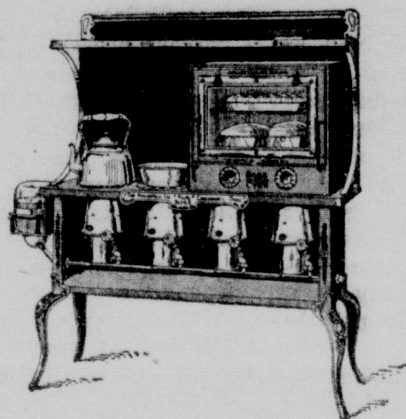

"Extraordinary resemblance, though positively extraordinary."—Ex.

Smith—"No, I don't care for that fox terrier. His legs are too short."

Dog Fancier—"You couldn't have 'em no longer, gov'nor. They reached right down to the ground."—The American Boy.

No Use To Wait-- Prices Are Going Higher

We have just unloaded some mixed cars of furniture, also have one car on the road. These goods were all bought before the recent advances which means from 10 to 25 per cent.

We carry the Detroit and Perfection Oil Stoves, two of the best. Buy an oil stove and stop fretting about the price of wood. We have just received 500 good clothes brushes worth 50c each. We will give one of these with each purchase of \$1.00 or more. Come and get yours before they are gone.

Remember we carry everything for the Home. Just received a big shipment of Trunks, Suit Cases and Hand Bags.

Columbia Grafonolas, one of the best made. Don't buy until you have seen the Columbia.

We have a few Refrigerators left at a right price. Make our store your headquarters while in Cameron.

RECONSTRUCTION OF THE WORLD.

Houston Chronicle.

We are embarking on the greatest and most complex epoch of reconstruction in human history.

Never were credits and the stability of governments so severely shaken, and never was there more imperative necessity for acting unitedly in their support.

The transition from war to peace is still too close upon us to permit anything like an intelligent grasp of the great problems to be faced and solved, but if effect is always equal to cause, which is generally accepted, we may rest assured that those problems are the most stupendous ever put up to civilization.

So far as organized strife is concerned the struggle may have subsided, but the influence of the commotion, temper and unrest incident to it will be with us for many, many years.

In finance, in politics, in commerce, in morals and in social matters, we probably have not felt the deeper effects of this conflict, and we may not feel them in the strongest way for considerable time.

This much, however, and this much only, we know. The whole structure

of Christian civilization has been profoundly rocked, not only by the menace of Prussianism, which, for the immediate present at least, appears well under control, but by the menace of mental and spiritual confusion of which bolshevism is, perhaps, only a warning.

Nations, and they are the greatest in the world, face debts never dreamed of, in response to which the living cost mounts higher and higher throughout the world. To reduce wages and values is to make it harder to liquidate those debts. To keep wages and values up is to invite the necessity of general readjustment.

Coupled with this situation, which is obviously full of pitfalls, there is political turmoil in many lands, and lack of political stability in many others, and underneath it all lies a hysterical skepticism regarding our moral and religious codes.

Europe realizes all this more distinctly than we do, because Europe is already being pricked. But though we have been touched to a comparatively slight extent as yet, we must not delude ourselves with the false hope that the influences of peace will leave us unscathed any more than did the influences of war.

The same cohesion that drew us into this conflict will make us party

to all the trials and tribulations of reconstruction. We can no longer pass the buck of Irish independence to England, or that of syndicalism to Italy.

We can no longer ignore the possibility of bankrupt institutions across the Atlantic. We can no longer regard the depression of credits in any considerable portion of the world as of no consequence to us.

Every difficulty incident to reconstruction is our difficulty as well as other peoples'. Every task is our task. We must not expect to escape by substituting a shore lived commercial prosperity. We must not think to avoid the inevitable, because for the next two or three years we may be able to sell some of our goods at unprecedentedly high prices.

BE CAREFUL OF WASHERS

In reassembling a fiber disk universal joint care must be taken to have the right number of washers separating the disks. Two washers separate each disk and one each is under the head and nut of the bolt. The nuts holding the bolts should be kept tight at all times.

L. J. Epperson has accepted a position with the Chambers-Hefley Motor Company.

ESSEX Popularity Grows

All who have seen the Essex will understand how difficult it is to appear temperate in our claims for it.

People are saying the most enthusiastic things about it. They like its light weight and the way in which it combines the economy of the cheap car with the quality, endurance, comfort and performance of the large costly automobile. Motorists in every section are praising the Essex. Tens of thousands have ridden in it. A million have seen the Essex. All hail it a new leader.

BIG AUTO SHOW AT THE DALLAS FAIR

Promises To Eclipse Anything Ever

Held in Texas—Equal To Larger Cities.

The auto show at the victory fair at Dallas promises to eclipse anything of the kind ever held in the state. Demands for space are so many that a new building is to be erected to house the trucks, leaving the whole machinery hall for the pleasure cars.

The new truck building will be 50 by 400 feet and will cost about \$7,000. S. G. Davis, chairman of the committee appointed by the Dallas Automobile Trades Association, is cooperating with W. H. Stratton, secretary of the State Fair of Texas, in this department.

Beautiful and novel light effects decorations have been provided for at a cost of \$3,500 additional. The auto building will be a community social center. There will be a splendid fountain in the center, and floor space and a good orchestra will be provided for dancing. It will easily be one of the show places of the fair.

Hundreds of different makes of automobiles and trucks will be displayed. Many will show the new 1920 models which are displayed here from sixty to ninety days before being exhibited in New York. In an adjacent enclosure more than a hundred different makes of tractors will be shown and demonstrated

MOTORISTS LEARN HOW TO CARE FOR THE TIRES

Motor vehicle owners are showing more care in the way in which they treat their tires, and as a result the life of the tire adjusters employed by the big tire companies is becoming a happier one, according to the representative of a big tire factory who believes that the consistent educational propaganda distributed by the tire manufacturers for the purpose of acquainting car and truck owners with the factors that are detrimental to long tire life is bearing fruit.

"There is no question," he says, "but motorists are now tire wise and that the average driver is as thoughtful of his tires as he is of any other important part of the car. This is particularly evident by the small number of cars you will notice these days running along the streets with underinflated or squashed shoes. It took some time to bring home the fact that the shoe that carried the proper air pressure in its tube would give the longest and best service, but finally this money saving advice was appreciated. Driving in ruts, pulling up to a sharp stop with the tires grinding against the street curb, and a number of common practices of other days, are not so frequently indulged in now."

to the farmers. All the various types will be represented.

The auto show will compare favorably with the shows held in Chicago, New York and Detroit. "In attractiveness we hope to set a standard for other makes to emulate," said Mr. Davis.

POWER FARMING ALL OVER WORLD

"Iron Horse" Supersedes Animals
Altogether In Some Section of
Middle West.

"The horseless farm is a reality and it has come to stay," said Clifton George, of Dallas, who has just returned from a national demonstration of tractors staged by manufacturers at Wichita, Kan., where over 100 different styles and makes were paraded at one time.

"There are a number of large farms in Kansas where the 'iron horse' is king of beasts, and is used exclusively to plow, harrow, seed, bind and thresh the crops of the Kansas plains," said Mr. George.

At the national tractor exhibit, which continued from July 1 to 19, inclusive, over 100 different models of tractors were shown, ranging from the small garden tractor, which is pushed along in front of the vacant lot agriculturists, to the mammoth machine which draws with ease the sixteen-point plow.

Another feature of the exhibit was the use of the tractor as a stationary engine generating power for the filling of grain bins and silos. The grain bins were filled by means of blowers and the silos with automatic conveyors.

"Power farming has captured the world, and the horseless farm is the realization of the tractor manufacturers' dreams," said Mr. George. "The large landowners of the Middle West were converted to the tractor during the war when they were confronted with labor shortage and at the same time an increased demand for their crops. The adaptability of the tractor to meet all situations has won for it a recognition that is now being manifested in increased demands for these labor and money saving machines."

One tractor gave a thirty-day non-stop test of its endurance, being operated continually during that period twenty-four hours each day by means of three eight hour shifts. During that time forty miles of road were dragged several times, 340 acres of wheat were cut, 160 acres of ground plowed, besides the harvesting of other crops.

"The machine was supplied with gasoline and oil while the engine continued to run, and after the test the tractor was dismantled and examined by a committee of experts, with the result that the wear on the valves, pistons and all bearings was imperceptible."

DOBBIN PASSES BEFORE THE MOTOR.

Figures published by the sanitary bureau of the department of health of New York City show that from March, 1917, to March, 1919, there was a decrease of 2664 occupied stables in the city, with a decrease of 32,296 in the number of horses. The total number of horses in the greater city at the census in March 1917, was 108,036. The one this year, the same month, showed only 75,740.

LEAKING TUBE

Sometimes an inner tube receives a puncture big enough to allow the tire to become reflexed after a brief interval but not visible to the naked eye. When this happens in the garage the bucket of water tells the tale at once, but on the road about the only way of locating the leak is to inflate the tube and hold successive portions of it close down to the dust along the surface of the road. When the puncture is brought into this position the outpuff of air will ruffle the dust and indicate the position of the leak.

TO CLEAN SPARK PLUGS

An excellent method of cleaning spark plugs, or in fact any mica surface, is to wash them first in a 10 per cent solution of acetic acid, which is an infallible solvent of grease and carbon deposits. The plugs should then be washed off with gasoline and finally dried by rubbing them with a cloth.

TOURING POPULAR ALL OVER U. S.

Remote Sections Of Country Find
They Are In For Continued
Tourist Trade.

"Touromania" is gripping the United States.

Reports from every section of the country show the "touring bee" is rampant, and even the remotest sections that never boasted much automobile touring report the arrival of scores of motor caravans.

This is the gist of a report issued by the National Touring Bureau of the B. F. Goodrich Rubber Company, which says that the average citizens who seldom thought of long tours is being seized with the "long distance fever." It's an after the war relation—a desire for people to forget the war and rest their overstrained nerves. There were few vacations last year and the work of rearranging business affairs to fit reconstruction needs held thousands of business men to their work.

The second big factor contributing to the vast scope of motor travel is that the bars on European touring are still up. England and France have announced that foreign visitors will not be admitted until next year.

The bureau has been swamped with requests for State road maps. They will give out nearly 5,000,000 State highway maps this year. This is almost the equivalent of one map to each and every car owner in America were they distributed on the basis of one State map to an automobile owner. Requests have been heavier than ever before by a wide margin, and have increased with each week during the latter part of August.

It is estimated that over 75 per cent of the cross country tours are made on improved roads, which represent a total of less than 20 per cent of the Nation's highway system. When the enormous appropriations for highways have been extended and the car owner and motor truck operator is offered a wider range of activity, utilization of the roads will mount to almost unbelievable proportions. Not only more improved roads but wider roads will be needed to avoid congestion of traffic.

SOUTH AMERICA HAS FAMINE IN GASOLINE

Shortage of gasoline in British South Africa has affected the use of motor cars and trucks, according to a report from the American counsel. Sales of gasoline were suspended by the government in order to insure adequate supplies for military use. The position is not so serious now, and gasoline is again being sold for commercial requirements. Parliament has legislated that no excise duty be levied on union spirits or on other manufactured from spirits, if they are used for internal combustion engine fuel in order to stimulate and encourage the establishment of a motor fuel industry. As a result, a factory has been erected near Durban costing 400,000 and with a full capacity for 3000 gallons daily. This fuel is being placed on the market at a price just below that of gasoline. No statement can be made yet as to its success as a substitute fuel.

RATTLE IN SHACKLES

Spring shackle play or looseness between the spring end and the shackle may give much trouble until discovered. Rattling caused by this looseness will be more frequent and distinct when the car is riding over fairly rough roads. A good method of taking up the play is to place shims between the spring end and the shackle, or the play may be removed by tightening the bolt. Watch the shackles and do not allow mud to accumulate, as small particles of glass-like substances in parts cause excessive wear. Lubricate the shackle bolt generously.

Billboards on which figures are made to move by electric motors have been patented.

Save The Pieces

BROKEN CASTINGS

Can be welded and made good as new. We have an up to date Oxy-Acetylene Welding Plant. We weld cast iron, cast steel, brass, aluminum, and also automobile parts, gin and oil mill machinery.

CAMERON, TEXAS

HIGHWAY BUREAU PROVES BIG BOON

The state highway department handles a great deal of money each year, running well into the millions, but the counties of the state are sharing in the distribution of the funds for the purpose of constructing roads, in a manner which makes the owners of automobiles perfectly willing to pay the tax on motors.

The department has now been in existence for two and a half years, and during that time it has collected \$5,246,701, inclusive of the tax on motor cars, chauffeurs, dealers, transfers and license plates.

During the years 1917-18 there was returned by the department to various counties \$1,306,335 in the way of allotments. Then the law was changed and the county tax collectors became the collecting agents, retaining for their counties 50 per cent of the tax collected which has amounted during 1919 to \$1,271,583, making a total returned to and retained by the counties directly \$2,578,019.

Of the amount held by the department, \$447,784 has been returned to the counties during the two and a half years in the form of allotments and aid for projects. And during the same time \$267,986 of federal aid has been awarded to counties for road work.

The department has expended for engineering talent \$57,999 during the

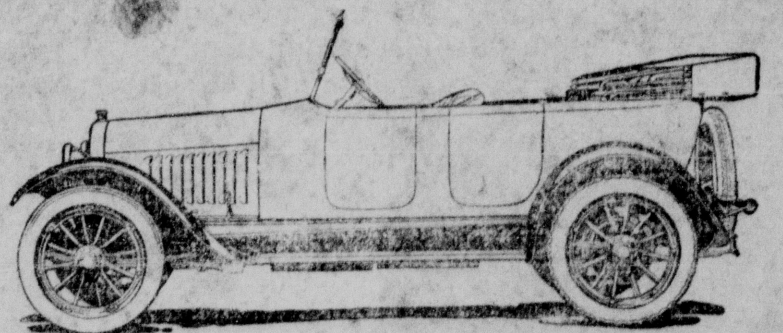

WHY AUTOS ALWAYS RUN BETTER AT NIGHT

According to a factory representative, people used to wonder why an automobile came home at night running better than when it started out in the morning. It was soon discovered that the better running qualities were due to night driving conditions.

The reason for this, he says, is "that at night the air is moist, and moist air contains a considerable amount of water. Water is approximately 87 per cent oxygen by weight and consequently moist air contains just as much more oxygen than dry air by the amount of oxygen that is in the water which the air picks up. Oxygen always improves the combustion. Furthermore, carbon which is set free by the heat of the explosion will combine with oxygen and form carbon monoxide, which is a gas—in other words, you must have oxygen in the mixture to prevent the free carbon from settling as a hard deposit on the piston heads, etc."

two and a half years, and a large portion of this has been directly to the aid of the counties in the inspection of work under way, the preparation of plans and similar work which in other years would have been paid for by the counties to consulting engineers and experts.

During 1917-18 the expenditure for number plates amounted to \$126,252, and for the elapsed six months of 1919 to \$30,330, making a total of \$156,582. The expenditure for seals during the time has been \$21,956.

The Maxwell is a pleasure car. Every feature of its design, every detail in its makeup and all of the items that complete the sum of its serviceability contribute to that end.

That tens of thousands of Maxwell pleasure cars are employed in business service is significant, because many of the attributes that make the Maxwell so desirable as a pleasure car also make it an efficient business car.

But it is still more significant that tens of thousands of Maxwell cars have found continued favor among those motorists to whom a motor car is part and parcel of the family life.

HELPFUL POINTS TO INCREASE MILEAGE

Careful motorists who seek the most economical operation of their cars may get some pointers for increasing their tire mileage, and incidentally reducing the expense in this important and often costly element in motoring, from the following suggestions put out by one of the large rubber companies in the manufacturing city of Akron, Ohio:

Don't overload your tires. A tire will give out sooner from overload than from almost any other cause.

Don't underinflate. Underinflation and overloading account for fully 90 per cent of all tire trouble.

Don't neglect small cuts. These will often extend further than you think. Dirt and water get in, the fabric rots, and a blowout follows. Look

over your tires from time to time and repair small cuts.

Don't run in ruts, car tracks, or against curbing. The side walls of a tire are much thinner than the tread and will not stand this kind of usage.

Don't start or stop suddenly or skid around corners. The strain thus set up in your tires is terrific.

Don't run on a flat tire. Better run on the rim if only for a short distance.

Don't let oil, grease or gasoline remain on your tires. They all destroy rubber. Wash only with pure cold water and a little soap.

Don't keep a spare tire out of use too long. Change over occasionally. A tire lasts better in use than exposed to the sun and rain on the running board or suspended at the rear.

Don't let your rims get rusty. Common stove polish will keep them in good condition.

Don't let the weight rest on a deflated tire. Jack up the wheel or remove the tire.

Don't let your axles or rims become bent. If your wheel doesn't turn free and true, your tires will suffer. If your wheels are not in line, remedy the trouble—you are dragging your tires. They will show a rapid and one-sided wear not generally understood by motorists, and usually blamed on the tire.

CLEANING CONTACT POINTS

It is sometimes difficult to find a really satisfactory agent for cleaning the contact points of ignition apparatus or the surface of a commutator on a starting motor or a lighting dynamo. There is something known as "cuttlefish paper" which is finer than the finest quality of sandpaper and which is very well adapted to this operation. Cuttlefish paper is not regularly carried by hardware stores, but it may be obtained from dental supply houses.

If it's in The Herald, it is news.

Don't try to argue with Benjamin Franklin. He said: "He that waits upon fortune is never sure of a dinner. The way to wealth depends upon industry and frugality." Just buy another W. S. S.

SAN GABRIEL GOSSIP

August 12.—Mr. G. Balcer of Rockdale was guest of his brother-in-law, Mr. C. Yeager of near San Gabriel part of last week.

Misses Fay Felton and Annie May Camp are visiting Miss Sarah Pace in Hillsboro.

J. C. Elliott and family and Mr. and Mrs. Fred Frenzel motored here from Thorndale Sunday afternoon.

Mr. and Mrs. Jim Stovall of Nile were visitors Sunday in the home of their mother, Mrs. Elvy Smith of this village.

Walton Hinds of Thorndale was with San Gabriel friends Sunday afternoon.

H. H. Camp and family were invited to a dining Sunday in the home of Mr. and Mrs. B. H. Camp in Thorndale.

Mrs. James A. Clark and daughter, Miss Beatrice, have returned from Temple.

Mrs. Allen Turner of Davilla was guest in the home of her sister here, Mrs. Geo. Middleton, one day last week.

Mr. and Mrs. McQueen of Sharp, spent Wednesday of last week in the home of their daughter, Mrs. Ewing Cummings.

Lige Jocelyn of Aransas Pass spent the past week end here with his family.

Albert Schiller was thru here from Cameron Sunday.

Misses Ella and Ora Yeager and brother, Joe, attended church in Thorndale Friday night.

Miss Norine Cowen, Miss Gladys Summerlin, Mr. Brown and family, Mr. and Mrs. Bert Elliott and children, O. M. Shaw and wife, Mr. Beard were outing in our vicinity from Thorndale Sunday afternoon.

Our meeting begun Sunday morning with opening services conducted by Rev. M. A. Darby of Thorndale. He will be assisted the remainder of the week by Rev. Mr. Springfield of Granger.

Mr. and Mrs. Seth Glasscock were presented with a fine boy last Friday.

Miss Isabell Camp was shopping in Thorndale Saturday.

Vernon Guthrie spent last week-end with his aunt, Mrs. Alfred Offield and family in Taylor.

Misses Katherine Glasscock and Ira V. Woody were in Thorndale Saturday. Joe Stigall and wife returned from San Antonio last Monday where they visited relatives for a few days.

Miss Suella Glasscock was shopping in Thorndale Saturday.

Virg Winford returned this week from a fishing trip on the Llano river. Henry Yeager was a visitor to Taylor Saturday.

Editor E. L. Ramsey and wife of Thorndale were driving in this community Sunday afternoon.

Branch Lewis was here from Rockdale Saturday.

W. H. Camp and wife motored to Rockdale Sunday afternoon.

J. P. Reeves and family attended church in Thorndale Friday night.

Mr. and Mrs. Tamm Johnson and children were trading in Thorndale Friday.

Miss Winnie Clark left Wednesday for San Antonio to join friends in a summer tour of Canada, Yellowstone Park and other places of note in the U.S.

Misses Mary and Isabell Camp were hostesses to a large concourse of friends last Wednesday evening. The occasion being in honor of Miss Isabell's birthday. Quite a pleasant evening was spent by the boys and girls of this community, joined by a lengthy list of visitors from Thorndale. Refreshments consisted of cream and cake.

Miss Pearl Davis and little cousin, Evelyn Jocelyn, are visiting relatives in Tracy this week.

Mrs. Hattie Sides of near Hare was a visitor part of last week in the home of her son, Ewing Cummings and wife of this village.

Jamie Clark and his two little cousins of Houston who are his guests at present, with Floyd Goff, William Glasscock and Louis Reeves enjoyed last week-end in Austin.

Mrs. Duncan of Bartlett was guest a few days this week of her friends the Misses Yeager of this community.

E. M. Chandler and Robert Higgins motored thru San Gabriel from Cameron Sunday afternoon.

Bailey Turner of the Kolb community motored thru this vicinity Sunday.

We have learned today that Mr. Hope Camp has been breaking land on his farm for one week without our knowledge with a new Ford tractor, a late purchase.

Mrs. Edgar Williams is now in Clarksville visiting her father and brother at that place.

Fred Stigall spent last Thursday in Taylor.

Miss Kate Woody was shopping in

PERMITTING PRISONERS TO SHARE IN THE NET PROCEEDS FROM THE STATE PENITENTIARY SYSTEM.

House Joint Resolution No. 38.

Proposing an amendment to Article 16 of the Constitution of the State of Texas, by adding a new Section thereto to be known as Section 60; providing that the Legislature shall have power to enact laws authorizing a division of the net proceeds arising from the operation of the prison system of this State between the State and prisoners confined in the Penitentiary or their dependents; providing for the submission of a proposed amendment to a vote of the people, and making an appropriation to defray the expense of such election.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Article 16 of the Constitution of the State of Texas be amended by adding thereto a new section to be numbered Section 60 as follows:

Section 60. The Legislature shall have power to authorize a division of the net profits arising from the operation of the prison system during any one fiscal year between the State of Texas and the prisoners confined in the penitentiary during said fiscal year or any part thereof, or their dependents in such proportion as the Legislature may determine, not to exceed fifty (50) per cent to such prisoners or their dependents.

Section 2. The foregoing amendment to Article 16 of the Constitution of Texas shall be submitted to the qualified electors of this state for its adoption or rejection, at a special election hereby ordered for the fourth day of November, 1919. All voters on this proposed amendment at said election who favor its adoption shall have printed or written on their ballots the following: "For amendment to Article 16 of the Constitution, authorizing a division of the net proceeds of the prison system of this State between the State and prisoners confined in the Penitentiary or their dependents." Previous to the election the Secretary of State shall cause to be printed and forwarded to the County Judge of each county, for use in said election, a sufficient number of ballots for the use of the voters in each county, on which he shall have printed the form of ballots herein prescribed, for the convenient use of voters.

Section 3. The Governor of the State is hereby directed to issue his necessary proclamation ordering this election, and have the same published as required by the Constitution and laws of this State. The sum of five thousand dollars (\$5,000.00), or so much thereof as may be necessary, is hereby appropriated out of any funds in the State Treasury not otherwise appropriated, to defray the expenses of publishing said proclamation, and printing and distributing the necessary tickets and blanks for use in said elections.

GEORGE F. HOWARD.

A beautiful
exterior

A practical
interior

The living room, with a large open fireplace, extends clear across the front. Two large bed rooms, dining room, breakfast room, bath, kitchen and screened rear porch complete the comfortably arranged interior, while the big well-shaded front porch, with its massive columns, presents an unusually attractive appearance.

A Home You Can Afford to Build

This beautiful Interlocking Tile cottage is but one of many lovely homes for which floor plans and photographs are available for inspection here.

And you will be surprised to learn how little the necessary Interlocking Tile for its erection will cost. Complete building plans may be obtained from us, and the home can be built for a very moderate sum, considering the safety, comfort and permanence which the material of which it is built insures.

FRASERCLAY
INTERLOCKING
TILE

builds into structures of every type that afford maximum protection against fire, weather, cold, heat and depreciation. There is no other building material so efficient, so permanent, and yet so very economical.

Let us tell you about it.

JETER LUMBER COMPANY

Cameron, Texas

HINTS TO THE CAR OWNER

Check valves which control the flow of oil in a plunger type of pump should be cleaned occasionally to insure proper working. In case the oil does not flow or the gauge shows no pressure it may be due to the pump becoming air bound but usually cleaning the check valve removes the trouble.

When an engine knocks something is wrong. Whenever there is a rattle something is loose that ought to be tight. It takes quite a little skill to locate the different kind of knocks, but practice makes perfect. By going over the engine carefully these may be eliminated one by one.

Remember that too much oil is almost as bad as too little. If the oil level is too high too much oil will get up on top of the pistons and a lot of trouble will follow. But too little oil is worse, as it may result in scored cylinders, seized pistons and a bent crankshaft. So watch your oil gauge and keep the system just full.

When a gasoline feed pipe is looped or otherwise bent in order to avoid liability to breakage, air locks and interruptions of the flow of fuel are likely to occur after filling the tank unless sufficient gasoline is poured in to produce the pressure required to drive out the air that will be trapped if the loop is made in a vertical plane. If the loop is turned so as to lie horizontal, however, there will be no such trouble. Incidentally, a complete loop is the best safeguard against crystallization and breakage of the pipe.

And, remember, "safety first!" Inspect the fastenings of the steering gear at least once a week and try the brakes every time you take the car out.

PROVIDING FOR THE SEPARATION OF THE STATE UNIVERSITY AND THE AGRICULTURAL AND MECHANICAL COLLEGE, AND FOR BOND ISSUES BY EACH.

House Joint Resolution No. 29.

A Joint Resolution to amend Art. 7, Secs. 10, 11, 12, 13, 14 and 15 of the Constitution of the state of Texas, which article relates to education, and which sections provide for the establishment and support of the University of Texas, the Agricultural & Mechanical College of Texas, and for a branch college for the instruction of colored youths; provides that Texas State Medical College and School of Mines at El Paso shall be branches of the University of Texas; provides that said University, said Agricultural and Mechanical College, and said College of Industrial Arts shall be separate State institutions and independent in organization; provides for the sale of the lands belonging to the University of Texas permanent fund, and for the division of the proceeds of such sale and all securities between the University of Texas, the Agricultural and Mechanical College of Texas, and the Prairie View Normal and Industrial College; directs that the respective parts of each shall become the permanent fund of each institution and how it shall be invested; provides that the University of Texas and the Agricultural and Mechanical College of Texas may utilize the permanent fund of each as a basis for the issuance of bonds for improvements, and for redemption of such bonds from the income of such permanent funds; provides that the governing board of the Agricultural and Mechanical College may make provisions for permanent buildings for the Prairie View Normal and Industrial College from the proceeds of bond issues by the said Agricultural and Mechanical College; and declares said Prairie View Normal and Industrial College a Constitutional branch of the Agricultural and Mechanical College; provides that the Legislature shall make provisions by appropriation for the maintenance and development of the University of Texas and the Agricultural and Mechanical College, and for the development and support of the College of Industrial Arts, the Normal Schools, the Prairie View State Normal and Industrial College; provides for the authority to the University of Texas and the Agricultural and Mechanical College, pending division of the University endowment, to issue bonds redeemable from the income of the endowment, and granting authority to the Legislature to make appropriations to supply any deficiency; provides that the Legislature shall give encouragement and direction to the development of a University of the first-class, and an Agricultural and Mechanical College of the first class, and a College of Industrial Arts of the first class; provides for the submission of this proposed amendment of the Constitution to the people, fixing the date for election to be held, and making an appropriation to pay the expense of said election.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Sections 10, 11, 12, 13, 14 and 15 of Article VII of the Constitution of the State of Texas, which Article relates to education, and which sections provide for the establishment and support of the University of Texas, the Agricultural and Mechanical College of Texas, and a branch college or university for the instruction of colored youths, be amended to read as follows:

Section 10. In pursuance of constitutional authority and direction the State having established the University of Texas at Austin, in Travis county; the Agricultural and Mechanical College of Texas at College Station, in Brazos county; and the Prairie View State Normal and Industrial College for the instruction of colored youths of the State at Prairie View, in Waller county; and the Legislature having established the College of Industrial Arts at Denton, in Denton county, the said University of Texas, the said Agricultural and Mechanical College of Texas, and the said College of Industrial Arts for white girls, are hereby declared separate state institutions and independent in organization. The Texas State Medical College, located at Galveston, in Galveston county and the School of Mines, located at El Paso, in El Paso county, are constituted branches of the University of Texas. The Prairie View State Normal and Industrial College for the instruction of colored youths is constituted a branch of the Agricultural and Mechanical College of Texas.

Section 11. To better enable the University of Texas and its constitutional branches; the Agricultural and Mechanical College of Texas and the Prairie View State Normal and Industrial College, to fulfill the purposes for which created, all lands and other property heretofore set apart and appropriated for the establishment, endowment, and maintenance of the University of Texas and its constitutional branches, together with the proceeds of the sale of such lands heretofore made, or hereafter to be made, for the support and benefit of either institution, shall constitute a permanent fund for the University of Texas, the Agricultural and Mechanical College of Texas, and for the Prairie View State Normal and Industrial College; provided, that when the permanent University endowment shall, by constitutional and statutory authority, be apportioned to the institutions named it shall be divided between the University of Texas, the Agricultural and Mechanical College of Texas, and the Prairie View State Normal and Industrial College in the following manner: To the University of Texas, sixty-six and two thirds (66 2-3) per cent, and the Agricultural and Mechanical College of Texas, thirty-three and one third (33 1-3) per cent; and the governing board of the Agricultural and Mechanical College of Texas shall apportion to the Prairie View State Normal and Industrial College for colored youths such part of, or interest in, the said thirty-three and one third (33 1-3) per cent as may be determined equitably by said governing board. The principal of all funds accruing to each institution from the division of the University endowment under the provisions of this section shall, whenever the said endowment is divided, constitute the permanent fund of each, and shall be invested as the permanent public free school is now or may hereafter be authorized by law to be invested; and the governing boards of the University of Texas and the Agricultural and Mechanical College of Texas shall be authorized, with the approval of the Governor, and in the manner to be provided by law, to issue bonds for permanent improvements, such bond issues to be based upon the permanent funds of the institution issuing them; and the governing board of each institution shall make provision from the income derivable from its permanent fund for the payment of all bonds issued under its authority as may be provided by law.

Sec. 12. The lands set apart to the University fund shall be sold under such regulations, at such times, and on such terms as may be provided by law; and the Legislature shall provide for the prompt collection, at maturity, of all debts due on account of University lands heretofore sold, or that may hereafter be sold, and shall in neither event have the power to grant relief to the purchasers. And, until such time as the University endowment fund shall be divided, in accordance with constitutional and statutory authority, the proceeds from the sale of lands, as realized and received into the Treasury of the State, together with such sum belonging to the funds as may now be in the Treasury, shall be invested as the permanent public free school fund is now or may hereafter be authorized by law to be invested; and the interest accruing thereon, and any income from the use of the said University lands, shall be subject to appropriation by the Legislature, and may be available for the redemption of bonds based on the University endowment and to be redeemed from the said interest and income from the use of land, as may be provided by law, to aid in the construction, equipment and maintenance of the University of Texas and the Agricultural and Mechanical College of Texas, and the total of such bond issues outstanding shall at no time exceed four and one-half million dollars, and the Legislature is hereby authorized to appropriate out of the general revenues of the State such moneys as may be necessary to cover deficiencies in the interest and sinking fund accounts of the bond issues herein provided for. Provided, that the one-tenth of the alternate sections of the lands granted to railroads, reserved by the state, which were set apart and appropriated to the establishment of "The University of Texas" by an Act of the Legislature of February 11, 1858, entitled "An Act to Establish 'The University of Texas,'" shall not be included in or constitute a part of the permanent University fund.

Sec. 13. The Legislature shall provide by appropriation for the equipment, maintenance and development of the University of Texas, and the branches of the said institution named in this Article and such other branches as may hereafter be established by law; for the Agricultural and Mechanical College of Texas and its branches as now or hereafter may be established by law; for the College of Industrial Arts for the education of White Girls; for State Normal Schools; and for the Prairie View State Normal and Industrial College for colored youths.

Sec. 14. The Legislature shall give encouragement and direction to and make provisions for the educational activities of the respective State institutions provided for in this Article, and as may be adequate for the promotion of literature and the arts and science, pure and applied, and for instruction in all the professions of a university of the first class and for instruction in all those branches of learning which relate to agriculture, animal husbandry, the natural sciences, pure and applied, connected therewith, the mechanic arts and military science and tactics, requisite to the development of an Agricultural and Mechanical College of the first class; and for the education of white girls in the literary branches, the arts and sciences, and social and domestic economy of the age, as may be necessary to establish and maintain a College of Industrial Arts of the first class for white girls, and for instruction in all the branches requisite to the development of normal schools of the first class.

Sec. 15. The Prairie View State Normal and Industrial College for the instruction of colored youths of the State, having been located at Prairie View, in Waller County, as a branch of the University of Texas, is hereby declared a branch of the Agricultural and Mechanical College of Texas. And in lieu of the separate apportionment of a part of the University endowment, as authorized in Section 11 hereof, the said Board of Directors of the Agricultural and Mechanical College may apportion to the Prairie View State Normal and Industrial College such part of any fund realized from any authorized bond issue by the Board for the purpose of permanent improvements as the Board may determine to be equitable and the fund so apportioned shall be available only for the purpose of constructing permanent improvements for the said Prairie View State Normal and Industrial College.

Sec. 2. The Governor of this State is hereby directed to issue and have published the necessary proclamation for the submission of this proposed

amendment to the Constitution of the State, to the qualified voters of the State, said election to be held throughout the State on the first Tuesday in November, 1919, and all voters favoring the amendment shall have written or printed on their ballots the words:

"For the amendments to Sections 10, 11, 12, 13, 14 and 15 of Art. VII of the Constitution of the State of Texas, fixing the constitutional status of the University of Texas, the Agricultural and Mechanical College of Texas, the College of Industrial Arts at Denton, Texas; the Sam Houston Normal Institute at Huntsville, Texas; the North Texas State Normal at Denton, Texas; the Southwest Texas State Normal at San Marcos, Texas; the West Texas State Normal at Canyon, Texas, and the East Texas State Normal at Commerce, Texas, and other state educational institutions, and determining the interest, respectively of the University of Texas, the Agricultural and Mechanical College of Texas and the Prairie View State Normal and Industrial College in the University permanent fund; and providing for the support, direction, and development of State Educational Institutions."

Those opposing the amendment shall have written or printed on their ballots the words:

"Against the amendments to Sections 10, 11, 12, 13, 14 and 15 of Article VII of the Constitution of the State of Texas, fixing the constitutional status of the University of Texas, the Agricultural and Mechanical College of Texas, the College of Industrial Arts at Denton, Texas; the Sam Houston Normal Institute at Huntsville, Texas; the North Texas State Normal at Denton, Texas; the Southwest Texas State Normal at San Marcos, Texas; the West Texas State Normal at Canyon, Texas, and the East Texas State Normal at Commerce, Texas, and other State educational institutions, and determining the interest, respectively, of the University of Texas, the Agricultural and Mechanical College of Texas, and the Prairie View State Normal and Industrial College in the University permanent fund; and providing for the support, direction and development of State educational institutions."

Sec. 3. The Governor is hereby directed to submit this amendment to the qualified voters at an election to be held throughout the State on the date herein specified, and the sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of the general revenue not otherwise appropriated, for the purpose of issuing the proclamation and publishing the amendment as required by the Constitution and laws of this State.

GEORGE F. HOWARD.

RELATING TO SPECIAL TAXES BY CITIES, TOWNS AND COUNTIES FOR PUBLIC IMPROVEMENTS, PUBLIC ROADS, ETC.

Senate Joint Resolution No. 20.

Proposing an amendment to Section 9 of Article 8 of the Constitution of the State of Texas, by changing said Section 9 so as to provide for the levy of taxes by counties, cities and towns, not to exceed thirty cent for roads and bridges, and a tax not to exceed fifty cents on the One Hundred (\$100.00) Dollars' valuation in any one year, for the erection of public buildings, streets, sewers, water works, improvements of cemeteries and other permanent improvements, providing for the levy of a maintenance tax by counties, or political subdivisions thereof, not to exceed sixty cents on the One Hundred (\$100.00) Dollars' valuation, upon a majority vote of the qualified property tax payers voting at an election held for that purpose, and making appropriation therefor.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 9 of Article 8 of the Constitution of the State of Texas be so amended that the same will hereafter read as follows:

Section 9. The State tax on property, exclusive of the tax necessary to pay the public debt, and the taxes provided for the benefit of the public free schools, shall never exceed thirty-five cents on the One Hundred Dollars' valuation; and counties, cities and towns are authorized to levy not exceeding thirty-five cents for city or county purposes, and not exceeding thirty cents for roads and bridges, and not exceeding fifteen cents to pay jurors, on the One Hundred Dollars' valuation, exclusive of taxes levied for the payment of debts incurred prior to the adoption of the amendment September 25th, 1883; and for the erection of public buildings, streets, sewers, waterworks, improvement of cemeteries, and other permanent improvements not to exceed fifty cents on the One Hundred Dollars' valuation, in one year, and except as in this Constitution otherwise provided and the qualified voters, who have been assessed or paid property tax, of any county or sub-division thereof now existing or that may hereafter be defined by the Commissioners' Court, may at an election called in accordance with the law authorizing the levy of a special road tax, by a majority vote levy a special tax of not exceeding sixty cents on the one hundred dollars' valuation on all property, for the further improvement and maintenance of public roads; provided that this provision shall be self-enacting and that no part of such tax shall be available to pay an indebtedness incurred prior to the current year for which said tax is collected, except to pay indebtedness now existing, and provided further that such levy may be voted off or changed at any time by majority vote of those qualified to vote under this provision. And the Legislature may pass local laws for the maintenance of public roads and highways, without the local notice required for special or local laws.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors at an election to be held for the purpose on the fourth day of November, A. D. 1919; at said election the vote shall be by official ballot which shall have printed or written thereon the words: "For the amendment to Article 8, Section 9 of the Constitution of the State of Texas providing for the levy of taxes not to exceed thirty cents for roads, streets and bridges and not to exceed fifty cents for the erection of public buildings, streets, sewers, waterworks and other permanent improvements, and not to exceed sixty cents for maintenance of public roads in one year," and, also, the words "Against the amendment to Article 8, Section 9 of the Constitution of the State of Texas providing for the levy of taxes not to exceed thirty cents for roads, streets, and bridges, and not to exceed fifty cents for the erection of public buildings, streets, sewers, waterworks and other permanent improvements, and not to exceed sixty cents for the maintenance of public roads, in any one year." All voters favoring this proposed constitutional amendment shall erase the words, "against the amendment to Article 8, Section 9 of the Constitution," etc., and those opposing it shall erase the words "for the amendment to Article 8, Section 9, of the Constitution," etc., which erasure shall be made by making a mark with a pencil or pen through said words. All ballots cast as above provided shall be counted as cast for or against this proposed amendment; and if a majority of the votes cast shall be for the amendment, it shall be declared adopted; if a majority of the votes cast shall be against the amendment, said amendment shall be lost.

Sec. 3. The Governor of this state is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the Constitution and laws of this State.

Sec. 4. The sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of funds in the State Treasury not otherwise appropriated to defray the expense of such publication and election.

(Attest—A True Copy.)

GEORGE F. HOWARD,

PROVIDING FOR AN ISSUE OF BONDS BY THE STATE FOR THE PURPOSE OF CONSTRUCTION OF HIGHWAYS.

House Joint Resolution No. 13

A Joint Resolution proposing to amend Section 49, Article 3 of the Constitution of the State of Texas relating to the power to create debt by or on behalf of the State so as hereafter to authorize the Legislature to enact such laws as may be necessary directing the Governor of the State to issue bonds in a sum not to exceed \$75,000,000; providing for the levy of a tax to create the necessary interest and sinking fund therefor; and providing that the proceeds from the sale of such bonds shall be used in the construction of durable, hard surfaced roads upon the public highways of the state.

Be it resolved by the Legislature of the State of Texas:

Section 1. Amend said Section so as to read after its adoption as follows: Article 3. Section 49. No debt shall be created by or on behalf of the State, except to supply casual deficiencies or revenue, repel invasion, suppress insurrection, defend the State in war, or pay existing debt; and the debt created to supply deficiencies in the revenue shall never exceed in the aggregate at any time, two hundred thousand dollars (\$200,000); provided however, that the Legislature may enact such legislation as may be necessary to authorize and direct the Governor to issue bonds of the State in a sum not to exceed Seventy-Five million (\$75,000,000) dollars, the proceeds to be used in the construction of durable, hard surfaced roads upon the public highways of the State provided that such proceeds shall be apportioned to the different counties of the State according to the needs of the State Highways in such counties; and, provided further that under Legislative authority a tax not to exceed twenty cents on the one hundred dollars valuation of taxable property in the State may be levied, assessed and collected to provide the necessary interest and sinking fund therefor, and said taxes shall be in addition to the taxes authorized by Article 8, Section 9 of the Constitution.

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors for members of the Legislature at an election to be held throughout the State of Texas on the first Tuesday in November, the same being the fourth day of November, A. D. 1919, and the Governor of this state is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the Constitution and laws of this State. Those favoring the amendment shall have written or printed on their ballots the words "For amendment to Section 49, Article 3 of the Constitution proposing to amend Section 49, of Article 3, relating to the power to create debts by or on behalf of the State, so as hereafter to authorize the Legislature to enact a law directing the issuance of bonds by the Governor of the State in a sum not to exceed Seventy-Five Million (\$75,000,000) dollars, the proceeds of said bonds to be used in the construction of durable, hard surfaced roads upon public highways of the State; and providing for the levy of a tax not to exceed 20 cents on the Hundred Dol-

lars valuation, on taxable property in the State." Those opposing the amendment shall have written or printed on their ballots the words "Against the amendment to Section 49, Article 3 of the Constitution proposing to amend Section 49 of Article 3 relating to the power to create debts by or on behalf of the State, so as hereafter to authorize the Legislature to enact a law directing the issuance of bonds by the Governor of the State in a sum not to exceed Seventy-Five Million (\$75,000,000) dollars, the proceeds of said bonds to be used in the construction of durable hard-surfaced roads upon public highways of the State; and providing for the levy of a tax not to exceed 20 cents on the One Hundred Dollars valuation, on taxable property in the State."

Sec. 3. The sum of Five Thousand dollars (\$5,000) or so much thereof as may be necessary, is hereby appropriated out of any funds in the State treasury not otherwise appropriated to defray the expenses of such proclamation, publication and election.

Sec. 4. The fact that the Legislature is restricted by the provisions of Section 49, Article 3 of the State Constitution from enacting needed Highway Legislation creates an emergency and an imperative public necessity exists, demanding the suspension of the rule requiring bills to be read upon three several days, and such rule is hereby suspended.

(Attest—A True Copy.)

GEORGE F. HOWARD.

RELATING TO CONFEDERATE PENSIONS AND INCREASING TAX RATES FOR PAYMENT OF SAME.

House Joint Resolution No. 35.

Proposing an amendment to Section 51 of Article 3 of the Constitution of the State of Texas to provide that the Legislature may grant pensions to Confederate Soldiers, sailors and their widows, who have been citizens of Texas prior to Jan. 1, 1910, providing that all soldiers, sailors and their widows eligible under the provisions hereof shall be entitled to be placed upon the rolls and participate in the pension fund created hereunder; levying a tax of seven (\$.07) cents on the \$100.00 valuation of property in this State for the payment of such pension, providing that the Legislature may reduce the rate of pension for such purpose, fixing a time for the election to be held on such amendment, and making appropriation to pay the expenses thereof:

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 51 of Article 3 of the Constitution of the State of Texas shall be amended so as to hereafter read as follows:

Sec. 51. The Legislature shall have no power to make any grant or authorize the making of any grant of public money to any individual, association of individuals, municipalities or other corporations whatsoever, provided however, the Legislature may grant aid to indigent or disabled Confederate soldiers and sailors, who came to Texas prior to January 1, 1910, and to their widows in indigent circumstances and who have been bona fide residents of this State since January 1, 1910, and who were married to such soldiers or sailors prior to January 1, 1910, to indigent and disabled soldiers who under special laws of the State of Texas during the war between the States served in organizations for the protection of the frontier against Indian raiders or Mexican marauders and to indigent and disabled soldiers of the militia of the State of Texas who were in active service during the war between the States and to the widows of such soldiers who are in indigent circumstances and who were married to such soldiers prior to January 1, 1910, provided that the word "widow" in the preceding lines of this section shall not apply to women born since the year 1866, and all soldiers and sailors and widows of soldiers and sailors eligible under the above conditions shall be entitled to be placed upon the pension rolls and participate in the distribution of the pension fund of this State under any existing law or laws hereafter passed by the Legislature, and also to grant aid for the establishment and maintenance of a home for said soldiers and sailors, their wives and widows and women who aided in the confederacy under such regulations and limitations as may be provided by law, provided the Legislature may provide for husband and wife to remain together in the home. There is hereby levied in addition to all other taxes heretofore permitted by the Constitution of Texas a State ad valorem tax on property of seven (\$.07) cents on the \$100 valuation for the purpose of creating a special fund for the payment of pensions for services in the Confederate Army and Navy, frontier organizations and the militia of the State of Texas, and for the widows of such soldiers serving in said armies, navies, organizations or militia; provided that the Legislature may reduce the tax rate herein levied. And further, that the provisions of this section shall not be construed so as to prevent the grant of aid in cases of public calamity.

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified voters of this State at an election to be held on Tuesday after the first Monday in November, A. D. 1919, at which all voters shall have printed or written on their ballots: "For amendment of Section 51 of Article 3 of the Constitution authorizing the Legislature to grant aid to Confederate soldiers, sailors and their widows who have been residents of this State since January 1, 1910," and "Against amendment to Section 51 of Article 3 of the Constitution, authorizing the Legislature to grant aid to Confederate soldiers and their widows."

Sec. 3. The Governor is hereby directed to issue the proclamation for said election and have the same published as required by the constitution and laws of this State, and the sum of Five Thousand (\$5,000.00) Dollars or so much thereof as may be necessary is hereby appropriated out of the general funds of this State not otherwise appropriated for expenses of publications and elections thereunder.

(Attest—A True Copy.)

GEORGE F. HOWARD,

Secretary of State.

PERMITTING GALVESTON COUNTY AND CITY TO ISSUE BONDS FOR GRADE RAISING PURPOSES

Senate Joint Resolution No. 23.

Joint Resolution proposing and submitting to the people of the State of Texas an amendment to Article sixteen of the Constitution of the State of Texas by adding thereto a new section and authorizing the City of Galveston and County of Galveston to issue bonds for protective works, irrespective of Constitutional limitation, in the aggregate of five million dollars for both city and county, as may be by the city or county deemed necessary for the raising of the grade, building seawalls and breakwaters and doing any and all kinds of protective works in said city and county, and to levy and collect taxes to retire said bonds, principal and interest, provide for a sinking fund and creating an emergency.

Be it resolved by the Legislature of the State of Texas:

Section 1. The City of Galveston and the County of Galveston, and each of them are hereby authorized to issue bonds in such amounts not to exceed in the aggregate five million dollars, for both City and County, as may be by the city or county deemed necessary for the raising of the grade, building seawalls and breakwaters and doing any and all other kinds of protective works in said city and county, without regard to and irrespective of any provisions of the Constitution of the State of Texas limiting tax levies and governing bond issues, and for that purpose to levy and collect taxes to retire and pay for same, principal and interest, but no debt shall ever be incurred for such purpose, unless provision is made at the time of creating same, for levying and collecting a sufficient tax to pay the interest thereon and to provide at least two per cent, as a sinking fund, this provision being cumulative, and authorizing the issuance of such bonds in addition to those heretofore issued for such purposes and still outstanding, the amount of such additional bonds to be issued by the county hereunder, not to exceed one million dollars, and the amount of such additional bonds to be issued by the city hereunder not to exceed four million dollars, but nothing herein shall apply to bonds heretofore or hereafter issued for purposes other than those herein defined, provided however, that that portion of Galveston County not lying within the corporate limits of the City of Galveston shall not be taxed for the purpose of issuing bonds for any of the purposes herein provided within the corporate limits of the City of Galveston, unless such bond issue and tax levy be authorized by a majority of all the tax paying voters residing in Galveston County outside of the corporate limits of the City of Galveston; provided that no such bonds issued by the City of Galveston shall be valid unless such bond issue and tax levy be authorized by a majority of all qualified tax paying voters of the City of Galveston, voting at an election to be called for that purpose by the Mayor and Board of Commissioners of said City of Galveston.

Sec. 2. The Governor is hereby directed to issue the necessary proclamation for submitting an amendment to the Constitution to the qualified electors of the State of Texas on the first Tuesday in November, 1919, being the fourth day of November, 1919. Those favoring the amendment shall have written or printed on their ballots the words, "For the amendment to Article sixteen of the constitution of the State of Texas, authorizing the issuance of bonds by the City and County of Galveston." And those opposed to the said amendment shall have written or printed on their ballots the words, "Against the amendment to Article sixteen of the constitution of the State of Texas, authorizing the issuance of bonds by the City and County of Galveston."

Sec. 3. The sum of five thousand (\$5,000.00) dollars, or so much thereof as is necessary, out of the funds in the State Treasury not otherwise appropriated, is hereby appropriated to pay expenses for the carrying out of the provisions of this resolution.

(Attest—A True Copy.)

**LAST "EAGLE LAUNCHED
AT FORD SHIPYARD.**

Five Hundred Bodies Daily to Be Made in Plant.

The Ford "Eagle" Boat Number Sixty—the last one to be built by the Ford Motor Company under the stipulations of its war-time contract with the Navy Department—was launched at the River Rouge (Detroit) yard August 16th at 3:30 P. M.

on the long assembling building which is a third of a mile long and housed twenty-one of the submarine chasers at one time, is already being transferred into a body-building plant with a proposed output of 500 bodies daily.

Ford officials, workers, sailors and many invited guests witnessed the launching. Number Sixty was dressed with flags and bunting and as it found its level in the Rouge and floated free from the railroad tracks which had carried it onto the elevator-like launching table, the factory whistle took part in the ceremony by blowing sixty blasts—one for each boat launched at the Ford Yard.

Twenty-five "Eagles" have already been commissioned by the navy, and it is expected that the remaining boats will be entirely completed by November 1st. One thing which greatly prolonged the work was the change made in the outfitting of the boats shortly after the armistice was signed. As rapidly as the "Eagles" are commissioned they are joining different squadrons of the U. S. fleet. Six of the Ford boats are going to the Philippines to replace six old destroyers and gun boats; another squadron will join the International Patrol off coast of China; "Eagles" 1, 2, and 3 are now

doing patrol duty adjacent to Archangel, Russia, and it is quite probable that a small fleet will be sent to Italy.

The "Eagles" were designed particularly to carry the submarine detecting devices or "listeners," depth bomb protectors and three-inch guns with which to combat the U-boat once it had been located by the "listener." They are practically noiseless in operation, light, speedy and so constructed that a quick get-away is possible—it being necessary to often stop to "listen" while chasing down a detected sub. Had the submarine destroyers been called into actual service—which only the signing of the armistice prevented—they would have operated in flotillas of three.

Commander Nicholas, stationed at the Rouge Yard, said he knew of no statement or report issued by the Navy Department relative to the merits of the "Eagles," but that they have performed remarkably well on their trial trips and all tests given them just before leaving the Ford Yard. And that had they been called into actual service, they would have proven a very formidable enemy to the submarines.

THE AMERICAN GOVERNMENT STILL NEEDS YOU

One would naturally think that since the war is over there would be no demand by the Government for Civil Service employees but not so. There is a great demand. There is so much clerical work to be done under the reconstruction program, until the Government is still holding weekly examinations in four hundred cities of the United States. The pay is good, the hours short and the work in Washington is an education within itself.

Young men and women who possess the right training will receive a ready welcome in Government offices, banks, insurance offices, business houses and railroad offices. Whether you must earn your living or not it is worth while to be able to do so. Education has a lifting power that can hardly be measured. The right kind of education gives the ability

The Perfectionists.

Sherman Courier: President Wilson aptly calls on the opponents of the peace treaty and league of nations to devise a better scheme. He will be the first to admit it and endeavor to have it adopted—and if it is better it will be adopted. The fellows who are shouting so much have never done much, and they would amount to little and attract little notice but for their opposition to a beneficent measure and progressive policies.

Well, Borah and Johnson are telling the world that they could devise a better treaty, though as a matter of fact they have never, in their combined or separate careers devised anything of any particular merit, notwithstanding each has been in politics longer than Woodrow Wilson has. Mr. Wilson does not contend that the League of Nations covenant is a perfect document. He knows, as do all who join

him in support of it that time has worked out needed changes, just as time has worked out needed changes in the Constitution of the United States. There were abler men than Johnson or Borah in opposition to the Constitution when it was devised and adopted, but, happily, they did not prevail; and that instrument is the most revered political charter in the universe today, not that it was perfect at the beginning, but that its permanent excellences so outweighed its temporary defects.

OIL FOR SMALL PARTS

The brake mechanism seldom gets the lubrication it deserves. Oil is required on the pins supporting the brake shoes and upon the bearing points of the cams or toggle mechanism which actuates the brakes. These parts usually depend for lubrication on the hand oil can. Beginning at the operating lever, every joint in the brake rod needs occasional oiling and the bearings of the compensating shaft.

British manufacturers have found that paper can be profitably made from grass growing prolifically in Burma.

In the first six months this year mines in western Texas yielded silver at the rate of 590,000 ounces a year.

In a newly mustered Irish regiment a conscientious lieutenant was haranguing his men before starting for the front.

"It all depends on yez byes," he exhorted. "Will yez fight or will yez run?"

"We will!"

"Will what?"

"Will not!" responded the men with one voice.

"I knew yez would," said the satisfied officer proudly.—Aysouwere.

Druggist: "Take this. It will pull you around."
Dizzy Officer: "Pull me around? I'm going around already. Can't you give me something to anchor me down?"—Passing Show.

HINTS TO THE CAR OWNER

Put a wrench on the spring clips occasionally. If the clips are not tight the front axle may shift its position slightly and you will note the result in a bad worn tire.

No harm will result if the spring leaves are well lubricated. To the contrary, you will enjoy more comfort in driving over rough roads.

Watch the magneto and generator couplings. The bolts work loose and by a timely inspection you may avoid the delay and expense of a tow-in.

Some time, while exploring the lower regions of the chassis see that the

brake rods have pull springs to insure full release when intended. A hot brake will be avoided.

Contrary to very frequent advice, the leather of the clutch should be kept soft by liberal application of neatsfoot oil so that it will engage slowly instead of with a jerk.

Don't neglect cuts. Water and dirt gets in and rots the fabric, often causing blow-outs. Inspect your tires weekly for cuts and have them sealed promptly.

Don't forget to use extra precautions when you see a child crossing a highway.

Don't forget that your lights must be lit within half an hour after sunset.

Don't race your engine. You can not abuse the engine worse than by allowing it to race at high speed without a load.

Don't neglect your lamp connections as it is very necessary when washing a car to disconnect one of the wires.

Don't neglect necessary adjustments and repairs until it is too late and you are laid up by the roadside.

NOTICE IN PROBATE

THE STATE OF TEXAS)

To the Sheriff or any Constable of Milam county—Greeting:

You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Milam, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

Notice.
 THE STATE OF TEXAS)

To all persons interested in the estate of D. Kirkland, deceased, James B. Brewer has filed in the County Court of Milam County, an application to probate the Will and Last Testaments of D. Kirkland, Deceased, which will be heard on the First Monday in October, A. D. 1919, same being the 6th day of October, A. D. 1919, the Court House thereof, in the City of Cameron, at which time all persons interested in said estate may appear and contest said application if they see proper.

HERE FAIL NOT, under penalty of the law, and of this writ make due return.

Given under my hand and seal of office, in the City of Cameron, the 15th day of September, A. D. 1919.

Attest: WILL T. YATES,
 Clerk County Court, Milam Co., Texas
 By DICK CLARK, Deputy

20-31-22
 A device that records the vibrations of the voice on a photographic film has been invented by a Frenchman to aid students of singing.

LEATHER WASHERS.

A leather washer placed underneath the metal washer not only helps to eliminate unnecessary noise, but gives a sort of elastic compression that prevents stripped threads when the bolt is a little too small for its job.

666 has proven it will cure Malaria, Chills and Fever, Bilious Fever, Colds and LaGrippe. It kills the parasite that causes the fever. It is a splendid laxative and general Tonic.—Adv. 18

MILAM COUNTY
 BATTERY
 COMPANY
 Cameron, Texas

FORD FENDERS TIGHTENED

Rattles in the fenders of the Ford car may be obviated by taking them off, threading the end of the fender iron and putting on a nut after the fender is back in place. This nut draws the fender up tight and prevents it working out of the fender iron.

BATTERY CONNECTOR

A very convenient battery connector may be made from a piece of heavy steel coil spring. The spring wire at each end is fashioned into a hook and these are slipped into the battery posts, the tension of the spring insuring perfect contact.

CHEVROLET

By scientifically safeguarding the quality of every piece of metal that is used in the construction of the Chevrolet valve-in-head motor, uniform efficiency and low operating costs are assured.

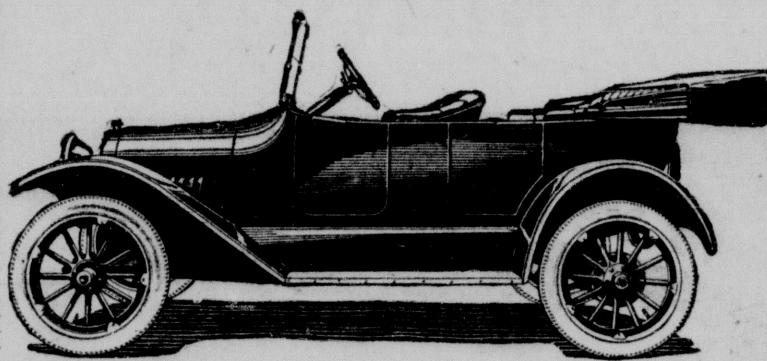

And as the capabilities of the motor are proven before it leaves the factory, the purchaser of a Chevrolet has the certainty of future satisfaction.

Such assurance means much. It means an investment in economical transportation that is safe, certain and adequate for all uses and emergencies. To buy a Chevrolet is to buy a known quantity—a proven quality.

STATE CANNOT USE AUTOMOBILE TAX

Under Law Cannot Construct Roads
 But It Can Be used For
 Maintenance.

The Automobile tax cannot be used
 by the county commissioners for the
 construction of highways. Under the
 law it must be used for maintenance
 only.

This announcement comes from the
 State highway department and is a
 warning to the counties that this
 fund is in trust for a specific purpose.
 It has come to the knowledge of the
 department that some counties have
 planned to spend this money for con-
 struction, but such plans will not be
 approved.

The automobile tax is collected by
 the county tax collector. The county

retains one-half the tax and one-half
 is remitted to the department. There
 is an expense of two per cent for col-
 lection. Of this the county pays one
 per cent, which is the only expense
 charged against it. All expenses of
 registration are paid out of the half
 that goes to the State.

The 49 per cent of all automobile
 license fees that become the share of
 the county, goes into a special fund
 in the county treasury for maintain-
 ence of roads. The wisdom of this
 provision of the law is at once appar-
 ent, when it is known that after con-
 struction there must be maintenance.
 No road will last forever. Continual
 traffic will wear the most permanent
 road surface, and unless there is pro-
 vision for upkeep, the bond issue
 property will become crumbling ma-
 terial beneath the wheel traffic of the
 county.

MAKE PRELIMINARY TESTS ON SUPPRESSING MALARIA

Preliminary surveys to determine
 the cost of exterminating mosquitoes
 and suppressing malaria in 12 Texas
 towns, are to be made, State Officer
 C. W. Goddard announced Saturday.
 The work will be done by a United
 States sanitary engineer under a co-
 operative plan between the State
 board of health and the international
 health board, and it will be without
 cost to the towns in which the sur-
 vey is made.

Towns elected are Athens, Bryan,
 Cameron, Conroe, Crockett, Hender-
 son, Longview, Lufkin, Nacogdoches,
 Navasota, Palestine and Trinity.

A prize of \$25,000 has been offered
 for the first aviator who makes a non-
 stop flight between Paris and New
 York in either direction.

STATE HEALTH OFFICER SOUNDS NOTE OF WARNING

On the twenty-first day of last
 September, the first case of influenza
 in Texas was reported to the state
 Health Department. This first case
 was followed in rapid succession by
 others from different parts of the
 State.

No equinoctial storm ever record-
 ed, reached such a fury or exacted a
 toll in loss of life comparable to this
 epidemic which made it appearance

in our State last fall.

It is a well known fact among
 medical men, that one of the special
 characteristics of influenza is that
 it recurs in cycles, and with each re-
 turn records a heavy mortality. In
 each cyclic outbreak in the past the
 disease has reappeared in the fall
 and winter for from one to three
 years. The great epidemic of 1889 was
 followed by outbreaks in the fall and
 winter for three years following, and
 with an increasing mortality rate
 each year. The same history is re-
 corded of epidemics of influenza in
 Europe, and in fact as far back as we
 have been able to gather statistics,
 each initial outbreak of influenza has
 been followed by recurrences in the
 next two or three years following.
 Since it is well known that history
 expect a recurrence of this dreadful
 disease this fall and winter, with a
 high mortality, especially from pneu-
 monia.

I can not predict with certainty
 that we will have another epidemic
 of influenza this fall and winter, but
 I can with certainty say that if we
 do not, the history of epidemics of
 influenza in the past will not hold
 good for the future.

In the light of past knowledge and
 experience, it would be nothing short
 of criminal totake no steps to pro-
 tect the public against a possible re-
 currence of last season's devastation.
 Based on incomplete statistics from
 rural and urban reports, it is estima-
 ted that there were approximately
 450,000 deaths from influenza in the
 United States and approximately 25,
 000 in Texas, from the epidemic. The
 epidemic last year which swept over
 the country with hurricane like rap-
 idity, found the country depleted of
 its doctors and nurses, many com-
 munities having neither. At this time
 most of them have been released from
 the army and have come back to us
 rich with experience and trained in
 public health work.

The excessively heavy rains this
 year have caused an unusually heavy
 growth of vegetation which is appar-
 ent not only in the small villages and
 towns, but in places in our cities;
 while pools of stagnant water, and lit-
 ters of garbage are to be seen in far
 too many places.

I am now calling upon you to begin
 an active campaign in anticipation
 of a possible recurrence of influenza,
 and as a matter of civic pride and
 health protection in general.

In every village, town and city.
 Health Boards should be organized
 or rejuvenated, where they already
 exist, and "CLEAN-UP CAM-

ADVERTISERS OF FACTS

CAMERON TEXAS

The Round Bale Gin

We are now putting the finishing touches to our new and enlarged
 Round Bale Gin Plant in Cameron and in a few days will have the largest
 and most complete Round Bale and Square Bale combination gin anywhere
 in this part of Texas. We have installed a complete new Lummus Air Blast
 System outfit at this plant, which doubles the capacity of the Square and
 Round Bales at this gin. Our manager, Mr. S. H. Hopkins, who was former-
 ly a resident of Cameron and handled this plant in 1910 and 1911, will be
 remembered by his old friends and is prepared to give you first class ser-
 vice and satisfaction.

Our other gin plants are in the best possible shape and are running
 daily and we are prepared to handle your cotton promptly.

The Oil Mill has started on the new season's run and will of course have
 a supply of hulls and meal at all times.

As usual we buy cotton seed every day in the year except Sunday and will
 pay the highest cash price for seed.

R. L. Batte

Cameron,

Texas

"PAIGNS" put on, and every possi-
 ble means taken to be prepared for
 any emergency.

Local health officers should at once
 call a meeting of their health boards
 if they have one, or a meeting for
 the purpose of organizing one if they
 do not already have one, and then en-
 list the aid of the Commercial Clubs,
 Civic Clubs, Boards of Trade, Social
 Welfare Workers, Parent-Teachers
 Associations and all other organiza-
 tions interested in civic advancement
 and the betterment of health condi-
 tions in their communities.

I am calling upon the newspapers
 of the State to join me in this note
 of warning and trust that every pa-
 per in the State will not only copy
 this article, but add such comment
 as they feel will be helpful in promot-
 ing this defensive work in the interest
 of humanity.

If these prevailing measures are
 not taken, then from past experiences
 with influenza, you may reasonably
 expect your community to suffer the
 penalty of YOUR NEGLIGENCE.

C. W. GODDARD,
 State Health Officer.

FINE CAMERON YOUNG MAN
TAKES THORNDALE BRIDE

At eight o'clock, last Saturday evening, Mr. Ephriam Chandler of Cameron led to the altar, at the home of the bride's parents, Mr. and Mrs. A. L. Hinds, their charming daughter, Miss Katie Sue, when Rev. P. R. White of the Methodist church performed the beautiful ceremony that united them in holy wedlock. Only a few relatives and friends of the family witnessed the nuptials including the family of Dr. L. L. Lee, L. I. Wilson and wife and Misses Daisy Wilson of Thorndale and Mabel Chandler and Mabel Adkins, sister and cousin of the groom, from Cameron and Captain A. J. Ravaneau.

The bride is a young lady of many charming accomplishments. She has lived here the greater portion of her life, and her lovely disposition and amiability of character had drawn around her a host of friends who learned with great pleasure of this crowning happiness in her life.

The groom formerly resided in Thorndale, where for some time he was night superintendent of the Thorndale Oil Mill and he now holds a responsible position with the R. L. Batte oil mill interests at Cameron. While here he won the respect and esteem of all with whom he came in contact.

Immediately following the ceremony Mr. and Mrs. Chandler left for a short honeymoon trip to Corpus Christi and Rockport, and are now at home in Cameron.—Thorndale Champion.

Ephriam Chandler is a son of Mr. and Mrs. T. K. Chandler of this city and is a young man with many fine qualities, his grit and determination has caused him to advance in the employ of R. L. Batte until he holds a very responsible position.

These young people will make their home in Cameron as above stated and The Herald joins in extending congratulations.

SUNDAY SCHOOL CENSUS
TAKEN BY BAPTISTS

A committee from the Baptist church and Sunday school spent several days last week taking a religious census of Cameron, with a view of seeking out those in our midst who are not connected with the local churches and sabbath schools and getting them in line for a general revival of religious activities in our city.

This is a commendable move on the part of our Baptist friends and we understand that when the report from this canvassing committee has been tabulated, a copy will be furnished other denominations of the town so all may share the benefits to be derived from this canvass and be enabled to work more intelligently in an effort to have every home in Cameron in touch with the church.

CELEBRATES 72ND ANNIVERSARY SUNDAY

Last Sunday, September 7th, the home of Mr. and Mrs. M. M. Johnson of this city was the scene of a happy family reunion, the occasion being in honor of the 72nd birthday of Mrs. Johnson's mother, Mrs. Mary Carpenter. The celebration was planned by Mrs. Johnson as a pleasant surprise for the mother and all members of the family, which is a large one, had been invited to participate.

Two sisters, a brother-in-law, a niece, seven grandchildren and five great grandchildren responded and other members, scattered over the state, sent greetings appropriate to the occasion.

By agreement, all gifts for the honoree were boxes of stationery and other articles necessary for the writing desk. One sister of Belton, who could not be present, sent a handsome box of stationery with an original poem, composed in honor of the occasion.

A bountiful dinner was served to the assembled guests and four generations of Mrs. Carpenter's family were seated around the board with her, thus verifying the promise made by the Psalmist to the godly: "With long life will I satisfy thee."

Members of the family present on this occasion were: Mrs. Mary Carpenter, Mr. and Mrs. M. M. Johnson, Lee Roy Johnson, Fred Johnson, Rube Johnson, Jr., Louise Johnson, Mr. and Mrs. Sam McDermott and children, Wissie, Sam, Jr., and Make of Cameron; Mr. and Mrs. J. E. Mitchell, Mrs. Lu Cook, Mrs. Will Bogart, Belton; Mrs. C. E. Lamb and children, Luther and Rebecca Lamb of Dallas.

The Wise Fool.
Laugh and the world laughs with you, observed the Sage.
"Unless you are laughing at the joke you just told, commented the Fool.

Membership in a War Savings Society will help you to save. Save and succeed.

COX-WALSTON NUPTIALS

Miss Ethel Walston and Mr. Raby W. Cox were quietly married last Monday afternoon at 1:30 o'clock at the Baptist Parsonage in this city, Rev. B. B. Blaylock officiating.

The wedding came as a surprise to the friends of the contracting parties and was witnessed only by members of the parsonage household.

Miss Walston is the eldest daughter of Mr. and Mrs. Joe Walston; has been reared and educated in Cameron and has a host of friends who are her well-wishers. Since her graduation from the Cameron High school she has taught successfully in different parts of Milam county and her friends throughout the county will be pleased to learn of this happy event.

Mr. Cox is a Milam county man, a son of Mrs. J. O. Hughes of Buckholts, and a mechanical engineer by profession.

Immediately after the ceremony the happy couple left on the north bound Santa Fe for Kansas City, where they will be located for the present.

The Herald joins with other friends in wishing them a long and happy life.

VOLUME 42

CAMERON, MILAM COUNTY, TEXAS, THURSDAY, JULY 17, 1919

NUMBER 11

COMMERCIAL CLUB DIRECTORS MEET

Projects Under Way By Organization
 Progressing—Doing Effective
 Road Work.

At the regular weekly meeting of the directors of the Cameron Commercial Club held Friday night, July 11, a roll call showed the following present:

Officers—Robert McLane, President; C. W. Lawrence, Vice President; Thomas N. Herring, Secretary.

Directors—J. W. Coleman, W. G. Gillis, J. T. Parma, R. H. McIntosh, Giles Avriett, H. M. Hefley, T. S. Henderson, John E. Mangum.

Committee Chairmen—T. F. Hardy, J. Garrison, Monta Thomas, W. M. Cobb, R. A. Triggs.

There were no standing committee reports heard.

The secretary reported that nothing further had been heard with regard to the improved mail service which included a night clerk and continuous service at the various windows during the day. The president instructed that the matter be taken up again and agitated.

W. G. Gillis, chairman of a special committee to attend a good roads meeting at Caldwell on Tuesday, July 8th, reported that quite a number from Cameron, including: W. G. Gillis, chairman, U. S. Hearrell, W. W. Chambers, Robt. McLane, J. T. Parma, C. W. Lawrence, Walter Sharpe, H. M. Hefley, attended the meeting. He declared that an enthusiastic gathering was had, that representatives from Burleson, Austin, and Washington counties were very enthusiastic over the building of the Colorado-Florida Highway and that each county promised to send a delegate to the meeting at Brownwood on July 14th.

U. S. Hearrell also made a good report on the Caldwell meeting and declared that everybody who did not know they needed good roads around Milano knew it after they made the trip.

J. D. Dobbins reported that work on the swimming pool was progressing nicely and that hardly sufficient stock had been sold to finance the project. The total amount being raised was \$4,800.00 but it was thought that \$6,000.00 would be needed.

The secretary gave a report of his trip to the annual meeting of the Texas Commercial Executives' Association held at Waco, June 26 to 28.

A telegram to the Chambers-Hefley Motor Company with reference to a bill pending in the Texas Legislature affecting the use of motor trucks in Texas was read and discussed. A motion was carried to appoint a committee of three to take the matter up by wire with Representative Campbell Beard and Senator Edgar E. Witt. The committee was Hubert Hefley, T. S. Henderson and U. S. Hearrell.

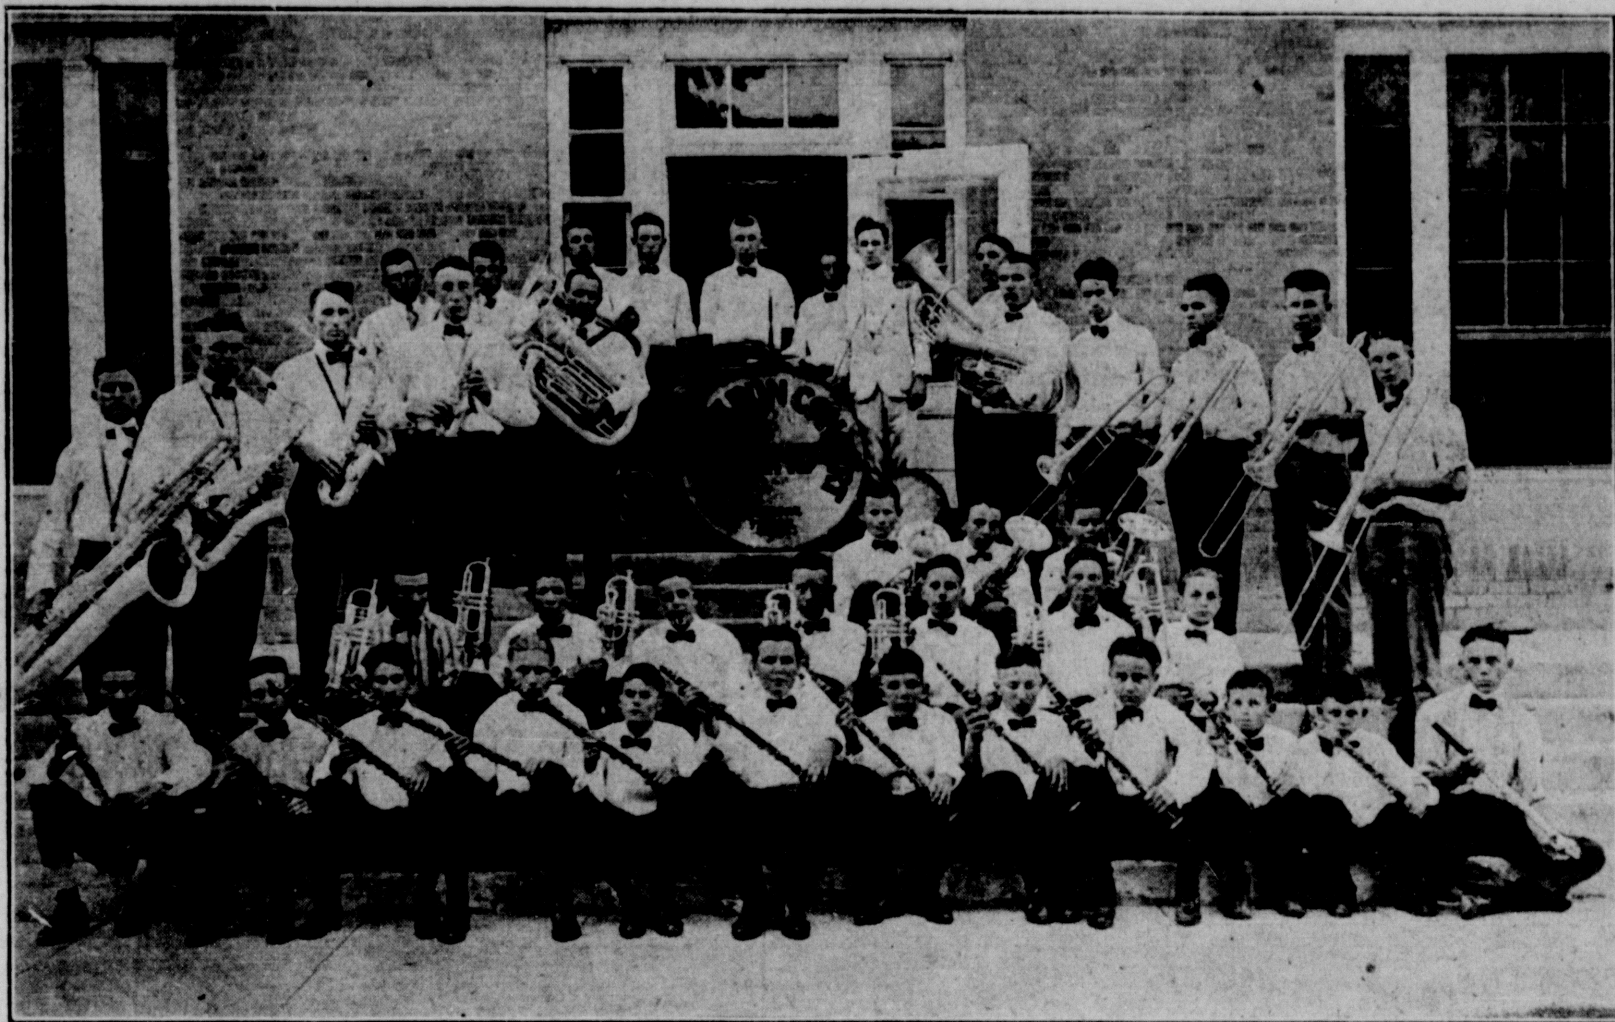

Giles Avriett reported that the Florida-Colorado Highway meeting would be held at Brownwood on July 14th and as Judge W. G. Gillis was a director in this association representing Milam county he made a motion that Mr. Gillis be instructed by the club to attend the meeting and his expenses be borne by the Club. The motion carried.

Under the head of good of the order the secretary read a letter from E. A. DuBose of the Waxahachie Cotton Mill in answer to an inquiry about establishing a cotton mill in Cameron. The letter gave encouragement for the project with existing circumstances.

R. H. McIntosh reported that Mr. Neil Baldrige had agreed to drag the Cannon Snap road to Gause if the commissioners court would supply the drag. The good roads committee was instructed to take the matter up.

J. T. Parma presented a letter from Father K. Kacer, pastor of the Catholic church at Marak with reference to the work done for the Bohemians in the drive recently made.

Mr. and Mrs. R. P. Fisher left Monday night for Arkansas where they have extensive farming interests. Enroute they will visit Mr. Fisher's parents in Nevada, Mo.

CAMERON CONCERT BAND

The personnel is as follows, reading from left to right: A. Robinett, Lawless Green, Roy Griffith, L. F. Laake, Price Cross, Ralph Chambers, R. A. Tag, Eugene Matula, Robert Young, August Knipp, Walter Hen-

richsen, J. N. Crawford, director, Dwight Price, Will Parma, Dick Clark, Robert Joslin, Edwin Dusek, Fred Reno. Second Row: Leland Denson, Robert Gillon, Bassett Watson, Walter Walker, Quinn Walker,

Robert Mayfield, Lee Tag. Bottom Row: Alfred Walston, Lee Howell, Billie Clark, Charlie Frank Green, Newton, Henry Tracy, Eber Flinn, Alvin Dusek, Charles Pardo, Carl Stolz, Paul Watson, George

Hooks. The following members of the band were unavoidably absent: Frank Plaaster, Ray Casey, Billie Newton, Henry Tracy, Eber Flinn, Coran Yates, Phillip Reid, Will Goodwin.

THE STORY HOUR RESUMED AT PARK

Large Number Of Children Present
 —Six O'Clock Friday Afternoon
 Is The Hour.

Story Hour at the park was resumed last Friday. In spite of some confusion as to the day, twenty children were present to hear the stories.

"The Fairy Cake" was given first to entertain the younger members of the crowd and eyes grew big with wonder as the narrator described how the fairy obtained the necessary ingredients for the wonderful cake from nature's storehouse, mixed it in a large acorn cup, called on old Sol to provide the heat for baking and then presented it to a little girl whose mother had forgotten to provide a cake for her birthday.

"Cinderella" was equally as fascinating and it is well for grown-ups to remember that these old favorites are brand new to the wee tots.

Two other stories to suit older boys and girls and which pointed a moral were given last and at their conclusion one of the boys was heard to exclaim, "keen" and this was proof conclusive that his approval had been won. No more refining form of amusement could be offered children than story telling in the hands of competent leaders and parents are missing an opportunity to implant a love for good reading in the minds and hearts of their little ones when they fail to have them present at this hour. A love for stories is natural with all children. They will sit spellbound listening to the recital of a good one and at its conclusion, like Oliver Twist, will call for "more."

They enjoy hearing stories more than they do reading them because the narrator adds to their force and attractiveness by expression and gesture and details can be made perfectly clear to the child mind. Classics may be and often are reproduced by our story tellers, so when the child meets these, as he surely will, as he advances in his education, he greets them as old friends.

Every progressive town in Texas provides a story hour free for children and some of the best talent in the state is employed for their benefit, because the promoters of this movement realize that when you help

DRASTIC ORDER TO CLEAN UP THE CITY

City Council Passes Order To Have
 Weeds and Grass Cut. Official
 Notice Given.

At the regular meeting of the city council of the city of Cameron held Tuesday afternoon, a roll call showed the following members of the official board present: John B. McLane, Mayor, J. E. Holtzclaw, City Marshal, Dan Tyson, City Assessor and Collector. Aldermen: O. M. Smith, J. C. Joseph, H. M. Hefley, J. D. Dobbins. The matter of graveling the street in front of the T. A. Pope residence was brought up and discussed and referred to the street committee for action.

The all important matter of cleaning up the city of Cameron of weeds, grass and tin cans was brought up and discussed and the following action taken: It is ordered that the city council of the city of Cameron instruct the city marshal to serve written notice on property owners whose premises needs weeds cut and closets cleaned, and, unless premises are cleaned within 10 days from time of notice the city marshal shall file complaint against said party.

Upon motion from H. M. Hefley and seconded by J. C. Joseph the Cameron Herald was awarded the contract for publishing the delinquent tax list for 1919. The Herald being the lowest bidder.

An order was embodied in the minutes as follows: "In consideration of said low bid the former action of the city council is rescinded and the Cam-

eron Herald declared the official organ of the city of Cameron."

Upon motion the salary of Ed Adams was raised \$5.00 per month in consideration of extra duties as fire marshal.

The council took up the matter of adjusting the city tax rendition but found no action could be taken until an equalization board had been selected and agreed to serve. The Mayor appointed H. M. Hefley and J. D. Dobbins a committee to select and recommend a board at an adjourned meeting Thursday morning.

Our park is a beautiful place and children should be encouraged to go there at proper hours and taught to respect the equipment put there for their amusement and benefit.

SHOWS GRATITUDE TO COMMERCIAL CLUB

Father K. Kacer of Marak Catholic
 Church Sends Message To
 Organization.

The following message from Father K. Kacer of the Marak Catholic church showing his appreciation of the work by the club in the recent drive for funds for the Bohemian relief was read before the directors meeting last Friday night.

Buckholts, Texas, July 7th, 1919.
 Mr. J. T. Parma,
 Cameron, Texas.

Dear Friend:

Learning through the local press of your commercial organization's big drive, I will ask you kindly to read before the honorable body of the Cameron Commercial Club my appreciation and thanks for the splendid service they rendered in raising funds for the orphans and the poor sufferers of the war ridden country of the Czech-Slovak republic last Saturday.

After reading of the club's success it touched me greatly, for not only when the land of Bohemia was under the heel of the enemy and oppressed for centuries, the light of humanity flashed through the United States and the American people and our great President, Woodrow Wilson, stood up against such brutality and gained for them the unquestioned freedom and independence, where today 10 million Bohemians of the new republic send United States in return, their thanks for the fulfillment of their dreams they had longed for the past 300 years, and yet I see the same American people extending them money, food and cloth-

eron Herald declared the official organ of the city of Cameron."

Upon motion the salary of Ed Adams was raised \$5.00 per month in consideration of extra duties as fire marshal.

The council took up the matter of adjusting the city tax rendition but found no action could be taken until an equalization board had been selected and agreed to serve. The Mayor appointed H. M. Hefley and J. D. Dobbins a committee to select and recommend a board at an adjourned meeting Thursday morning.

Our park is a beautiful place and children should be encouraged to go there at proper hours and taught to respect the equipment put there for their amusement and benefit.

HAND GRENADES AS PREMIUMS

The Savings Division Of Eleventh
 Federal Reserve District To
 Use Novel Plan.

Do you want a real war souvenir? The Savings Division of the Eleventh Federal District is giving every man and woman, boy and girl, a chance to secure one in the form of a hand grenade savings bank. Only a limited supply could be secured, however, and these are being distributed through the banks in the various towns and cities of the District.

When the Great War ended, the United States had a large number of hand grenades made up, all ready to send over to the men who were pushing the Boche back to defeat. These grenades were turned over to the Savings Division. The explosives were extracted and the grenades turned into savings banks.

Under their agreement with the Treasury Department, the banks will loan these grenade savings banks to boys and girls who agree to earn and save enough money to buy at least one War Savings Stamp. When the Savings Stamp is bought, the grenade becomes the personal property of the boy or girl. Any adult may also obtain one of these grenade banks by purchasing at least three War Savings Stamps of the 1919 issue.

This grenade bank is the most unique war souvenir that has been offered to the public. It is a weapon of war transformed into a weapon of peace. Those interested in obtaining these grenades should make application to their banks immediately, as the supply for the Eleventh District is very limited.

Buy War Savings Stamps regularly. It is your duty.

ing to relieve their suffering.

May Lord bless the generous donors and let the Cameron Commercial Club accept my hearty thanks for the service and the cheerful way they handled the matter, I remain with best wishes to the Club,

Yours very truly,
 K. Kacer,
 Pastor Catholic church, Marak.

DR. TOM DENSON VISITS NEW YORK

Attends National Meeting Of Edison
 Dealers And Has Most Delightful Trip.

Dr. Tom Denson, proprietor of the New Cameron Drug Company which firm has the distribution in Milam county for the New Edison Phonograph, returned last week from New York City where he had the pleasure of attending the national meeting of Edison dealers of the United States. Dr. Denson reports he had "the trip of his life" and judging from the enthusiasm with which he took hold of business upon his return he doubtless did.

Dr. Tom left Cameron, going through Waco to Dallas where he joined a party of dealers from Texas and Oklahoma, from Dallas the party went through Kansas City for a day and then to Chicago where they saw the "Windy City" and from there visited Niagara Falls. From Albany they traveled to New York by boat, landing in the metropolis on the 24th of June. The great convention lasted for ten days and was attended by about 2000 delegates from over the United States.

Dr. Denson in talking of his trip said that about the most enjoyable and most inspiring event was that of meeting personally Mr. Edison. The Dallas party in body visited the great wizard's institute and were given 15 minutes of his time during which he showed them through a part of his laboratories. Dr. Denson said that Mr. Edison was putting in a great part of his time resurrecting old music that has been buried for more than 100 years. He further stated that the great inventor was of the opinion that lots of the best music the world had ever had was buried and that he intended to give some of back to the world by the use of the New Edison Phonograph.

The return from New York was made by water to Galveston and judging from an issue of the "Evening Momus" which Dr. Denson gave to the Herald he had quite an enjoyable trip. Below is an extract from this paper which is published aboard ship. The reference made to "Dock" is of Dr. Tom:

On Board the S. S. Momus at Sea. Special.

The occupants of suite A and B, the "Colonel," "Dock" and "Eddie," and the famous "Joe" held an informal reception at 11:30 p. m. last night out on the saloon deck which was a very enjoyable affair. Readings, recitations, vocal music and impersonations were the style of the program. "Eddie" in his inimitable way recited in unmistakable Italian dialect, "The Happenings at the Italian Base Ball Game." He responded with the usual encores. Mr. H. D. Kerr, entertained the party immensely with the recitations, "Casey at the Bat," and "The Shooting of Dan McGrew." Mr. H. D. Hogan recited very eloquently, "The Creation of the World." Lieutenant Cline gave a very interesting talk of some of his experiences as a soldier in France. He described the ways and customs of the country. "Joe" who was down on the program as the famous Spanish dancer "Carmenito," disappointed the audience on account of the non-arrival of his trunk of costumes. "Dock" told them how to avoid "Love Sea Sickness." The Colonel lead the vocal number entitled "Just a Song at Midnight." Delightful sandwiches and ginger ale were served as refreshments.

On page three of this issue The Herald takes pleasure in publishing the annual message of Mr. Edison, delivered at this convention, which Dr. Denson was kind enough to furnish us with. It came from one of the greatest minds America will ever know and everybody should read it.

Mrs. R. A. Nabours who has been visiting in Birmingham, Ala., returned to Cameron Monday and will spend a few days with her daughter, Mrs. John House. Mrs. Nabours was accompanied home by her niece, Mrs. J. S. Baker of Oklahoma who will also be a guest of Mrs. House.

FARM PROBLEMS

The program for the Farm Management Association to be given during the Texas Farmers Congress is made up of subjects touching the most vital farm problems of the present day and will be handled by men thoroughly conversant with each detail of the matter to be discussed. It would be difficult to arrange a more complete or instructive program for those interested.

Friday, July 18, 1919, has been decided on as the most appropriate time for this program and from 9:30 a. m. to 12:00, addresses will be delivered on the following subjects: "Some puzzles confronting the Farmers," William A. Bowen, editor Texas Farm and Fireside Bulletin, Arlington, Texas; "Development of Cooperation in Rusk County," R. E. Huston, Henderson, Texas; "The Brazos County Farm Loan Bank and How Farmers May Use It," I. M. Cook, Bryan, Texas. From 2 to 4 p. m., the program will be continued as follows: "The Aims and Accomplishments of the Farmers Union, Fort Worth, Texas; "The Place of Livestock on a Diversified Farm," J. T. Orr, Dallas, Texas; "A Simple Set of Farm Accounts," H. B. Jillogh, College Station, Texas.

These speakers are masters of their subject and speak from experience and observation, and since there is no more vital farm problems at present than that of farm management every farmer in Texas should make it a point to hear these speakers.

666 has proven it will cure Malaria, Chills and Fever, Bilious Fever, Colds and LaGrippe. It kills the parasite that causes the fever. It is a splendid laxative and general Tonic.—Adv. 18

THE COILS ARE TIGHTENING

In the past the rules on the exchanges were that if any one bought contracts for future cotton and called for the cotton, the party selling could deliver a mixed lot of stains, tinges, low and high grades, or all of these; or all of low or stains, as he chose. The buyer had no choice as to what he received and paid for.

"This permitted combinations to slump the local market far below what spot cotton values were. There was no danger of spinners buying their supply through the exchanges, because if they called for the cotton, they would have delivered to them stuff they could neither use nor sell. "The 4th of March, the Smith amendment went into effect, which forces delivery of white cotton of grades from low middling up. These are all spinnable grades, and if by a combination, the future price should be reduced below spots, as was the case last winter, the spinners would buy their supply through the exchanges and call for the cotton. The party selling would have to buy the cotton from the farmer at his price, thus entailing heavy loss.

"Futures were \$25 a bale below spots when this law went into effect, and they advanced rapidly to that of spots. Since then, there has been no slumps of a duration of more than a few days. This law was a serious blow to combinations to slump the price of futures below that of spots. Those posted in future dealing do not look for these shameful slumps in the future. Every now and then a shrewd friend of cotton, like Senator E. D. Smith of South Carolina, elips

the wings of the gambler and manipulator just a bit.

"When the South decided to find the cost of production and name a price for which to hold cotton, the move was naturally opposed by the speculator, but they had to stand it. The South is making progress rapidly and the closer we stand together, the faster will be the progress."

W. B. Yearly,

Cotton Specialist, State Agricultural Department.

666 quickly relieves Constipation, Biliousness, Loss of Appetite and Headaches, due to torpid liver.—Adv. 18

With the advent of the Egyptian Pharaohs much thought and care was given to the perfecting and development of the chariot, and for more than 2,000 years it was the leading vehicle of the world.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

An instrument has been invented by a New York man to determine the correct balance of airplane propellers and measure possible differences between their blades.

We are proud of the confidence doctors, druggists and the public have in 666 Chill and Fever Tonic.—Adv. 18

The Greek sandal is so popular that it is worn upon the street.

LET US AMERICANIZE NAMES OF OUR TREES

More and more plain United States is being used in marking trees in public parks and the custom should be universal for then the people will become more interested in their parks says the American Forestry Association of Washington, D. C. Nothing makes a person more disgusted, after admiring a tree enough to have his curiosity aroused than to walk up to it and find a long Latin name nailed to the object of his admiration. By all means let us Americanize our trees while the question of "Americanization" is so much before the public. The American Forestry Association will send any reader of this paper free detailed information on tree planting. Plant a memorial tree and register it on the national honor roll of the association.

666 has more imitations than any other Chill and Fever Tonic on the market, but no one wants imitations. They are dangerous things in the medicine line.—Adv. 18

A Japanese bacteriologist has built a dust proof, air proof, germ proof house of glass, the air that is needed being pumped through a pipe and filtered.

How's This?

THOS. A. EDISON'S ANNUAL MESSAGE

Declares That Nation Is Approaching
Time For A Square Deal For
Everybody.

Edison Dealers—A new order of things is emerging from the events of the past five years. Whatever may intervene, the ultimate result is going to approach more closely a square deal—for labor, for capital, for the merchant, for the farmer, for everyone. The employer who is not square with his employees, or the employee who is not square with his employer is going to be out of step with the times.

Demagogues may muster a following of illogical radicals who advocate injustice as a means of gaining justice, and stiff-necked reactionaries may selfishly oppose the progress which destiny has decreed as humanity's reward for the sacrifices that have been made, but in the end there will prevail a just and honest basis for the relations between capital and labor.

This new relation cannot be legislated into existence. It will spring from the conscience and patriotism of the people. The time is coming when the unjust employer and the disloyal employee will share equal odium in the esteem of society at large.

The square deal is fatal to radicalism. There can be no social revolution in the United States, or Canada, for the very simple reason that our Government and the Canadian Government are founded on the idea of giving everybody a fair show. There will be few disturbances of consequence if a majority of us adopt the square deal as our business creed and our social creed. One man alone, who believes in the square deal and has the courage of his convictions, might very possibly convert a whole community. Accordingly, the good citizen today, in addition to conducting his individual business in harmony with the Golden Rule, has the duty of raising his voice and using his influence in behalf of justice for all—justice as much for the railroad corporation as for employees, and for the common laborer, as well as for the highly skilled artisan. I believe that Edison dealers will recognize this duty and that they will not be found wanting in its performance.

Of our own business I think I need speak but briefly.

A large production of Disc re-creations is already an accomplished fact and steps are being taken practically to double our present production.

Our only problem at the present time is to obtain a mould that will give us a definite production of absolutely uniform quality. We are introducing such a mould and its use will enable us to get out supplements on schedule and give us a more uniform product.

The shortage of disc phonographs has been due to our uncompromising determination to have cabinets of the finest quality. We have finally succeeded in getting our standard accepted by the various manufacturers and the shortage of phonographs will

WEEKLY FINANCIAL REVIEW

Prepared For The Cameron Herald
By The First National Bank in
Saint Louis.

Already possessed of the greatest single stock of gold in history, the United States could lay claim today to most of the remaining free gold of the world in payment of its favorable merchandise balance, the Federal Reserve Bulletin will say in its July issue. The balance approximated \$9,000,000,000 in the last three years, and bids fair to continue at the

same rate this year, affording a problem to arrange payments without bankrupting debtor nations and still further enhancing the cost of living here through the importation of more metal.

Under the gold embargo, which recently was lifted, making the United States practically the only free gold market in the world, the Federal Reserve Board issued 1142 licenses for the export of \$152,326,976 of gold and 1500 licenses for the shipment of \$502,756,003 in silver. About 755 applications of all classes were declined. The net movement under the embargo was \$5,293,532 excess of gold imports and \$281,832,589 excess of silver exports, heavy shipments of the latter metal having been made to British India, Hong Kong and France.

Rub-My-Tism is a powerful antiseptic; it kills the poison caused from infected cuts, cures old sores, tetter, etc.—Adv.

An elephant can pick up a needle with its trunk.

ITCH!
Hunt's Salve, formerly called Hunt's Cure is especially compounded for the treatment of Itch, Eczema, Ring worm, and Tetter, and is sold by the druggist on the strict guarantee that the purchase price, 75c, will be promptly refunded to any dissatisfied customer. Try Hunt's Salve at our risk. For sale locally by Pace-Marshall Drug Co.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

Cameron, Texas

be materially relieved in the near future.

As most of you know I devoted practically all of my time to Government work from January 1st, 1917, to November, 1918. It is not my habit to lavish praise upon my business associates and employees, but it is no more than fair for me to say that in my absence our organization made an extremely good showing in the face of numerous difficulties. Thanks to the responsibility placed on our organization during the war, I now find, much to my satisfaction, that the business requires less attention from me and that I accordingly have more time for the phonograph research work, in which I take such a keen interest and from which I derive so much pleasure.

I have already renewed the experiments on Symphony Orchestra recording, which were interrupted by the war. It is too early to make any definite prophecies, but I feel confident that sooner or later we shall be able to record a full Symphony Orchestra of ninety-four pieces, with a fidelity which will enable us to sustain a tone test comparison with the orchestra. Please understand that this does not mean a new record. It will be the same kind of record we are now making, although it will probably have to be twelve inches in diameter.

I have assistants working constantly—under my direction—in research that covers every phase of phonographic development. I am happy to be able to say that, so far as I am aware, in the past six years no one has announced a so-called improvement or development, in the phonograph art, which involved a principal that was unfamiliar to us. I confidently predict that the same thing will be true during the next six years and, for that matter, the next sixty years. In other words, we are in front and we intend to stay in front. By this I do not mean that you are to expect new and unusual types of phonographs or records. Our progress will be marked by improvements and refinements that will be reflected in a superior musical result, but that will not keep the trade in a turmoil of change. The method which we adopted in introducing the new period cabinets illustrates, I think, that we recognize that changes in our lines must be made in such a way that the dealers will not be prejudicially affected.

Improved conditions make it possible for us to do a great many things for you dealers that we have not been able to do in the past. This Convention has been chosen as the occasion for announcing some of our plans for dealer co-operation. I sincerely

trust that the results will afford us justification for increasing our expenditures in this quarter.

None of us have the gift of looking into the future with absolute certainty, but I think all of us are satisfied that the next ten years hold large rewards in store for everyone who is identified with the Edison Phonograph. There may be temporary disturbances in business during that period, but basic conditions in this country are so exceedingly favorable that I think we need have no serious apprehensions and that we are all justified in going ahead with absolute confidence.

When you go home from this Convention, I hope that each of you will carry with himself, or herself, the conviction that the Edison Company will do its best in every possible way to serve your interests and merit a continuance of the loyal support which you have given it in the past. Also I should like to have you feel that the relationship between our Company and yourselves is a little closer than the relations which ordinarily exist between a manufacturer and his distributors. All of you have my sincere best wishes.

Thomas A. Edison.

Piles Cured in 6 to 14 Days

TWENTIETH CENTURY WONDERS.

Colonel House gave out an interview.

Wife—How does my new skirt show up?
Hubby—Up to the knee.

Mary had a little lamb,
Its fleece was white as snow,
And when the price of meat went up,
The lamb was soon to go.
But Mary ruled the lamb must stay,
And this was her intent:
To save the lamb until the first,
When landlord raised the rent.

LET'S WORK TOGETHER

You often hear folks talk of "CO-OPERATION," and yet there are many who may not know how much "Co-Operation" really means. No man can live to himself alone—he MUST have friends. And the same rule holds good in a business sense. A merchant depends on his friends for his business, for his enemies won't trade with him. Then, if one succeeds, he must make his money off his friends.

Thomas N. Herring, Manager

Cameron, Texas, July 17, 1919

Cut the weeds.

Haul off the cans.

Help prevent a typhoid epidemic.

As a good indoor sport the Herald would suggest fly fighting.

With the mercury at the 100 point and you get roasted just worry like a peanut—that's its usual fate.

Lets follow the slogan and have the best town in the State—Cameron—"Where Nothing Knocks But Opportunity."

"The 'ole swimmin' hole" is progressing nicely. Just a few more days until this joyful spot will be the center of attraction.

The sunshine is helping the farmers to kill the weeds. Milam county will harvest the biggest crops this fall she has ever known.

Cotton above 35 cents per pound should sound good to the farmers as well as the business interests of the town. Milam has a bumper crop.

The city council has ordered that the citizenship cut the weeds. Now isn't that a shame. Why don't we cut our weeds without the law making us.

A series of revival service will begin at the Civic League Park Sunday night. Rev. Walter Harbin will do the preaching. Go and learn the way of salvation.

Are you doing your part towards helping to make Cameron a better town? There is lots you can do in the way of work on your own premises if you are not inclined to work—then boost a little to the strangers in the city.

As a matter of protecting health in the city an order has been passed by the city council of Cameron that all weeds and tall grass must be cut immediately. The City Marshal has been instructed to serve notice on you—if you have any weeds—so get busy and save yourself the embarrassment of having the law ordering you to do what your own pride should prompt you to do.

The Herald takes pleasure this week in producing an excellent photo of the Cameron Concert Band. It is with great pride that we are able to give to our readers these photos of up-to-the minute stuff, subjects that are of interest to the general public and subjects that we are privileged to buy and pay for with our own money and not use second-handed.

The U. S. S. Princess Matoika, Martha Washington and Zelandia are taking a large company of interned German prisoners to Holland this month. The Princess Matoika took 784 German naval officers, 1,100 firemen and seamen, 134 women and children and 19 civilians.

Continued improvement on the streets of Cameron by Commissioner J. D. Dobbins are in evidence. A few more men in Cameron that has the city's interest at heart as Mr. Dobbins has would make quite a different place.

The buyers from practically of the big dry goods houses of Cameron are either in the eastern markets or on their way. Each and everyone declare they are going to buy the biggest stocks ever. Watch Cameron grow.

The Cameron Commercial Club is doing some effective work. There is not a week passes that something for a better Cameron and a better Milam county is not accomplished. The membership roll is growing—are you a member of this organization? If not, join and help boost your town.

The bank statements published in The Herald this and last week of the three banks in Cameron show that financial conditions are the best ever known for the time of year. The total resources are almost \$3,000,000 with plenty of cash on hand. Cameron is the city of the hour in Central Texas. Come to Cameron.

Through the Cameron Herald it is learned that Mrs. C. H. Yoe of that city has recently donated to that city a splendid campus, funds to build a handsome high school building and to equip it throughout, all at a cost of \$125,000.00. Cameron is to be congratulated on having such a commendable charitable citizen. When the world grows old, the name of Mrs. Yoe will still be on the lips of Cameron's youth.—Hico News-Review.

Mr. and Mrs. Will T. Yates returned Sunday from Corpus Christi. Mr. Yates reports they enjoyed plenty of fish but it took a little hard work to get them.

SHRAPNEL

Another

She—I was a fool to marry you. He—No doubt; but I'm not willing to let you bear all the blame. I asked you to.—Boston Transcript.

Strange

"The hobble gown makes thin girls look Much thinner," said old Statter; "But when a fat girl wears one, it Makes her look that much fatter."

Sure

"Is there any such thing as the age of discretion?" asked the Old Fogey. "Sure," replied the Grouch. "A man reaches the age of discretion when he gets old enough to keep his face closed when he hasn't anything to say."

More About Mary

Mary had a Corn Fed Calf, And Mary Was Delighted; For every time she climbed the stairs The men folks got excited.—Luke McLuke.

Advice

This little rhyme is very true It may save you some sorrow, Just close your mouth today, and yet Need not explain tomorrow.—Luke McLuke.

More About Eve

Eve's lot was not so very sad; By faith she wasn't badly treated; For Adam never came home mad Because the home team was defeated.

Fact

"Take this advice, you'll find it true," Remarked old Mr. Dover; "Don't overdo a thing, or you May have to do it over."

And doughnuts—say, they're awful high

Can't touch 'em with a ten foot pole But don't you growl and kick and sigh You pay no more out for the hole. —Dalton, Ga., (Citizen.)

Hooray!

These auto tires are very high, They cost a fellow quite a heap; But do not think, and do not sigh—The air you use is just as cheap. —Luke McLuke.

Sin has many tools, but a lie is the handle which fits them all.—Holmes.

Doctor—"Are you still smoking?" Patient—"Yes," Doctor—"How am I going to do anything with you if you persist in that?" Patient—"That's what I'm paying you to find out."—Boston Transcript.

Saving Money

"Your ailment is imaginary. However, I'll pay you a daily visit." "Huh, if that is the case, doc, might as well let your visits be imaginary."—Kansas City Journal.

Not On the Casualty List

Father—Well, son, I see you're back from the front and not a scratch. Son—No, I quit scratching as soon as we got out of the trenches.—Cornell Widow.

"If straws show how the tide is ebbing, it is only right to record that in Brooklyn a man named Whoriskey, whose friends all nicknamed him 'Whiskey' has obtained permission to change his name to Waters." Objection is made in Chicago to drowning stray dogs for fear so many sunken barks will obstruct navigation.—The Boys' Magazine.

WILL LEAD SINGING FOR METHODIST REVIVAL

LLOYD P. BLOODWORTH

Mr. Lloyd P. Bloodworth who is to lead the singing during the Methodist revival meeting, which begins at the City Park Sunday night, is one of the foremost evangelistic singers in Texas. Mr. Bloodworth was educated at Polytechnic College and while there took a prominent part in athletics. He starred in both the college football and baseball teams. Mr. Bloodworth served in the army with distinction, attaining the rank of captain. He has led the singing in meetings with Lockett Adair, Mike Cassidy, W. M. McIntosh and other evangelists.

Mr. Bloodworth's specialty is working with young people and children. He usually organizes what he calls a "Sunshine Choir." He has had as many as one thousand children in this choir. This will be one of the features of the meeting. The meeting begins Sunday night at the park. The community in general is cordially invited to attend and enjoy these services.

Costly Economy

John D. Ryan, copper king and air expert said at a luncheon: "Look out for the manager who is always talking about retrenchment. He's apt to resemble Blink." "Mr. Blink," said a clerk, "I wish you'd get in some blotting paper, sir." "Hump!" Blink grunted. "Blotting paper's gone up. The staff will do without blotting paper hereafter and wait for the ink to dry."—Pittsburg Chronicle-Telegraph.

LOOK OVER OUR LIST

of delicious concoctions and you will see how many good things we serve.

We are always thinking of something to tempt and please.

Come in and let us serve you.

PALACE OF SWEETS

"Your Satisfaction Is Our Success"
STEDMAN & SHARPE, Props.

T. G. SAMPSON ENJOYS VISIT WITH SON IN NEW YORK

T. G. Sampson has returned home after an absence of several weeks. While away Mr. Sampson visited his son in New York City and with him made a delightful tour by auto through the states of New York and Connecticut. Mr. Sampson states he found it necessary for comfort to wear an overcoat while on this trip but has laid it aside since returning to Texas.

Judge Ward of Meridian spent the past week-end with his son, Oliver. Judge Ward has just returned from a visit to Atlanta and other points in Georgia but after a motor trip through some the best farming sections adjacent to Cameron declared that crops in Milam county surpassed anything he had seen on his trip east.

Gus Ekstrom of Austin returned home after a short visit with his sister, Mrs. H. T. Warwick.

METHODIST MEETING WILL BEGIN SUNDAY

As was announced several weeks ago the Methodist revival meeting will begin at the pavillion in the Civic League park next Sunday night, July 20th. The services will be conducted by Rev. Walter Harbin, pastor of the First Methodist church of Cameron. Extensive plans have been made for these revival services and the citizenship of Cameron should feel it a great privilege to be able to hear Rev. Mr. Harbin in this series of meetings as his ability as a strong expounder of true gospel is known far and wide.

Mr. Lloyd P. Bloodworth will be present to lead in the singing and is one of the foremost evangelistic singers in Texas.

Everybody is cordially invited to these services. The open air and cool breezes of the park should induce a large audience each night.

Tillie Clinger reads the Herald.

BETTER BLOUSES

FOR LESS IS

WHAT YOU'LL

ALWAYS FIND

HERE.

ONE OF THE

NEW WELWORTH

MODELS ON

SALE

TOMORROW.

New Welworth Blouses at \$2.50

You're sure of superior values whenever you buy a Welworth.

We alone in this city can sell these popular Welworth Blouses, and we are right proud of the privilege. We control the sales of this far-famed line for that very good and valid reason that we are able to control the sale of so many other lines that are found exclusively at our store. Welworth Blouses are made and sold under a most unusual arrangement between the makers and retailers that insures many things: first, new and desirable Styles, and secondly values that are incomparably better than can be ordinarily obtained at the same moderate price.

The model illustrated is a finely tailored model of Shantung of a superior quality. Made with a convertible Buster Brown collar. All seams are double stitched.

Our Blouse Department is always prepared to show the very latest and most authentic Blouse styles, for we receive the same new models on the same day that they first make their appearance in the country's Recognized Style Centers.

KINDERGARTEN HELPS FOR PARENTS

Littlest Child Not Too Young To Be Taught Self-Reliance.

(By Helen Campbell.)

School had opened in the district and all through an exciting day, all varieties of the four-year-old, accompanied by all types of "the mother," were applying for admission.

Mary's mother, of calm, firm, but gentle bearing, stepped forward and the duty of registration properly fulfilled, presented her little daughter. Mary possessed the same calm manner as her mother and in addition a strange childlike dignity and poise of her own. Her two little bright eyes bespoke thought and understanding as she stood there on the alert for every question, at times even assuming the responsibility of the conversation herself. She had been carefully prepared by her mother for this new period of development and so could face it without fear. Therefore, it was no surprise to us to hear her mother say at the conclusion of her visit: "Mary can take off her coat and wait upon

herself. She will not cry, for I told her she was coming to school and explained what she would have to do. She is a great help to me at home and I am sure will give you no trouble." Then, turning to Mary, she waved a "goodbye dear," and Mary, smiling with satisfaction, sat down in her little chair.

We were not allowed to waste much time with Mary just then for suddenly there was a great pushing to the front and hurried childish sounds of "I'm four years old, I'm waxinated, I live at 538 East —. My father's name is Jimmy and he's dead and I want to come to school every day! Now can I have a little chair? Can I play with blocks, and sew cards and bring home things every day like all the other boys that go to kindergarten?" When Jimmie stopped to catch his breath, I fully realized that he had made up his mind to come to school, and that, indeed, he was quite ready to do so. When asked where his mother was he said: "She's home, and my big brother he goes upstairs in this school, but I came all alone by myself."

Yes, Jimmie, the youngest of nine, entered school alone, but full of enthusiasm and ambition, with a brain eager for stories and games, and with hand that wanted to work, to

learn and to do. Fate had seemed unkind to him, but although a victim of rough circumstances he had developed fortunately and accidentally in the right direction. He turned out to be a most interesting pupil in the classroom and soon became obedient, law-abiding child.

Two big, blue sleepy eyes, mounted in a great wonderful head, supported by the stockiest of frames, there were the striking characteristics of the next little fellow who stood before me. A poor indulgent mother held his hat in one hand and his apple in the other, together with a penny to give him when he cried and a basket of cakes for fear he might be hungry. As she pushed her son toward me she gave his name as Joseph Carlson.

"Good morning, Joseph. Are you glad you can come to school?" No movement of the eyes or face; no sign of comprehension. "He doesn't like to talk very much his mother answered. Then his cake fell to the floor and when I asked him to see if he was big enough to pick it up, again it was the mother who replied, "He doesn't ever do anything like that," and stooped and picked up the cake herself.

Her mission of registration over Mrs. Carlson started to go, but suddenly returned to make these feeble remarks: "You know, teacher, he is 4 years old, but he isn't any good to himself. I have to do everything for him and if I don't he cries. I know I pet him too much, but try him and see if you can teach him something. I can't."

Joseph looked impervious to knowledge, but I had no reason to anticipate that he would prove at all troublesome. "Goodbye, be a good boy," called his mother from the door. For the first time Joseph demonstrated that he possessed some sense of what was going on outside of himself. His screams brought his mother quickly back, and from one penny she raised to two, and finally offered everything she had. But to no avail, for he still continued to stamp and scream. And so I requested her to leave, assuring her that all would be well. With tears in her eyes she said: "Do let me take him home; I think he is very much of a baby." But I was obdurate and refused, for I knew that with every added day of her overindulgence his road would only grow the harder.

Surrounded by new and lively associates of his own age, Joseph soon forgot his mother and himself and although he was not very active at first, each succeeding day developed more interest and expression, until finally his mother was able to see a smile on his face when she bade him goodbye at the opening of the morning session.

But what labors we had taken upon our hands with her helpless, pitiful pet! How much harder his little battle through life had been made and how much unhappiness he suffered!

Many a mother thinks the age between 3 and 4 much too early to lay the foundation of self-reliance in her children. She says: "My child is too young to learn yet. When he goes to school he will be taught to do everything and that is time enough." And so she waits upon him day and night, amuses him when he appears silent or lonesome, provides for his every want, and seldom asks him for a response of any kind. In fact, she absorbs his whole personality, impressing her own where his should have a chance to demonstrate itself.

Froebel said: "Our children must learn to do, by doing." Then what happiness, individuality and calm, deliberate deportment even at the early age of 4 they may possess, and what self-controlled, law-abiding citizens

they may become if only mothers will try day by day to develop their self-reliance!

How shall this be done? Just teach your child to dress himself, to wash his hands and face, to lace his shoes, to comb his hair, to button his coat, to use his spoon, knife and fork. Commend his initial tugs and struggles and sooner or later these struggles will be converted into finished actions. And hands so trained at home will later in school life grasp scissors more firmly and handle crayon and pencil with a much finer precision.

Fill the child's day with little responsibilities: The care of a garden, of cat or dog, care for clothes. Help him to anticipate your wants, and give him the joy of waiting upon you. Have him run little errands for your scissors, your needles, your thread. Let his care for baby brother or sister once in a while. There will be lots of time besides for play, and a greater value placed upon play time. Such duties to a child are not burdens, but a real delight, because they develop in him a sense of independence and helpfulness.

Help to reach all the parents of the country by cutting this out and passing it on to a friend.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 60c per bottle.

The only important peace treaty ever negotiated by women was that known as the "Ladies' Peace," arranged by Louisa of Savoy and Margaret of Austria.

Grove's Tasteless Chill Tonic

restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 60c.

The Germans insist on Wilson's fourteen commandments. Anything to escape the ten commandments — Goodwin's Weekly (Salt Lake City).

FOR SALE.

Look! Stop! Listen! A big bargain. Good residence with 6 rooms, bath room, sleeping porch, and pantry. Two nice Beveled glass doors, between dining room and sitting room; has 1/2 acre of land and stable, good garden. On easy payment; \$600.00 down and \$25.00 per month. If interested write: Address: 1016 South Third St., Waco, Texas. 6-41-19

Thrift is the yeast that swells pennies to dollars. Prove it with Thrift Stamps.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS Chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS Chill Tonic is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS Chill Tonic has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS Chill Tonic when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

"THE PROOF OF THE PUDDING IS IN THE EATING."

There is no question but that the Byrne Shorthand is the greatest system in use today. It makes better stenographers in less time and with less cost than any other. It may be written either with a pencil or any typewriter. It has over 30,000 enthusiastic writers; it holds the world's record for speed in a given length of time, is the most simple, legible and rapid system in use, as is shown from the following remarks by our students who first studied other systems:

"I take pleasure in telling the public that the Byrne Shorthand is the only system. I previously studied Pitman eight months, used it in actual practice for four months. At the end of six weeks study of the Byrne, I was a better writer than I had ever been with the Pitman."

"I have been a Sloan-Duployan stenographer for 15 years; I found the system inadequate. I then took the Gregg under Mr. Gregg of Chicago, but found it illegible. I then took the Byrne, which I consider the stenographic marvel of the age."

"I first studied Pitman Shorthand, then took up Byrne, and found the Byrne to be 35 per cent shorter and that it could be written at a much higher rate of speed, and read like print."

"I studied Pitman four months, gave it up in disgust; I then took up Perin and studied it almost night and day for six months; but was not competent to hold a position. I then took up the Byrne for three months and find that I can hold any kind of a position."

"I graduated in Graham shorthand, writing 100 words a minute, after 9 months study. After studying the Byrne Simplified, together with Byrne Practical Bookkeeping for four months, I could write Byrne much faster and regard it superior to any other system."

"I thoroughly mastered 14 systems seven of the most prominent Pitman systems, Gregg, Chartier, Byrne, and four minor systems, and had the Byrne much easier to read, that it can be written with one-and-one-half times the speed that can be made with any of the other 13 systems."

"After studying six different Pitman systems, I was unable to hold an ordinary office job, but with five weeks study of the Byrne I went

into the District Court and did reporting successfully, and was appointed official court Stenographer."

Why study any system of Shorthand, other than the Byrne, when the Byrne can be learned in half the time, or less, read with greater ease, and written at a higher rate of speed which means better salary and promotion? It does not cost half as much to complete a course in our school as it does one of the other systems in other schools. We hold the exclusive right to teach the Byrne in this section. The author is the president of our school."

Write Tyler Commercial College, Tyler, Texas, for large free catalogue containing full indorsement and names and addresses of the above, and of others who have tried the other systems and abandoned them for the Byrne. Our Bookkeeping, Cotton Classing, and Telegraphy are as far superior to the other systems as is the Byrne Shorthand.

If it's in The Herald, it is news.

AUTOS USED BY ARMY

SELL AT HIGH PRICE

MUCH IMPORTANCE

More Than Double Cost Given For Great Progress Made In Design and

Machines Used In War For Construction In Last Few

Year. Years.

American army motor transport in England has not cost the United States Government anything for machines, according to figures prepared at army headquarters here. Astonishing prices have been paid here for machines the army has placed on auction, touring cars in scores of instances bringing more than the original cost, even though they have seen rather hard usage for months.

The army purchased a number of cars of light, popular type for \$450 each and these have sold for as high as \$1,000 after being used for eight months. Another machine, the average purchasing price for which was \$1,085, has brought as much as \$1,890 at the auction sales. The prices bid for touring cars have been absolutely amazing, Major J. C. Welby, head of the motor transport work in the Quartermasters Department here, told the Associated Press, a great deal higher than we would have dared asked on straight sales.

Altogether the army had 592 touring cars, trucks, ambulances, motorcycles and bicycles for its work of transporting about 1,000,000 men through England. Only a dozen of these have been reserved to be used in the final clearing out of headquarters in London. Good prices have been obtained for the trucks and ambulances, exceptionally good prices when compared with what second-hand motors bring in the United States, but the greatest demand has been for the touring cars, motorcycles and bicycles.

It is only recently that car owners have given any special consideration to the wheels. Now they are awakening to their importance, are studying the relative merits of wood, wire and disc types and asking the salesmen pertinent questions. Renewed interest is given to this subject by the timely testimony of Captain Eddie Rickenbacker, America's "Ace of Aces" and a former race driver of national fame. Captain Rickenbacker, explaining the value of such spectacular racing events as the recent Liberty Sweepstakes at Indianapolis, emphasizes the importance of correct wheel design as a factor of safety. He says:

"In the last Liberty Sweepstakes race every accident but one was due to defective wheels, wheels that apparently were sound, but under the crucial strain of sustained high speed revealed themselves in their true light.

"The same wheels would have given England never did build such vehicles in quantity and during the war none were built for private use. Now the demand is so great that actual values have been almost disregarded entirely.

Some observers place this demand in the same category with the insatiable desire of women for the finest of finery at unprecedented prices, or other luxurious demands of people who would hardly have thought of such things before the war.

MITCHELL IS BUSY

WITH ROAD MATTERS

County Engineer Has Successful Trip To Austin. Branchville Road Plans Approved.

County Engineer A. F. Mitchell returned Tuesday from Austin where he had been to appear before the State Highway Commission to submit plans for the construction of the Branchville-Port Sullivan road. Mr. Mitchell appeared before this body on Monday and after a careful check of the plans and specifications they were approved.

This means that this road will soon be under course of construction. The bonds have been sold and all that is now necessary is to take the sufficient ten days to advertise for bids to do the work. This road will run a distance of 9 1/4 miles beginning at Harold's Creek and running to the Port Sullivan bridge on the Brazos river where it connects with the Hearne pike in Robinson county. There is \$20,000 State and Federal aid and \$20,000 in bonds, making a total of \$40,000 available for building this strip of road. Engineer Mitchell announces that quite a sum of money available for this road will have to be used for damage structures, as this is the most important part of a road.

There is great importance attached to the building of this road to everybody in Texas, inasmuch as it is a part of the connecting road for the two Meridian Highways that traverse the State. The end of the road leading into Cameron from the west leaves the Dallas-San Antonio road below Temple coming through Rogers. The road here in question runs east from Cameron across the county line to the Port Sullivan bridge on the Brazos river connecting with the Robinson county pike which leads to the Dallas-Houston Highway at Hearne.

Mr. Mitchell is now busily engaged in making surveys on the Jones Prairie, Caddo and Baileyville roads. He expects to complete this work this week and have plans ready to submit in a very few days. The amount of bonds voted for roads in these districts are as follows: Jones Prairie, \$35,000; Baileyville, \$20,000; Caddo, \$10,000.

en good service under ordinary touring conditions for one or two years, perhaps, and then suddenly crashed to the wiping our possibly of an entire family.

"The discoveries of the last Indianapolis race will enable wheel manufacturers to improve their product so that occurrences such as those which produce fatalities during the contest will be impossible on the open road."

There has been great progress in wheels design and construction in the last few years. Some ideas that have found favor in Europe are rapidly gaining in popularity in America, such as original adaptations of the steel disc type which are making a strong appeal because of their strength, appearance and the ease with which they can be cleaned, although there are many other points to be considered.

The fact of the matter is that science has at last turned to the wheels and the public is rapidly informing itself on this important factor of automobile design.

DECLUTCHING THE CORNERS

While it is a wise precaution to throw out the clutch when rounding a sharp corner, it also has a beneficial effect upon the tires. Whenever the car tends to skid due to its deflection from a straight course, a cross strain is brought to bear on the tire treads, which is directly proportional to the weight of the vehicle and the radius of the curve and proportional to the square of its velocity. If the power is applied in rounding a curve the tendency to rip off the tires is further aggravated by the backward drag due to traction. If the clutch is released, however, that factor is eliminated and the strain is thereby reduced.

W. W. Chambers is enjoying a vacation in Mineral Wells.

FLORIDA-COLORADO

HIGHWAY MEETING

County Judge W. G. Gillis Attends Enthusiastic Meeting—Director From Milam.

Judge W. G. Gillis of Milam county who is a director in the Florida-Colorado Highway Association, representing Milam county, was in attendance upon the second meeting of this association held at Brownwood last Monday. Judge Gillis reports a most enthusiastic meeting and a large attendance. He states that the project is well organized and progressing splendidly.

The meeting on Monday consisted mostly of reports from the various directors representing the different counties which were very fine.

The various highways to compose the Colorado-Florida highway in Texas, are as follows:

No. 9 from Lubbock to Amarillo; No. 5 from Amarillo to Clayton, New Mexico; No. 7 from Goldthwaite to Lubbock; No. 36 from Richmond to Goldthwaite, and No. 3, south from Richmond through Houston, Liberty, Beaumont and Orange.

The following were appointed to act as managers of the territory designated:

S. A. Machmeh for Harris, Fort Bend and Austin counties.

C. H. Chernowski for Orange, Jefferson and Liberty counties.

W. G. Gillis for Washington, Burleson, Milam and Bell counties.

B. F. Bennett for Coleman, Taylor, Nolan, Fisher, Scurry and Garza counties.

Roy L. Walker for Coryell, Lampasas, Mills and Brown counties.

R. B. McCorkle for the Panhandle counties from Lubbock north.

THE AMERICAN LEGION

Cameron Post No. 9, American Legion, held a rousing meeting at the court house last night, and decided to rent and fit up a club room for its regular meeting place. Committees were appointed to see to this, to draft a constitution and by-laws, and to visit each returned soldier who has not yet become a member of the post. Several new members were received. As soon as the club room is fitted up a big house warming will be held to which all returned soldiers, whether members of the Legion or not, will be invited. Speeches will be made, refreshments served and a business meeting will be held at which permanent officers will be elected. The local press will carry announcements of the house warming. Drs. Newton and Epperson and Mr. E. A. Wallace of the draft board were elected honorary members, and all made enthusiastic speeches predicting a splendid future for the Legion. Dr. Newton very handsomely relieved the Post from the financial stringency which had held it down in the past by making a present of a hundred dollars to be used toward the house warming. On account of the short time a full report of the meeting could not be had for this issue, but we are promised a big write up for next week.

PUMP LEAKAGE

When the water pump begins leaking do not assume that necessarily it is because the nut is too loose. Frequently the nut is not to blame at all, but poor packing is the real cause of the trouble. Packing for this part consists of candle wick soaked in tallow, heavy twine similarly treated or special packing material. After the nut has been turned to press the packing down, do not turn it further, as excessive squeezing is apt to damage some part of the body of the pump.

HERE'S LAW THAT GETS AUTO THIEVES

Through the efforts of the Pennsylvania State Motor Federation a real law for automobile thieves is being considered in the Pennsylvania Legislature. The new law would provide a penalty of \$5,000 fine, or ten years' imprisonment. An accessory to a theft is to be considered as the principal. This goes for so-called joy-riders as well as professional thieves.

HERE ARE BEST AUTO CLEANERS.

Washing soda, kerosene and plain soap and water should be the cleaning agents used by the car owners for cleaning parts, tools, etc., about the garage. Gasoline is not as good as these others, and it costs considerable more. For taking grease spots out of clothing, some of the inflammable fluids now on the market are better than our present grades of gasoline.

Don't neglect necessary adjustments and repairs until it is too late and you are laid up by the roadside.

Firestone red or gray inner tubes are giving years of service. Cameron Tire Store.

TO REMOVE CAR OUT OF THE MUD

When the car gets stuck in the mud do not try to pull out by running the rear wheels. As a matter of fact, the slower the wheels run the better chance they have of getting a grip. If the car can be rocked by alternate engaging and disengaging the clutch it will be found that the pendulum action of the car will pretty nearly carry it out of a bad spot.

WIRE WHEELS

Owners of cars fitted with wire wheels should give these parts a weekly inspection for loose spokes. While the wire wheel is strong enough to resist astonishing shocks, nevertheless such a blow may loosen one or two of the spokes and such damage should be immediately repaired. Where the enamel has cracked off, paint should be applied to keep moisture from working its way in and inducing rust.

Subscribe for the Herald.

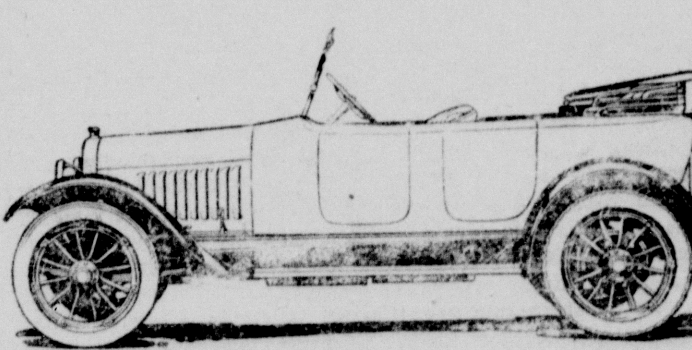

The Maxwell is a pleasure car. Every feature of its design, every detail in its makeup and all of the items that complete the sum of its serviceability contribute to that end.

That tens of thousands of Maxwell pleasure cars are employed in business service is significant, because many of the attributes that make the Maxwell so desirable as a pleasure car also make it an efficient business car.

But it is still more significant that tens of thousands of Maxwell cars have found continued favor among those motorists to whom a motor car is part and parcel of the family life.

NUMEROUS ROAD BILLS IN CONGRESS

Senator Morris Sheppard Wants Military Highway Along Southwestern Border.

Over two score of bills already introduced in the special session of the Sixty sixth congress, make evident the positive demand that is developing all over the United States for nationalized highways and more complete control of federal expenditures on roads by the government.

Though the extra session is young, some forty bills having highways as their major theme have been dropped into the legislative hopper, while more than a score of others which deal with the road situation to a greater or lesser degree are now on file.

Chief among these in interest, of course, is the measure of Senator Charles E. Townsend of Michigan, providing for a national system of highways, a federal highway commission, and a thorough study of the principles governing transportation. Bill Gains Favor.

This bill was first introduced at the last session. Since then it has been subjected to a nation-wide criticism, with the result that numerous powerful organizations have gone on record favoring it as a bill which treats the subject in the broadest manner and with due consideration for the varying needs of the respective states.

Evidently the present bureau plan of federal aid administration does not now meet with country-wide favor, as aside from the Townsend measure, several others have been introduced which would create a radically different form of control. For instance, Senator Wesley Jones of Washington calls for the creation of a department of public works, which would among its other duties include all that is now done by the bureau of public roads. Representative Osborne of California would create a department of federal highways and establish a national highway system, while Representative Reavis of Nebraska introduced in the house the same measure as is sponsored in the senate by Mr. Jones. Southwestern Border Road.

Senator Morris Sheppard of Texas is the author of one bill calling for a military highway along the southwestern border, while Representative Hayden of Arizona also would have the war department at once under-

take a survey and investigate the need for a boundary road. Representative Hudspeth of Texas has about the same idea, except that he would not delay in starting the building of a military highway.

Senator Jones of Washington would have a survey of the entire Pacific coast for the purpose of investigating the need of a military road. He would also survey and locate a military and post road from St. Louis Mo., to Olympia, Wash.

Representative Lea of California proposes a highway for military coast defense purposes along the northern Pacific coast of his state to be known as the Roosevelt highway. Mr. Haley of Oregon seconds this idea and calls for the construction of the Roosevelt highway along the coast of his commonwealth.

Military Highways. Senator Shields of Tennessee would authorize the secretary of war to prepare a preliminary plan for a system of improved national highways, keeping in mind possible future military requirements.

Representative Robison of Kentucky asks for an increase of \$1,000,000,000 to present federal aid road act appropriations; while Representative Ferris of Oklahoma believes that \$400,000,000 should be added.

Many of the Rocky Mountain states representatives have fathered measures which would provide for the sale of public lands for use in road improvement, one of the most important of these bills coming from Senator Phipps of Colorado.

Delegate Kalaniano'le of Hawaii contends that this territory should participate in the distribution of the money appropriated under the federal aid road act.

Senator King of Utah believes that the national forests should be returned to the department of the interior instead of being administered by the department of agriculture, which arrangement, it will be remembered, traces back to the Roosevelt administration, when the change was made to meet the wishes of Gifford Pinchot, the then chief forester. A powerful sentiment undoubtedly exists for the return of the forest reserves to the secretary of the interior.

"It is interesting to note in analyzing the measures that the demand comes from all sections of the United States," comments Chairman George C. Diehl of the A. A. A. National Good Roads board, "showing that the movement for national highways is a genuine growth and that the roads question has passed beyond sectional stages."

Mrs. W. H. Camp and daughter, Miss Annie May, were trading in Thorndale Wednesday.

Mrs. Zora Outlaw and daughters were visitors to Thorndale Thursday. Miss Maxine Barge is in Mineral Wells this week visiting friends.

Mrs. D. N. Clark has been quite sick the past week-end but is reported better at present.

Mr. Sterley and a friend motored thru our village Sunday enroute to their home in Taylor.

J. R. Ellison and wife and daughters were thru here Sunday afternoon from Thorndale.

J. R. Foster and wife of Rockdale spent Saturday and Sunday here with their daughter, Mrs. John Woody, and family.

Im. Rudi and family bowed to San Gabriel friends as they rode thru enroute home to Thorndale Sunday.

Nigel Outlaw returned to his home in this community last Thursday from overseas where he has spent several months. Nigel was a patriot from beginning to end of the great struggle, volunteering some two years ago, doing deeds of valor, with risk to his life and has won the title of sergeant-major in his division, showing the admiration and trustworthiness in which he was held. This homecoming decreases the number of absent boys, who left to offer service for their country, down to one. We speak of the boys going from our village and community. Last news of the still absent soldiers left him in Germany and our wish is that he too may be sent safely back home, also in the near future.

Miss Bertha Foster and father were in Rockdale Saturday.

Little Misses Lois and Edith Jackson of Thrall are spending this week with their cousin here, Little Miss Zetha Winford.

Walter Farmer of Davilla was among friends here last Tuesday with his water-melon wagon.

Farmers are cutting their cane at present. Beautiful weather prevails for the curing of this most bountiful crop.

Brian Woody spent last week-end with friends in Cameron and Temple.

Miss Duncan Thomas was in Thorndale Monday.

A. Y. Norman and wife drove to Thorndale Sunday afternoon.

Mr. Frank Hutson was looking after business in Thorndale Friday.

Mrs. Hattie Sides and little son of Gano, spent the past week end with her son, Ewing Cummings and wife of this village.

Shelby Phillips and family of Thorndale were thru our little berg Sunday.

Mrs. Willie Davis of Thorndale spent a few days of last week in the home of her parents, W. S. Glasscock and family.

Young Mr. Spoon came in last Tuesday after serving his country in France for many months. His mother's happiness is complete for with his return, her three sons were again given her, all honorably discharged after service abroad.

Miss Isabelle Camp left Saturday for a visit to relatives and friends in Austin.

Virg Winford and family were with relatives in Thrall Sunday.

Henry Graves and family of Lilac motored thru this village Sunday.

John Woody and wife spent Wednesday in Taylor.

Dr. Lee of Thorndale was making professional calls in this community a few days of last week.

We do not have to go to the truck scopes to find the nicest watermelons this year, as we usually do. Our friend and neighbor, Mr. John James can boast of just as large, beautiful and good melons as are found in this county. Not a common production for this kind of soil.

Master Robert McVet of near Rockdale spent last week-end with his cousin, Harry Woody of this community.

Closest friends were invited Sunday to a dining in the home of Mrs. Zora Outlaw, in celebration of the home coming of her son, Nigel. A feast was partaken of and words cannot express the enjoyment of the day by all who attended. Greeting from friends in the form of a social evening at this home on Monday night, were received by Nigel, the guest of honor. We always enjoy the hours with Mrs. Outlaw and daughters, as hostesses.

F. M. Amason was attending business in Thorndale Thursday.

R. A. Foster came up from Rockdale Sunday and spent a few hours

in the home of his niece, Mrs. J. S. Woody.

J. G. Foster is listed with the sick this week.

Murrell and Felton Camp were Taylor visitors Saturday.

Mr. Warren of Thorndale was in our little hamlet Sunday afternoon.

A. Taegel and wife motored over from Thorndale Sunday.

Mrs. Fannie Norman and Miss Minnie Young of Thorndale were thru San Gabriel Friday on their way to Cameron.

Mr. and Mrs. Ernest Foster of Rockdale were guests of relatives here Sunday.

Brian Woody was a visitor to Taylor last Wednesday.

Mr. Wagner of Abilene was guest of friends here a day last week.

Theo. Locklin of Thorndale was among San Gabriel friends Monday night.

AUTOS REGISTERED COLLECTORS OFFICE

The following automobiles have been registered in the county tax collectors' office since last report:

1654—H. E. Graham, Gause, Ford.

1655—Ed Moultrie, Rockdale, Ford.

1656—W. E. Gaither, Rockdale, Ford.

1657—W. E. Gaither, Rockdale, Ford.

1658—C. S. Terry, Cameron, Ford.

1659—New Cameron Drug Company, Cameron, Ford.

1660—Mrs. Annie Urban, Cameron Route 1, Ford.

1661—W. B. Smith, Rockdale, Ford.

1662—John Kruser, Jr., Cameron, Route 1, Ford.

1663—E. B. Yeager, Rosebud, Rt. 3, Dodge.

1664—T. G. Sampson, Cameron, Overland.

1665—Marvin Pugh, Ben Arnold, Ford.

1666—Jim English, Cameron, Ford.

1667—J. T. Metchan, Buckholts, Route 1, Ford.

1668—S. E. Bragdon, Cameron, Chevrolet.

1669—W. A. Bryson, Ben Arnold, Ford.

1670—J. R. Luce, Cameron, Ford.

MOONLIGHT PICNIC

One of the most enjoyable out-of-door affairs of the season was a moonlight picnic given last Monday night by the young ladies of the K. K. to the young men of the same club in return for the many social courtesies extended them and their guests this summer. The spot selected for the outing was the beautiful grove on the R. L. Batte farm, two miles north of Cameron. The crowd was conveyed to the grounds on big motor trucks and this joy ride put every one in the best of humor and whetted the appetites for the delightful lunch provided by the entertaining young ladies. The lunch consisted of the most delectable sandwiches, which only young ladies know how to make, tomatoes, salads, fruits, ice cream and cake. After the tempting viands has been disposed of, an hour of conversation and jokes ensued and the merry making ended by a moonlight ride over the city.

The chaperones for the evening were Mr. and Mrs. J. L. Clinton and Dr. and Mrs. James Watson.

TRANSFER NOTICE

All who are interested in transferring to the Cameron public school will please see that the matter is attended to at once. Leave the names with County Supt. J. F. Chadwick, or with superintendent of the Cameron schools, L. H. Kidd. Transfers must all be in by the first of August.

L. H. Kidd, Supt.

WARPED VALVE STEMS

If there is a lack of compression and on examination the valve heads seem clean and perfect, give the valve stems a careful looking over to see if they have not become warped by the intense heat of that part of the engine.

CHEVROLET

The progress made in fine coach building is exemplified in its highest degree in the bodies of Chevrolet cars. While their design embodies all that is practical in the newest ideas of body construction, there is an appealing individuality in the graceful sweep of their lines which has always characterized Chevrolet design. In their construction is incorporated a quality of materials and workmanship seldom found except in the higher priced cars.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

Willard STORAGE BATTERY SERVICE STATION

ONE THING MORE

Most car owners know that this is the place to have their batteries tested with a hydrometer.

—That it is the place to buy a Bone Dry Battery with Willard Threaded Rubber Insulation—which carries with it the evidence of battery newness.

—That it is the place to come for battery charging, repair and a rental battery.

But, one thing more—it is the place to come, just as soon as you buy your new car, to have your battery registered and get the benefit of Willard 90-day battery insurance.

Drive in whether you have bought a new car or not. Perhaps we can give you some battery information that will mean longer life to your battery and fuller use of your car.

BAND CONCERT TO BE HELD AT PARK TONIGHT

At the special request of the Cameron Commercial Club, the night for band concerts in the park will be Thursday instead of Friday as in the past. This permits the members of the club to hear the band and not shirk their duty in connection with the affairs of the city.

During the Methodist meeting there will be no regular appearance of the band in the park, but one sacred concert will be given on a Sunday afternoon. More details will be published shortly.

The band has been rehearsing regularly and is rapidly being whipped into a real concert organization, but the public is to please notice that it takes years to make a band equal to Sousa's, and our local band has been organized only about six weeks.

TRUETT BLAYLOCK AT HOME

Truett Blaylock who rendered such distinguished service in our Navy has reached Cameron and his friends are still congratulating him on his expert marksmanship in firing the shot that put a German submarine out of business.

The Herald is pleased to announce that Mr. Blaylock has been added to our office force and is making good here just as he did in the service of Uncle Sam. He expects to receive his formal discharge from the navy soon.

Lee Harris, son of L. W. Harris, returned Tuesday night from overseas service. He saw 8 months service in Co. L, 21st Engineers

THE PRISCILLA CLUB

A delightful meeting of the Priscilla Club was held at Mrs. Oxsheer Smith's pretty home on Hefley Heights last Thursday afternoon.

Mrs. Smith received her guests on the lawn which formed an ideal setting for the group of daintily clad women who compose the membership of this club.

The Priscillas are a band of artists and each member was busily engaged upon some marvelous piece of needle work but this did not prevent a pleasant flow of conversation and exchange of ideas which make these gatherings so delightful. The hostess served a salad and ice course after the work hour and adjournment was made until the cooler fall months. The invited guests were Mesdames Dow Eplen, Eugene Wallace, F. C. Fahrendorf, J. L. Barmore and R. C. Knipp.

DINNER PARTY

Miss Gladys Watson entertained last Friday evening at her home on Hefley Heights with a beautifully appointed course dinner in honor of her cousin, Mrs. Mitchener, of Troy, Alabama.

The dining room was the perfect embodiment of good taste and refinement, a color scheme of green and pink being carried out in decoration and lighting. After dinner informal dancing was indulged in on the spacious verandas of the home, music being furnished by the Edison.

Besides the hostess and honoree the personnel of the party included Misses Mary McLane, Cornelia Wallace, Louise Gillon, Louise Hearrell, Messrs Price Cross, Lawless Green, T. S. Henderson, Jr., John Henderson, Mike Coleman, Leland Denson and Geo. Childress.

PRESBYTERIAN CHURCH

Usual service Sunday morning. No service Sunday evening on account of the Methodist meeting. Friday night we are to have another one of our church socials on the church lawn. Let every member plan to be present and bring your friends.

W. Klawansky is in the Eastern markets buying fall and winter merchandise for his firm. He will visit Chicago and New York.

THE NEW FORD STARTER

Our fiscal year, 1918-19 is drawing to a close, and while it has been a period fraught with many and varied experiences in our personal as well as our National life, we have much to be thankful for, and we take this method of expressing our appreciation of favors and patronage extended by our friends.

We wish also, to call your attention to some of the features that will add interest and "pep" to Ford Products the coming season, some of which have been mentioned already and some of which are yet to be shown.

We are today receiving our first Sedan with the new starter.

To say that this starter is a success would be mild and commonplace, to say, "It's a dream" would not be true. It is a reality of the most vital importance and we would be glad to show it but for the fact that the party whom we ordered it will take the car out as soon as we can get it ready for the road.

All Ford Cars are now equipped for the starter, and in a few weeks we will have a stock of starters on hand, so that even those cars that have come out without the starter can be equipped on short notice.

Our mechanic has made a trip to the plant and received full instructions as to installation of the starter, so that when he installs them, they will be just as reliable as if coming from the factory.

While the tractor business is in its infancy in this community and has yet to be known to be appreciated, we feel that the season is approaching when if they are to be used to advantage this year, orders should be placed now. Every one who has given the Fordson a trial, no matter to what use it has been put is highly pleased, and where necessity requires it, will buy another, and in some cases many.

The same thing might said of the Ford One-Ton Truck. It is easily the most popular of Ford Products where it has been given a tryout. Every inland merchant, every land owner, and many tenants will find the Ford Truck the best investment they ever made. PLACE YOUR ORDER NOW.

Chambers Hefley Motor Co.

SECRETARY BAKER COMMENDS WORK OF A. & M. COLLEGE.

That war is now largely a matter of applied science and that any method of national defense must take into consideration the co-operation of the educational agencies of the country is the declaration of Hon. Newton D. Baker, secretary of war, in a letter of Dr. W. B. Bizzell, president of Agricultural and Mechanical College of Texas, thanking him for the large part this institution played in winning the late war with Germany.

"I am glad of this opportunity to express to you my recognition of the patience, devotion and skill with which both executives and teachers played the parts which they were asked to play," Secretary Baker says, and setting forth the loyal and liberal co-operation of all educational institutions which did special war training he continues.

"For all this service in so far as it relates to the war department I beg to express my profound gratitude; and at the same time I desire to bespeak for the war department your continued co-operation in the time to come. Any wise provision for the national defense will inevitably involve the utilization of educational agencies. As war is now largely a matter of applied science, so military training is largely a matter of education. Any permanent military policy that may be adopted will therefore depend to no small extent for its successful execution upon your counsel and active assistance."

TWIST TO THE RIGHT

In making a temporary battery connection the strands should be twisted up tightly, forming a loop by bending over to the right. Then the binding screw will grip closely and hold the looped wire in place. If the wire is bent to the left the screw will have a tendency to force the loop apart when the screw is tightened, making an imperfect connection.

Don't race with anyone on the road as this has caused the majority of automobile accidents.

Mrs. Stanley Boles and baby returned Wednesday from a visit to her mother in Waxahachie.

ECZEMA AND TETTER SUFFERERS DO NOT BECOME DISCOURAGED.

Blue Star Eczema Remedy is not a new preparation but has been tried and tested for four years and has given entire satisfaction to everyone who has used it, which is attested to by the following testimonial from a long sufferer of Eczema and Tetters. Blue Star Eczema Remedy is sold on a money-back guarantee. What it has done for others it will do for you.

Sold on a Money-Back Guarantee at all Drug Stores.

Read What Hon. J. J. McClellan Has to Say.

Corsicana, Texas, August 24, 1916.
Mr. Sol Gottlieb,
City.

Dear Sir: It gives me much pleasure to recommend your Eczema Remedy to those suffering from this dreadful disease. I had suffered from it for seven or eight years, and never obtained any permanent relief, until I had access to your remedy. I had it on my left hand very badly and nothing seemed to do it any good, un-

til I tried your Blue Star Remedy, and after using about a jar and a half of your remedy, the Eczema entirely disappeared.

The first application allays the terrible itching and if the medicine is applied according to directions afterwards, I think it will effect a cure.

Respectfully,
J. J. McClellan

TRY THIS WHEN ROUNDING CORNERS

Cultivate the habit of coasting around corners or going into second speed. Turning the corners at speed imposes intense strains on all parts of the mechanism and should be avoided for that reason, in addition to which it makes for skids. Further, turning at speed is exceedingly bad for the tires.

PUMP PRECAUTION

Motorists who use one of the hand pumps will do well to give the pump a few strokes before attaching it to the valve. This blows out any grit or other foreign matter that may be clinging to the pump valve, preventing their finding their way into the inner tube.

CHANGE OIL

This is the season when the owner of a car should replenish oil in all compartments, engine, clutch, gear-set and rear axle. The compartments should be flushed out with kerosene before the new oil is installed.

Mrs. Dick Cage is at home again after having spent several weeks visiting in west Texas.

DISCHARGED SOLDIERS

The army recruiting headquarters for the Southeastern district of Texas, located at 1003½ Congress Avenue Houston, will render the necessary assistance to all discharged soldiers in obtaining their additional travel pay as authorized by the Comptroller of the Treasury. The many soldiers who at the time of discharge, received only 3½ cents a mile from place of discharge to place of induction into service may now obtain an additional 1½ cents a mile, making a total of five cents as now authorized. In addition to this, if the soldier's actual bonifide residence at time of discharge was at a greater distance from place of discharge than the place he was inducted into service, he will be paid for the difference in mileage at the rate of five cents per mile. All the necessary forms and instructions can be obtained by calling at or writing to the above office.

Dr. Thos. Lutner who has been in Chicago for the past twelve months taking a special course in diseases of the eye, ear, nose and throat is in Cameron visiting his mother. He will leave for Lawton, Okla., in about three weeks where he expects to locate permanently.

JULY THE TIME TO GET THREE ENEMIES

Get in ahead of the insect leaf eaters with arsenate of lead solution. This will enable your trees to give the insects the laugh. What is more pleasant than the wonder whisperings of the trees in the soft summer air. A man who died in New York the other day never passed a magnificent tree without taking off his hat. The homage is merited for as Joyce Kilmer, who gave his life for France wrote: "Poems are made by fools like me but only God can make a tree." Study the care of trees and get ready to plant one in the fall. This newspaper has arranged for you to get complete information on tree planting free of charge by writing to the American Forestry association at Washington, D. C. In the meantime don't worry about those falling leaves in July. Wash down the tree with plain water thus drowning the plant lice. In the meantime get the free advice from the American Forestry Association.

MUFFLER PAINT

It is difficult to find a satisfactory paint for the exhaust pipe and muffler because of the heat of those parts. Here is a highly recommended muffler paint: Boiled linseed oil, 1-5 pound; Japan varnish, 1-5 pound; turpentine, 2-5 pound; lampblack, 1½ ounces; powdered graphite, 1½ ozs., powdered oxide of manganese, 3-8 ounce. Mix the linseed oil and Japan varnish well together, then add in order, stirring all the time, the lampblack, the graphite and the powdered manganese. As the mixture thickens thin it down with turpentine until the quantity mentioned has been used. This mixture should be used as soon as it is mixed, as it dries quickly. Every time the brush is dipped in it should be stirred. It is well to paint the muffler while it is hot, after having cleaned it thoroughly.

CLUTCH LUBRICATION

One of the most commonly neglected parts of the car, so far as lubrication goes, is the clutch operating mechanism. In the case of disc clutches running in oil the lubrication of the thrust collar and the lever operating it is automatic. But with clutches that do not operate in a bath of oil the thrust collar and lever require oiling by hand. The service of these parts is exacting and frequent lubrication of the ball thrust bearing and of the end of the lever which actuates it is necessary. Furthermore, the bearing of the clutch pedal and the pins which secure the clutch operating linkage should be frequently lubricated.

PRIZE PACKAGES

To the Editor of The Stars and Stripes:—

Last week you awarded a looie who wanted pillows for his detail of casuals the fur-lined mess kit or the knitted spurs. If any more looies are eligible for future awards, I humbly suggest the following:

- 1 Pair barbed wire garters.
- 1 Pair embroidered dumb bells.
- 1 Knitted umbrella.
- 1 Hand painted nail file.
- 1 Crochet moccasin.
- 1 Dozen non-slip oysters.
- 1 Suit of sand-paper underwear.

—Generous Buck.

Mrs. B. P. Paddock and son leave today to visit relatives in Brownwood and Sweetwater.

Mrs. R. B. Rylander and Miss Alice Owen returned today from San Marcos.

Mr. and Mrs. G. H. Gaugh who have been visiting their sister, Mrs. Dick Clark, left Wednesday for Temple.

Mr. Stanley Boles left this morning for San Antonio.

THE CHAMP

"Dempsey now has won the crown,
His fame is all the rage;
He's going to meet the whole U. S.
By going on the stage.
He's going to tell how it was done—
How he knocked Willard out—
And you must pay two bucks a seat,
To hear about the bout."

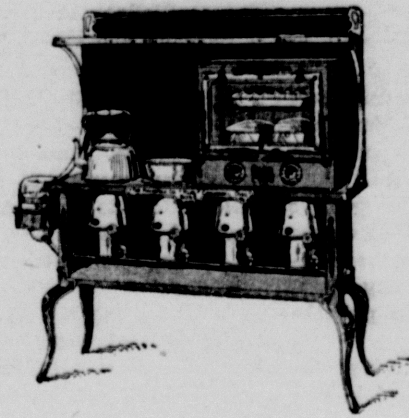

Some Resemblance.

"Didn't you have a brother in this course last year?"
"No, sir; it was I. I'm taking it over again."
"Extraordinary resemblance, though positively extraordinary."—Ex.

Smith—"No, I don't care for that fox terrier. His legs are too short."
Dog Fancier—"You couldn't have 'em no longer, gov'nor. They reached right down to the ground."—The American Boy.

No Use To Wait-- Prices Are Going Higher

We have just unloaded some mixed cars of furniture, also have one car on the road. These goods were all bought before the recent advances which means from 10 to 25 per cent.

We carry the Detroit and Perfection Oil Stoves, two of the best. Buy an oil stove and stop fretting about the price of wood. We have just received 500 good clothes brushes worth 50c each. We will give one of these with each purchase of \$1.00 or more. Come and get yours before they are gone.

Remember we carry everything for the Home. Just received a big shipment of Trunks, Suit Cases and Hand Bags.

Columbia Grafinolas, one of the best made. Don't buy until you have seen the Columbia.

We have a few Refrigerators left at a right price. Make our store your headquarters while in Cameron.

RECONSTRUCTION OF THE WORLD.

Houston Chronicle.

We are embarking on the greatest and most complex epoch of reconstruction in human history.

Never were credits and the stability of governments so severely shaken, and never was there more imperative necessity for acting unitedly in their support.

The transition from war to peace is still too close upon us to permit anything like an intelligent grasp of the great problems to be faced and solved, but if effect is always equal to cause, which is generally accepted, we may rest assured that those problems are the most stupendous ever put up to civilization.

So far as organized strife is concerned the struggle may have subsided, but the influence of the commotion, temper and unrest incident to it will be with us for many, many years.

In finance, in politics, in commerce, in morals and in social matters, we probably have not felt the deeper effects of this conflict, and we may not feel them in the strongest way for considerable time.

This much, however, and this much only, we know. The whole structure

of Christian civilization has been profoundly rocked, not only by the menace of Prussianism, which, for the immediate present at least, appears well under control, but by the menace of mental and spiritual confusion of which bolshevism is, perhaps, only a warning.

Nations, and they are the greatest in the world, face debts never dreamed of, in response to which the living cost mounts higher and higher throughout the world. To reduce wages and values is to make it harder to liquidate those debts. To keep wages and values up is to invite the necessity of general readjustment.

Coupled with this situation, which is obviously full of pitfalls, there is political turmoil in many lands, and lack of political stability in many others, and underneath it all lies a hysterical skepticism regarding our moral and religious codes.

Europe realizes all this more distinctly than we do, because Europe is already being pricked. But though we have been touched to a comparatively slight extent as yet, we must not delude ourselves with the false hope that the influences of peace will leave us unscathed any more than did the influences of war.

The same cohesion that drew us into this conflict will make us party

to all the trials and tribulations of reconstruction. We can no longer pass the buck of Irish independence to England, or that of syndicalism to Italy.

We can no longer ignore the possibility of bankrupt institutions across the Atlantic. We can no longer regard the depression of credits in any considerable portion of the world as of no consequence to us.

Every difficulty incident to reconstruction is our difficulty as well as other peoples'. Every task is our task. We must not expect to escape by substituting a shore lived commercial prosperity. We must not think to avoid the inevitable, because for the next two or three years we may be able to sell some of our goods at unprecedentedly high prices.

BE CAREFUL OF WASHERS

In reassembling a fiber disk universal joint care must be taken to have the right number of washers separating the disks. Two washers separate each disk and one each is under the head and nut of the bolt. The nuts holding the bolts should be kept tight at all times.

L. J. Epperson has accepted a position with the Chambers-Hefley Motor Company.

ESSEX Popularity Grows

All who have seen the Essex will understand how difficult it is to appear temperate in our claims for it.

People are saying the most enthusiastic things about it. They like its light weight and the way in which it combines the economy of the cheap car with the quality, endurance, comfort and performance of the large costly automobile. Motorists in every section are praising the Essex. Tens of thousands have ridden in it. A million have seen the Essex. All hail it a new leader.

BIG AUTO SHOW AT THE DALLAS FAIR

Promises To Eclipse Anything Ever
Held in Texas—Equal To Larger Cities.

The auto show at the victory fair at Dallas promises to eclipse anything of the kind ever held in the state. Demands for space are so many that a new building is to be erected to house the trucks, leaving the whole machinery hall for the pleasure cars.

The new truck building will be 50 by 400 feet and will cost about \$7,000. S. G. Davis, chairman of the committee appointed by the Dallas Automobile Trades Association, is cooperating with W. H. Stratton, secretary of the State Fair of Texas, in this department.

Beautiful and novel light effects decorations have been provided for at a cost of \$3,500 additional. The auto building will be a community social center. There will be a splendid fountain in the center, and floor space and a good orchestra will be provided for dancing. It will easily be one of the show places of the fair.

Hundreds of different makes of automobiles and trucks will be displayed. Many will show the new 1920 models which are displayed here from sixty to ninety days before being exhibited in New York. In an adjacent enclosure more than a hundred different makes of tractors will be shown and demonstrated

MOTORISTS LEARN HOW TO CARE FOR THE TIRES

Motor vehicle owners are showing more care in the way in which they treat their tires, and as a result the life of the tire adjusters employed by the big tire companies is becoming a happier one, according to the representative of a big tire factory who believes that the consistent educational propaganda distributed by the tire manufacturers for the purpose of acquainting car and truck owners with the factors that are detrimental to long tire life is bearing fruit.

"There is no question," he says, "but motorists are now tire wise and that the average driver is as thoughtful of his tires as he is of any other important part of the car. This is particularly evident by the small number of cars you will notice these days running along the streets with underinflated or squashed shoes. It took some time to bring home the fact that the shoe that carried the proper air pressure in its tube would give the longest and best service, but finally this money saving advice was appreciated. Driving in ruts, pulling up to a sharp stop with the tires grinding against the street curb, and a number of common practices of other days, are not so frequently indulged in now."

to the farmers. All the various types will be represented. The auto show will compare favorably with the shows held in Chicago, New York and Detroit. "In attractiveness we hope to set a standard for other makes to emulate," said Mr. Davis.

POWER FARMING ALL OVER WORLD

"Iron Horse" Supersedes Animals
Altogether In Some Section of
Middle West.

"The horseless farm is a reality and it has come to stay," said Clifton George, of Dallas, who has just returned from a national demonstration of tractors staged by manufacturers at Wichita, Kan., where over 100 different styles and makes were paraded at one time.

"There are a number of large farms in Kansas where the 'iron horse' is king of beasts, and is used exclusively to plow, harrow, seed, bind and thresh the crops of the Kansas plains," said Mr. George.

At the national tractor exhibit, which continued from July 1 to 19, inclusive, over 100 different models of tractors were shown, ranging from the small garden tractor, which is pushed along in front of the vacant lot agriculturists, to the mammoth machine which draws with ease the sixteen-point plow.

Another feature of the exhibit was the use of the tractor as a stationary engine generating power for the filling of grain bins and silos. The grain bins were filled by means of blowers and the silos with automatic conveyors.

"Power farming has captured the world, and the horseless farm is the realization of the tractor manufacturers' dreams," said Mr. George. "The large landowners of the Middle West were converted to the tractor during the war when they were confronted with labor shortage and at the same time an increased demand for their crops. The adaptability of the tractor to meet all situations has won for it a recognition that is now being manifested in increased demands for these labor and money saving machines."

One tractor gave a thirty-day non-stop test of its endurance, being operated continually during that period twenty-four hours each day by means of three eight hour shifts. During that time forty miles of road were dragged several times, 340 acres of wheat were cut, 160 acres of ground plowed, besides the harvesting of other crops.

"The machine was supplied with gasoline and oil while the engine continued to run, and after the test the tractor was dismantled and examined by a committee of experts, with the result that the wear on the valves, pistons and all bearings was imperceptible."

DOBBIN PASSES BEFORE THE MOTOR.

Figures published by the sanitary bureau of the department of health of New York City show that from March, 1917, to March, 1919, there was a decrease of 2664 occupied stables in the city, with a decrease of 32,296 in the number of horses. The total number of horses in the greater city at the census in March (1917) was 108,036. The one this year, the same month, showed only 75,740.

LEAKING TUBE

Sometimes an inner tube receives a puncture big enough to allow the tire to become reflexed after a brief interval but not visible to the naked eye. When this happens in the garage the bucket of water tells the tale at once, but on the road about the only way of locating the leak is to inflate the tube and hold successive portions of it close down to the dust along the surface of the road. When the puncture is brought into this position the outpuff of air will ruffle the dust and indicate the position of the leak.

TO CLEAN SPARK PLUGS

An excellent method of cleaning spark plugs, or in fact any mica surface, is to wash them first in a 10 per cent solution of acetic acid, which is an infallible solvent of grease and carbon deposits. The plugs should then be washed off with gasoline and finally dried by rubbing them with a cloth.

TOURING POPULAR ALL OVER U. S.

Remote Sections Of Country Find
They Are In For Continued
Tourist Trade.

"Touromania" is gripping the United States.

Reports from every section of the country show the "touring bee" is rampant, and even the remotest sections that never boasted much automobile touring report the arrival of scores of motor caravans.

This is the gist of a report issued by the National Touring Bureau of the B. F. Goodrich Rubber Company, which says that the average citizens who seldom thought of long tours is being seized with the "long distance fever." It's an after the war relation—a desire for people to forget the war and rest their overstrained nerves. There were few vacations last year and the work of rearranging business affairs to fit reconstruction needs held thousands of business men to their work.

The second big factor contributing to the vast scope of motor travel is that the bars on European touring are still up. England and France have announced that foreign visitors will not be admitted until next year.

The bureau has been swamped with requests for State road maps. They will give out nearly 5,000,000 State highway maps this year. This is almost the equivalent of one map to each and every car owner in America were they distributed on the basis of one State map to an automobile owner. Requests have been heavier than ever before by a wide margin, and have increased with each week during the latter part of August.

It is estimated that over 75 per cent of the cross country tours are made on improved roads, which represent a total of less than 20 per cent of the Nation's highway system. When the enormous appropriations for highways have been extended and the car owner and motor truck operator is offered a wider range of activity, utilization of the roads will mount to almost unbelievable proportions. Not only more improved roads but wider roads will be needed to avoid congestion of traffic.

SOUTH AMERICA HAS FAMINE IN GASOLINE

Shortage of gasoline in British South Africa has affected the use of motor cars and trucks, according to a report from the American counsel. Sales of gasoline were suspended by the government in order to insure adequate supplies for military use. The position is not so serious now, and gasoline is again being sold for commercial requirements. Parliament has legislated that no excise duty be levied on union spirits or on other manufactured from spirits, if they are used for internal combustion engine fuel in order to stimulate and encourage the establishment of a motor fuel industry. As a result, a factory has been erected near Durban costing 400,000 and with a full capacity for 3000 gallons daily. This fuel is being placed on the market at a price just below that of gasoline. No statement can be made yet as to its success as a substitute fuel.

RATTLE IN SHACKLES

Spring shackle play or looseness between the spring end and the shackle may give much trouble until discovered. Rattling caused by this looseness will be more frequent and distinct when the car is riding over fairly rough roads. A good method of taking up the play is to place shims between the spring end and the shackle, or the play may be removed by tightening the bolt. Watch the shackles and do not allow mud to accumulate, as small particles of glass-like substances in parts cause excessive wear. Lubricate the shackle bolt generously.

Billboards on which figures are made to move by electric motors have been patented.

Save The Pieces

BROKEN CASTINGS

Can be welded and made good as new. We have an up to date Oxy-Acetylene Welding Plant. We weld cast iron, cast steel, brass, aluminum, and also automobile parts, gin and oil mill machinery.

We can remove all carbon from your automobile cylinders.

We have the best and most up to date tools in our shop for doing all kinds of repair work.

Gin and machine work, auto repairing, wood work, blacksmithing, wagon and buggy work. Tell your friends about us.

CAMERON, TEXAS

HIGHWAY BUREAU PROVES BIG BOON

The state highway department handles a great deal of money each year, running well into the millions, but the counties of the state are sharing in the distribution of the funds for the purpose of constructing roads in a manner which makes the owners of automobiles perfectly willing to pay the tax on motors.

The department has now been in existence for two and a half years, and during that time it has collected \$5,246,701, inclusive of the tax on motor cars, chauffeurs, dealers, transfers and license plates.

During the years 1917-18 there was returned by the department to various counties \$1,306,335 in the way of allotments. Then the law was changed and the county tax collectors became the collecting agents, retaining for their counties 50 per cent of the tax collected which has amounted during 1919 to \$1,271,583, making a total returned to and retained by the counties directly \$2,578,019.

Of the amount held by the department, \$447,784 has been returned to the counties during the two and a half years in the form of allotments and aid for projects. And during the same time \$267,986 of federal aid has been awarded to counties for road work.

The department has expended for engineering talent \$57,999 during the

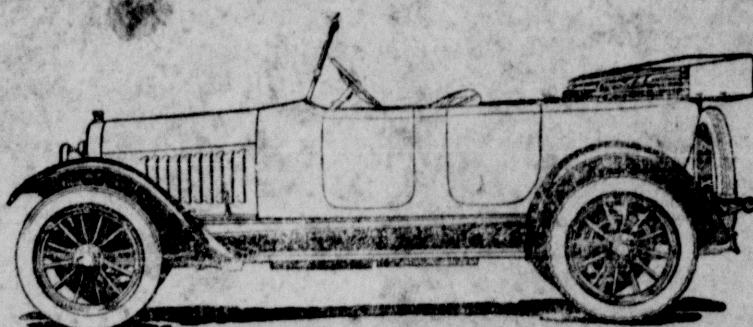

WHY AUTOS ALWAYS RUN BETTER AT NIGHT

According to a factory representative, people used to wonder why an automobile came home at night running better than when it started out in the morning. It was soon discovered that the better running qualities were due to night driving conditions.

The reason for this, he says, is "that at night the air is moist, and moist air contains a considerable amount of water. Water is approximately 87 per cent oxygen by weight and consequently moist air contains just as much more oxygen than dry air by the amount of oxygen that is in the water which the air picks up. Oxygen always improves the combustion. Furthermore, carbon which is set free by the heat of the explosion will combine with oxygen and form carbon monoxide, which is a gas—in other words, you must have oxygen in the mixture to prevent the free carbon from settling as a hard deposit on the piston heads, etc."

two and a half years, and a large portion of this has been directly to the aid of the counties in the inspection of work under way, the preparation of plans and similar work which in other years would have been paid for by the counties to consulting engineers and experts.

During 1917-18 the expenditure for number plates amounted to \$126,252, and for the elapsed six months of 1919 to \$30,330, making a total of \$156,582. The expenditure for seals during the time has been \$21,956.

The Maxwell is a pleasure car. Every feature of its design, every detail in its makeup and all of the items that complete the sum of its serviceability contribute to that end.

That tens of thousands of Maxwell pleasure cars are employed in business service is significant, because many of the attributes that make the Maxwell so desirable as a pleasure car also make it an efficient business car.

But it is still more significant that tens of thousands of Maxwell cars have found continued favor among those motorists to whom a motor car is part and parcel of the family life.
